Financial Data

Certain information in this presentation includes calculations or figures that have been prepared internally and have not been reviewed or audited by our independent registered public accounting firm. Use of different methods for preparing, calculating or presenting information may lead to differences and such differences may be material. This presentation also contains non-GAAP financial measures such as free cash flow and historical revenue on a comparable constant currency basis, which sums historical data of Medtronic and Covidien, aligns Covidien's prior year monthly revenue to Medtronic's fiscal quarters and adjusts for the impact of foreign currency translation. We believe these measures provide a useful way to evaluate our underlying performance. Detail concerning how all non-GAAP measures are calculated, including all non-GAAP to GAAP reconciliations, are posted to our website.
