Directors' Report

For the Financial Year Ended April 29, 2022

The directors present their report, including the audited consolidated financial statements of Medtronic plc and its subsidiaries (the Group) for the financial year ended April 29, 2022, which are set out on pages 43 to 119, and audited entity financial statements of Medtronic plc (the Company or Medtronic) for the financial year ended April 29, 2022, which are set out on pages 120 to 131.

Statement of Directors' Responsibilities

The directors are responsible for preparing the directors' report and the financial statements in accordance with Irish law.

Irish law requires the directors to prepare financial statements for each financial year that give a true and fair view of the Group's and Company's assets, liabilities, and financial position as at the end of the financial year and of the profit or loss of the Group for the financial year. Under that law, the directors have prepared the consolidated financial statements in accordance with U.S. accounting standards, as defined in Section 279(1) of the Companies Act 2014, to the extent that the use of those principles in the preparation of the financial statements does not contravene any provision of the Companies Act, or of any regulations made thereunder, and the Company financial statements in accordance with Irish Generally Accepted Accounting Practice (accounting standards issued by the UK Financial Reporting Council, including Financial Reporting Standard 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland* and Irish law).

Under Irish law, the directors shall not approve the financial statements unless they are satisfied that they give a true and fair view of the Group's and Company's assets, liabilities, and financial position as at the end of the financial year and the profit or loss of the Group for the financial year.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state that the consolidated financial statements of the Group comply with accounting principles generally accepted in the United States of America (U.S.) (U.S. GAAP) to the extent that it does not contravene Irish Company Law, and that the entity financial statements of the Company comply with accounting standards issued by the UK Financial Reporting Council and Irish Law; and
- prepare the Group and Company financial statements on the going concern basis, unless it is inappropriate to presume the Group and Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the Group and Company;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Group and Company to be determined with reasonable accuracy; and
- enable the directors to ensure that the financial statements comply with the Companies Act 2014 and enable those
 financial statements to be audited.

The directors are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website (www.medtronic.com). Legislation in Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Accounting Records

The measures taken by the directors to secure compliance with the Company's obligation to keep adequate accounting records are the use of appropriate systems and procedures and employment of competent persons. The accounting records are kept at the Group's registered office at 20 On Hatch, Lower Hatch Street, Dublin 2, Ireland.

Directors' Compliance Statement

As required by Section 225 of the Companies Act 2014, the directors acknowledge they are responsible for securing compliance by the Company with its Relevant Obligations as defined in the Companies Act 2014 (hereinafter called the Relevant Obligations).

The directors confirm the Company (i) has drawn up and adopted a compliance policy statement setting out the Company's policies that, in the directors' opinion, are appropriate to the Company respecting compliance by the Company with its Relevant Obligations; and (ii) has put in place appropriate arrangements or structures that are, in the directors' opinion, designed to secure material compliance with the Company's Relevant Obligations.

A review of the arrangements and structures in place to ensure compliance with the Company's Relevant Obligations has been conducted in the financial year to which this report relates.

Basis of Presentation

The following discussion and analysis provides information the directors believe to be relevant to understanding the financial condition and results of operations of the Group. The directors have elected to prepare the consolidated financial statements in accordance with Section 279 of the Companies Act 2014, which provides that a true and fair view of the assets and liabilities, financial position and profit or loss may be given by preparing the financial statements in accordance with U.S. GAAP, as defined in that section to the extent that the use of those principles in the preparation of the financial statements does not contravene any provision of Part 6 of the Companies Act 2014.

We report our results based on a 52/53 week fiscal year, ending the last Friday of April. The financial year ended April 29, 2022 (fiscal year 2022) was a 52-week fiscal year, and the financial year ended April 30, 2021 (fiscal year 2021) was a 53-week fiscal year. Amounts reported in millions within this Irish annual report are computed based on the amounts in thousands, and therefore, the sum of the components may not equal the total amount reported in millions due to rounding. Additionally, certain columns and rows within tables may not sum due to rounding.

Principal Activities

76	150+	95,000+	\$2.7	49,000+
Million+ Patients Served	Countries in Which We Operate	Employees	Billion Research and Development Spend	Patents

Medtronic plc, headquartered in Dublin, Ireland, is the leading global healthcare technology company. Medtronic was founded in 1949 and today serves healthcare systems, physicians, clinicians, and patients in more than 150 countries worldwide. We remain committed to a mission written by our founder in 1960 that directs us "to contribute to human welfare by the application of biomedical engineering in the research, design, manufacture, and sale of products to alleviate pain, restore health, and extend life."

