## Klue

Identify **when** food is being consumed

## Companion Medical

Guide on **when and how much** insulin to dose

Goal: In development  
**Smart CGM + Insulin Pen**

Provide intuitive and personalized dosing intelligence

A close-up photograph of a person's hands holding a black Medtronic insulin pump. The pump's screen is illuminated and displays a large blue number '130' in the center, with 'mg/dL' written below it. To the right of the number, it shows '2.425 U' and 'Act. Insulin'. At the top right of the screen, the time '2:52 PM' is visible. The pump has a clear plastic tube connected to its top. The background is a light-colored wooden floor.