Our Mission — to alleviate pain, restore health, and extend life — empowers insight-driven care and better outcomes for our world. We remain committed to being recognized as a company of dedication, honesty, integrity, and service. Building on this strong foundation, we are embracing our role as a healthcare technology leader and evolving our business strategy in four key areas:

- Leveraging our pipeline to win market share: The combination of our good end markets, recent product launches and
 robust pipeline is expected to continue accelerating our growth over both the near-and long-term. We aim to bring
 inventive and disruptive technology to large healthcare opportunities which enables us to better meet patient needs.
 Patients around the world deserve access to our life-saving products, and we are driven to use our local presence and
 scale to increase the adoption of our products and services in markets around the globe.
- Serving more patients by accelerating innovation driven growth and delivering shareholder value: We listen to our
 patients and customers to better understand the challenges they face. From the patient journey, to creating agile
 partnerships that produce novel solutions, to making it easier for our customers to deploy our therapies everything
 we do is anchored in deep insight, and creates simpler, superior experiences.
- Creating and disrupting markets with our technology: We are confident in our ability to maximize new technology, artificial intelligence (AI), and data and analytics to tailor therapies in real-time, facilitating remote monitoring and care delivery that conveniently manages conditions, and creates new standards of care.
- Empowering our operating units to be more nimble and more competitive: Our operating model, which was effective
 February 2021, simplified our organization to accelerate decision making, improve commercial execution, and more
 effectively leverage the scale of our Group.

We have four operating and reportable segments that primarily develop, manufacture, distribute, and sell device-based medical therapies and services: the Cardiovascular Portfolio, the Medical Surgical Portfolio, the Neuroscience Portfolio, and the Diabetes Operating Unit.

Cardiovascular Portfolio The Cardiovascular Portfolio is made up of the Cardiac Rhythm & Heart Failure, Structural Heart & Aortic, and Coronary & Peripheral Vascular divisions. The primary medical specialists who use our Cardiovascular products include electrophysiologists, implanting cardiologists, heart failure specialists, cardiovascular, cardiothoracic, and vascular surgeons, and interventional cardiologists and radiologists.

Medical Surgical Portfolio The Medical Surgical Portfolio is made up of the Surgical Innovations and Respiratory, Gastrointestinal, & Renal divisions. Products and therapies of this group are used primarily by healthcare systems, physicians' offices, ambulatory care centers, and other alternate site healthcare providers. While less frequent, some products and therapies are also used in home settings.

Neuroscience Portfolio The Neuroscience Portfolio is made up of the Cranial & Spinal Technologies, Specialty Therapies, and Neuromodulation divisions. The primary medical specialists who use the products of this group include spinal surgeons, neurosurgeons, neurologists, pain management specialists, anesthesiologists, orthopedic surgeons, urologists, urogynecologists, interventional radiologists, and ear, nose, and throat specialists.

Diabetes Operating Unit The Diabetes Operating Unit develops, manufactures, and markets products and services for the management of Type 1 and Type 2 diabetes. The primary medical specialists who use and/or prescribe our Diabetes products are endocrinologists and primary care physicians.

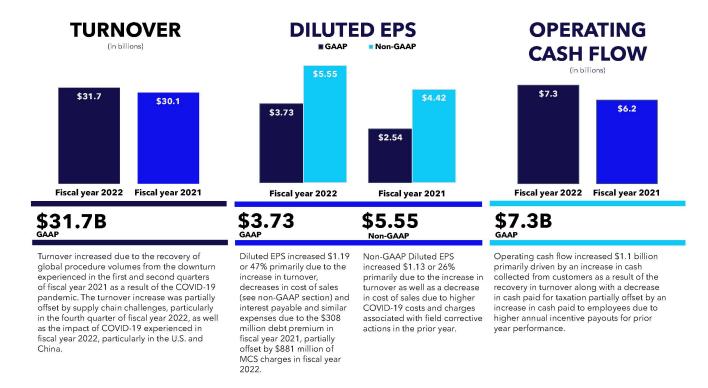

Business Review

The global healthcare system is continuing to respond to the unprecedented challenge posed by the COVID-19 pandemic ("COVID-19" or the "pandemic"). Most of our businesses were affected by a decline in global procedural volumes during fiscal year 2021, particularly in the first and second quarters. During fiscal year 2022, the pandemic, to a lesser extent, continued to affect most of our businesses, including the most recent COVID-19 lockdown in China which began in late March. In addition to the pandemic, the Group faced the impacts of healthcare system staffing shortages on procedural volumes and significant supply chain disruptions in certain businesses particularly in the fourth quarter of fiscal year 2022. We cannot predict with confidence the duration and severity of the pandemic and its impact on global procedure volumes. We expect medical procedure rates may continue to vary by therapy and country and to be impacted by regional COVID-19 case volumes, vaccine and booster immunization rates, and new COVID-19 variants. Additionally, we cannot predict the impact healthcare system staffing shortages will have on procedural volumes, and the impact supply chain disruptions will have on the Group.

Key Performance Indicators

Consolidated Results of Operations

The following is a summary of turnover, diluted earnings per share (diluted EPS), and cash flow for fiscal years 2022 and 2021:

GAAP to Non-GAAP Reconciliations

Starting with the quarter ended April 29, 2022, the Group will no longer adjust non-GAAP financial measures for certain license payments for, or acquisitions of, technology not approved by regulators due to recent industry guidance from the U.S. Securities and Exchange Commission. Historical non-GAAP financial measures presented in this Irish Annual Report have been recast for comparability.

The tables below present reconciliations of our non-GAAP financial measures to the most directly comparable financial measures prepared in accordance with U.S. GAAP for fiscal years 2022 and 2021.

	Fiscal year ended April 29, 2022								
(in millions, except per share data)		Profit Before Taxation		Taxation	Profit for the Financial Year	Diluted EPS		Effective Tax Rate	
GAAP	\$	5,517	\$	456	\$ 5,039	\$	3.73	8.3 %	
Non-GAAP Adjustments:									
Restructuring and associated costs (1)		335		54	281		0.21	16.1	
Acquisition-related items (2)		(43)		5	(48)		(0.04)	(11.6)	
Certain litigation charges		95		17	78		0.06	17.9	
(Gain)/loss on minority investments (3)		(12)			(9)		(0.01)		
Medical device regulations (4)		102		16	86		0.06	15.7	
Amortization of intangible assets		1,733		266	1,467		1.09	15.3	
MCS impairment / costs (5)		881		220	661		0.49	25.0	
Certain tax adjustments, net (6)		_		50	(50)		(0.04)	_	
Non-GAAP	\$	8,609	\$	1,084	\$ 7,505	\$	5.55	12.6 %	

(in millions, except per share data)	Profit Before Taxation		Taxation		Profit for the Financial Year		Diluted EPS				Effective Tax Rate
GAAP	\$	3,675	\$	215	\$	3,436	\$	2.54	5.9 %		
Non-GAAP Adjustments:											
Restructuring and associated costs (1)		617		128		489		0.36	20.7		
Acquisition-related items (2)		117		11		106		0.08	9.4		
Certain litigation charges		206		42		164		0.12	20.4		
(Gain)/loss on minority investments (3)		(61)		_		(57)		(0.04)	_		
Impairment charges (7)		76		7		68		0.05	10.5		
Medical device regulations (4)		83		15		68		0.05	18.1		
Debt tender premium and other charges (8)		308		60		248		0.18	19.5		
Amortization of intangible assets		1,783		283		1,500		1.11	15.9		
Certain tax adjustments, net (9)				41		(41)		(0.03)			
Non-GAAP	\$	6,804	\$	802	\$	5,980	\$	4.42	11.8 %		

- Associated costs include costs incurred as a direct result of the restructuring program, such as salaries for employees supporting the program and consulting expenses.
- (2) The charges primarily include business combination costs, changes in fair value of contingent consideration, specifically for the fiscal year ended April 30, 2021, changes in amounts accrued for certain contingent liabilities for a past acquisition.
- (3) We exclude unrealized and realized gains and losses on our minority investments as we do not believe that these components of profit or expense have a direct correlation to our ongoing or future business operations.
- (4) The charges represent estimated incremental costs of complying with the new European Union medical device regulations for previously registered products and primarily include charges for contractors supporting the project and other direct third-party expenses, which are expected to be substantially complete by the end of fiscal year 2023.
- (5) The charges relate to the Group's June 2021 decision to stop the distribution and sale of the Medtronic HVAD System within the Mechanical Circulatory Support Operating Unit (MCS). The charges included \$515 million of non-cash impairments, primarily related to \$409 million of intangible asset impairments, as well as \$366 million for commitments and obligations in connection with the decision, including patient support obligations, restructuring, and other associated costs. We are committed to serving the needs of the approximately 3,500 patients currently implanted with the HVAD System.
- (6) The net benefit primarily relates to the deferred taxation impact associated with a step up in tax basis for Swiss Cantonal purposes and a change in tax rates on deferred taxation associated with intellectual property, which are partially offset by the amortization on previously established deferred tax assets from intercompany intellectual property transactions and a charge related to a change in the Group's permanent reinvestment assertion on certain historical profit.
- (7) The charges relate to the abandonment of certain intangible assets in our Neuroscience segment.
- (8) The charges relate to the early redemption of approximately \$6.0 billion of debt.
- (9) The net benefit primarily relates to the finalization of an audit at the IRS Appellate level for fiscal years 2012 through 2014 and the capitalization of certain research and development costs for U.S. taxation purposes, which are partially offset by the impact of an intercompany sale of assets, and a tax basis adjustment and amortization of previously established deferred tax assets from intercompany intellectual property transactions.

Free Cash Flow

Free cash flow, a non-GAAP financial measure, is calculated by subtracting additions to tangible assets from net cash provided by operating activities. Management uses this non-GAAP financial measure, in addition to U.S. GAAP financial measures, to evaluate our operating results. Free cash flow should be considered supplemental to, and not a substitute for, our reported financial results prepared in accordance with U.S. GAAP. Reconciliations between net cash provided by operating activities (the most comparable U.S. GAAP measure) and free cash flow are as follows:

	Fiscal	Year	
(in millions)	2022		2021
Net cash provided by operating activities	\$ 7,346	\$	6,240
Additions to tangible assets	(1,368)		(1,355)
Free cash flow	\$ 5,978	\$	4,885

Turnover

The table below includes turnover by segment and division for fiscal years 2022 and 2021:

	Turnover by Fiscal Year			Percent											
(in millions)		2022		2022		2022		2022		2022		2022		2021	Change
Cardiac Rhythm & Heart Failure	\$	5,908	\$	5,584	6 %										
Structural Heart & Aortic		3,055		2,834	8										
Coronary & Peripheral Vascular		2,460		2,354	5										
Cardiovascular		11,423		10,772	6										
Surgical Innovations		6,060		5,438	11										
Respiratory, Gastrointestinal, & Renal		3,081		3,298	(7)										
Medical Surgical		9,141		8,737	5										
Cranial & Spinal Technologies		4,456		4,288	4										
Specialty Therapies		2,592		2,307	12										
Neuromodulation		1,735		1,601	8										
Neuroscience		8,784		8,195	7										
Diabetes		2,338		2,413	(3)										
Total	\$	31,686	\$	30,117	5 %										
	_														

The table below includes turnover by market geography for each of our segments for fiscal years 2022 and 2021:

		U.S. ⁽¹⁾		Non-U.S. Developed Markets ⁽²⁾ Emerging Market				Iarkets ⁽³⁾		
(in millions)	Fiscal Year 2022	Fiscal Year 2021	% Change	Fiscal Year 2022	Fiscal Year 2021	% Change	Fiscal Year 2022	Fiscal Year 2021	% Change	
Cardiovascular	\$ 5,545	\$ 5,248	6 %	\$ 3,866	\$ 3,752	3 %	\$ 2,012	\$ 1,773	13 %	
Medical Surgical	3,862	3,650	6	3,373	3,320	2	1,905	1,766	8	
Neuroscience	5,753	5,456	5	1,801	1,724	4	1,229	1,015	21	
Diabetes	974	1,171	(17)	1,085	1,019	6	279	222	26	
Total	\$ 16,135	\$ 15,526	4 %	\$ 10,126	\$ 9,815	3 %	\$ 5,426	\$ 4,777	14 %	

- (1) U.S. includes the United States and U.S. territories.
- (2) Non-U.S. developed markets include Japan, Australia, New Zealand, Korea, Canada, and the countries within Western Europe.
- (3) Emerging markets include the countries of the Middle East, Africa, Latin America, Eastern Europe, and the countries of Asia that are not included in the non-U.S. developed markets, as defined above.

The increase in turnover for fiscal year 2022 was primarily due to the recovery of global procedure volumes from the downturn experienced in the first and second quarters of fiscal year 2021 as a result of the COVID-19 pandemic. The turnover increase was partially offset by supply chain challenges, particularly in the fourth quarter of fiscal year 2022, as well as the impact of COVID-19 experienced in fiscal year 2022, particularly in the U.S. and China. For fiscal year 2022, currency had an unfavorable impact of \$107 million on non-U.S. developed markets and a favorable impact of \$33 million on emerging markets.

Looking ahead, a number of macro-economic and geopolitical factors could negatively impact our business, including without limitation:

- The uncertain and uneven impact of COVID-19 on future procedural volumes, supply constraints including certain electronic components and semiconductors, healthcare staffing, worker absenteeism with our customers, suppliers, and in our own operations and field teams, and resulting impacts on demand for our products and therapies;
- The potential impact that sanctions and other measures being imposed in response to the Russia-Ukraine conflict could have on turnover and supply chain. The financial impact of the conflict in the fourth quarter of fiscal year 2022, including on trade debtors and inventory reserves, was not material and for the fiscal year ended April 29, 2022, the business of the Group in these countries represented less than 1 percent of the Group's consolidated turnover and assets. Although the implications of this conflict are difficult to predict at this time, the ongoing conflict may increase pressure on the global economy and supply chains, resulting in increased future volatility risk for our business operations and performance.
- Competitive product launches and pricing pressure, geographic macro-economic risks including general price
 inflation, rising interest rates, reimbursement challenges, impacts from changes in the mix of our product offerings,
 delays in product registration approvals, replacement cycle challenges, and fluctuations in currency exchange rates;
 and
- National and provincial tender pricing for certain products, particularly in China.

Cardiovascular

Cardiovascular products include pacemakers, insertable cardiac monitors, cardiac resynchronization therapy devices, implantable cardioverter defibrillators (ICD), leads and delivery systems, electrophysiology catheters, products for the treatment of atrial fibrillation, information systems for the management of patients with Cardiac Rhythm & Heart Failure devices, products designed to reduce surgical site infections, coronary and peripheral stents and related delivery systems, balloons and related delivery systems, endovascular stent graft systems, heart valve replacement technologies, cardiac tissue ablation systems, and open heart and coronary bypass grafting surgical products. Cardiovascular also includes Care Management Services and Cath Lab Managed Services (CLMS) within the Cardiac Rhythm & Heart Failure division. Cardiovascular turnover for fiscal year 2022 was \$11.4 billion, an increase of 6 percent as compared to fiscal year 2021. Currency had an unfavorable impact on turnover for fiscal year 2022 of \$32 million. The turnover increase was primarily due to the recovery of global procedure volumes from the declines experienced in fiscal year 2021 along with growth from recent product launches, partially offset by global supply chain disruptions and declines in China due to recent COVID-19 lockdowns.

Cardiac Rhythm & Heart Failure turnover increased 6 percent in fiscal year 2022 as compared to fiscal year 2021. The increase was led by Cardiac Rhythm Management with growth in TYRX antibacterial envelopes, CRT-Ds, and cardiac pacing therapies due to Micra and transvenous pacemakers. Cardiac Ablation Solutions also led growth with strong turnover of Arctic Front cryoablation systems. The turnover growth was partially offset by a decline of Medtronic HVAD System turnover as a result of our June 2021 decision to stop the distribution and turnover of the system. The turnover for the Medtronic HVAD system for fiscal year 2021 was \$141 million.

Structural Heart & Aortic turnover increased 8 percent in fiscal year 2022 as compared to fiscal year 2021. The increase was led by growth in transcatheter aortic valve replacement (TAVR) turnover as a result of continued adoption of the CoreValve Evolut. Cardiac Surgery also contributed to the net increase in turnover as a result of broad growth across the business, particularly from strong turnover of Extra-Corporeal Life Support (ECLS) devices. These increases were partially offset by declines within Aortic caused by field corrective actions (FCA) and COVID-19 challenges. The most notable field corrective actions were for the Valiant Navion Thoracic Stent Graft System FCA issued in the fourth quarter of fiscal year 2021 and the Endurant II/IIs Stent Graft Systems FCA issued in the third quarter of fiscal year 2022.

Coronary & Peripheral Vascular turnover increased 5 percent in fiscal year 2022 as compared to fiscal year 2021. The increase was led by growth in Peripheral Vascular Health driven by strong performance of the recently launched Abre venous self-expanding stent system for Deep Venous disease, as well as our superficial venous product portfolio, including the VenaSeal and ClosureFast systems. The increase was partially offset by declines in Coronary as well as Atherectomy products due to impacts of COVID-19 on procedural volumes.

Medical Surgical

Medical Surgical's products span the entire continuum of patient care from diagnosis to recovery, with a focus on diseases of the gastrointestinal tract, lungs, pelvic region, kidneys, obesity, and preventable complications. The products include those for advanced and general surgical products, surgical stapling devices, vessel sealing instruments, wound closure, electrosurgery

products, hernia mechanical devices, mesh implants, advanced ablation, interventional lung, ventilators, airway products, renal care products, and sensors and monitors for pulse oximetry, capnography, level of consciousness and cerebral oximetry. Medical Surgical's turnover for fiscal year 2022 was \$9.1 billion, an increase of 5 percent as compared to fiscal year 2021. Currency had an unfavorable impact on turnover of \$44 million for fiscal year 2022. The turnover increase was primarily due to the recovery of global procedure volumes from the declines experienced in fiscal year 2021 partially offset by global supply chain disruptions and declines in China due to recent COVID-19 lockdowns.

Surgical Innovations turnover for fiscal year 2022 increased 11 percent as compared to fiscal year 2021. Turnover growth was led by Advanced Surgical instruments, driven by the continued adoption of the Group's LigaSure, Sonicision, and Tri-Staple technologies, and Hernia and Wound Management. The increase was partially offset by declines in the fourth quarter of fiscal year 2022 resulting from global supply chain challenges, including resins, semiconductors, and packaging trays, which impacted energy and stapling products.

Respiratory, Gastrointestinal, & Renal (RGR) turnover for fiscal year 2022 decreased 7 percent as compared to fiscal year 2021. RGR turnover declines were largely due to declines in ventilator demands when compared to fiscal year 2021 as demand returned to pre-pandemic levels in the fourth quarter of fiscal year 2022. These declines were partially offset by growth in Patient Monitoring, led by the Nellcor pulse oximetry sensors and the Bispectral Index (BIS) sensors, Gastrointestinal, driven by the esophageal product portfolio, as well as growth in Renal Care Solutions.

Neuroscience

Neuroscience's products include various spinal implants, bone graft substitutes, biologic products, image-guided surgery and intra-operative imaging systems, robotic guidance systems used in the robot-assisted spine procedures, and systems that incorporate advanced energy surgical instruments. Neuroscience's products also focus on the treatment of overactive bladder, urinary retention, fecal incontinence, as well as products to treat ear, nose, and throat (ENT), and therapies to treat the diseases of the vasculature in and around the brain, including coils, neurovascular stents and flow diversion products. Neuroscience also manufactures products related to implantable neurostimulation therapies and drug delivery systems for the treatment of chronic pain, movement disorders, and epilepsy. Neuroscience's turnover for fiscal year 2022 was \$8.8 billion, an increase of 7 percent as compared to fiscal year 2021. Currency had a favorable impact on turnover for fiscal year 2022 of \$3 million. The turnover increase was primarily due to the recovery of global procedure volumes from the declines experienced in fiscal year 2021, partially offset by global supply chain disruptions and declines in China due to COVID-19 lockdowns and reduced turnover in advance of potential national volume-based pricing (VBP) tenders.

Cranial & Spinal Technologies (CST) turnover for fiscal year 2022 increased 4 percent as compared to fiscal year 2021. Turnover growth was primarily driven by Neurosurgery with strong turnover of the Midas Rex powered surgical instruments and StealthStation Navigation and O-arm Imaging System. Growth in CST also occurred in Spine and Biologics due to the recovery of global procedural volumes in the U.S., Japan, and Western Europe compared to the prior fiscal year. This growth was partially offset by recent reduced turnover in China in advance of potential national VBP tender in Spine.

Specialty Therapies turnover for fiscal year 2022 increased 12 percent as compared to fiscal year 2021. Turnover growth was primarily driven by strength in Pelvic Health, ENT, and Neurovascular. Pelvic Health's growth was led by turnover of the recently launched InterStim Micro neurostimulator and SureScan MRI leads. ENT growth was driven by the turnover of StealthStation ENT Navigation System despite continued supply constraints in disposables, which are recovering. Neurovascular's growth was led by turnover of flow diversion, hemorrhagic stroke, and liquid embolic products.

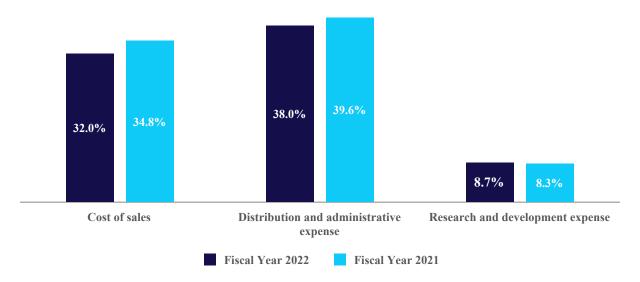

Neuromodulation turnover for fiscal year 2022 increased 8 percent as compared to fiscal year 2021. Turnover growth occurred in both Pain Therapies and Brain Modulation and reflected a recovery in procedural volumes. Turnover growth was driven by strong performance of the Percept PC deep brain stimulation (DBS) device with BrainSense technology in Brain Modulation.

Diabetes

Diabetes' products include insulin pumps, continuous glucose monitoring (CGM) systems, consumables, and smart insulin pen systems. Diabetes' turnover for fiscal year 2022 was \$2.3 billion, a decrease of 3 percent as compared to fiscal year 2021. Currency had an unfavorable impact on turnover for fiscal year 2022 of \$2 million. Diabetes' turnover decline for fiscal year 2022 was primarily attributable to declines in the U.S. partially offset by growth in the MiniMed 780G insulin pump system and integrated CGM in the international markets.

Cost and Expenses

The following is a summary of cost of sales, distribution and administrative expense, and research and development expense as a percent of turnover:

Cost of Sales We continue to focus on reducing our costs of production through supplier management, manufacturing improvements, and optimizing our manufacturing network. Cost of sales for fiscal year 2022 was \$10.1 billion as compared to \$10.5 billion for fiscal year 2021. The decrease in cost of sales as a percentage of turnover was largely due to the conditions of the pandemic during fiscal year 2021, which resulted in recognizing a portion of our fixed overhead costs as period expenses, increases in our reserves in our excess and obsolete inventory, as well as negative impact from mix, as products in higher demand had lower gross margins. The decrease was also attributable to charges from field correction actions in the prior year. Fiscal year 2022 included \$58 million of inventory write-downs associated with our June 2021 decision to stop the distribution and sale of Medtronic's HVAD System (MCS charges). Looking forward, our cost of sales likely will be further negatively impacted by inflation and higher labor and direct material costs.

Distribution and Administrative Expense Our goal is to continue to leverage distribution and administrative expense initiatives. Distribution and administrative expense primarily consists of salaries and wages, other administrative costs, such as professional fees and marketing expenses, amortization of intangible assets, and certain acquisition and restructuring expenses. Distribution and administrative expense for fiscal year 2022 was \$12.0 billion as compared to \$11.9 billion for fiscal year 2021. The decrease in distribution and administrative expense as a percentage of turnover was primarily driven by turnover growth as a result of the recovery of procedural volumes partially offset by increases in employee travel as compared to the corresponding period in the prior year when travel was limited.

Research and Development Expense We remain committed to deliver the best possible experiences for every patient, physician, and caregiver we serve; to create technologies that expand what's possible across the entire human body to transform lives; to turn data and insights into real action to serve real patient needs, dramatically improving care; and to expand healthcare access and deliver positive outcomes that go far beyond our products. Research and development expense for fiscal year 2022 was \$2.7 billion as compared to \$2.5 billion for fiscal year 2021. Fiscal year 2022 included \$101 million of acquisitions of, and license payments for, technology not approved by regulators, primarily in our Diabetes segment.

The following is a summary of other costs and expenses (income):

_				r
(in millions)		2022		2021
Restructuring charges, net	\$	60	\$	293
Certain litigation charges		95		206
Other operating expense, net		862		447
Other non-operating income, net		(318)		(336)
Interest payable and similar expenses		553		925

Restructuring Charges, Net

Enterprise Excellence

In the third quarter of fiscal year 2018, we announced a multi-year global Enterprise Excellence Program designed to drive long-term business growth and sustainable efficiency. Further program details are described in Note 3 of the consolidated financial statements.

Since inception, we have incurred pre-tax exit and disposal costs and other costs, across all segments, of \$1.6 billion in connection with the Enterprise Excellence program. In total, we estimate we will recognize approximately \$1.8 billion of exit and disposal costs and other costs related to the Enterprise Excellence program by the end of fiscal year 2023.

For fiscal years 2022 and 2021, we recognized net charges of \$259 million and \$349 million, respectively, including \$31 million and \$52 million, respectively within *restructuring charges, net* in the consolidated profit and loss account which were primarily comprised of employee termination benefits. For fiscal years 2022 and 2021, charges also included costs incurred as a direct result of the restructuring program, such as salaries for employees supporting the program and consulting, including \$116 million and \$128 million, respectively, recognized within *cost of sales,* and \$112 million and \$169 million, respectively, recognized within *distribution and administrative expense* in the consolidated profit and loss account.

Simplification

In the first quarter of fiscal year 2021, we initiated our Simplification restructuring program designed to make the Group a more nimble and competitive organization. Further program details are described in Note 3 of the consolidated financial statements.

Since inception, we have incurred pre-tax exit and disposal costs and other costs, across all segments, of \$349 million in connection with the Simplification program. In total, we estimate we will recognize approximately \$450 million of exit and disposal costs and other costs related to the Simplification program by the end of fiscal year 2023.

For fiscal years 2022 and 2021, we recognized net charges of \$82 million and \$268 million, respectively, including \$35 million and \$241 million, respectively, within *restructuring charges, net* in the consolidated profit and loss account which were primarily comprised of employee termination benefits. For fiscal years 2022 and 2021, charges also included costs incurred as a direct result of the restructuring program, such as salaries for employees supporting the program and consulting, including \$45 million and \$27 million, respectively, recognized within *distribution and administrative expense* in the consolidated profit and loss account. The net charges for fiscal year 2021 included \$97 million of incremental defined benefit pension and post-retirement related expenses for employees that accepted voluntary early retirement packages.

Certain Litigation Charges We classify specified certain litigation charges and gains related to significant legal matters as *certain litigation charges* in the consolidated profit and loss account. During fiscal years 2022 and 2021, we recognized \$95 million and \$206 million, respectively, of certain litigation charges related to probable and estimable damages for significant legal matters.

Other Operating Expense, Net Other operating expense, net primarily includes royalty income and expense, currency remeasurement and derivative gains and losses, Puerto Rico excise taxes, changes in the fair value of contingent consideration, changes in amounts accrued for certain contingent liabilities for a past acquisition, MCS charges, impairment charges, and profit from funded research and development arrangements.

The increase in other operating expense, net was primarily driven by MCS charges recorded in fiscal year 2022. The charges of \$823 million primarily included \$409 million of intangible asset impairments and \$366 million for commitments and obligations, including customer support obligations, restructuring, and other associated costs. The increase was partially offset by changes in fair value of contingent consideration, which resulted in \$103 million of income for fiscal year 2022 as compared to \$36 million of expense in fiscal year 2021. The net currency impact of remeasurement expense and our hedging programs also partially offset the increase with \$70 million of income in fiscal year 2022 and \$47 million of expense in fiscal year 2021. Finally, contributing to the change was a \$132 million gain related to amounts accrued for certain contingent liabilities for a past acquisition and \$76 million of impairment charges related to the abandonment of certain intangible assets, both in fiscal year 2021. Additional information regarding the MCS charges is described in Note 3 of the consolidated financial statements.

Other Non-Operating Income, Net Other non-operating income, net includes the non-service component of net periodic pension and postretirement benefit cost, investment gains and losses, and interest receivable and similar income. The decrease in other non-operating income, net for fiscal year 2022 is driven by our equity method and minority investments portfolio offset by an increase in income from the non-service component of net periodic pension and postretirement benefit cost. Gains on equity method and minority investments were \$30 million and \$61 million for fiscal year 2022 and 2021, respectively, and income related to the non-service component of net periodic pension and postretirement benefits was \$107 million and \$86 million, respectively.

Interest Payable and Similar Expenses Interest payable and similar expenses includes interest incurred on our outstanding borrowings, amortization of debt issuance costs and debt premiums or discounts, amortization of gains or losses on terminated or de-designated interest rate derivative instruments, and charges recognized in connection with the tender and early redemption of senior notes. The decrease in interest payable and similar expenses for fiscal year 2022 was primarily due to the \$308 million charge incurred as a result of the early redemption of approximately \$6.0 billion of debt during fiscal year 2021.

Certain Tax Adjustments

During fiscal year 2022, the net benefit from certain tax adjustments of \$50 million, recognized in *taxation* in the consolidated profit and loss account, included the following:

- A benefit of \$82 million associated with a step up in tax basis for Swiss Cantonal purposes.
- A benefit of \$82 million related to a change in tax rates on intangible assets.
- A cost of \$47 million associated with the amortization of the previously established deferred tax assets from intercompany intellectual property transactions.
- A cost of \$41 million associated with a change in the Group's permanent reinvestment assertion on certain historical profits.
- A net cost of \$26 million primarily associated with an intercompany sale of assets.

During fiscal year 2021, the net benefit from certain tax adjustments of \$41 million, recognized in *taxation* in the consolidated profit and loss account, included the following:

- A net benefit of \$106 million associated with the resolution of an audit at the IRS Appellate level for fiscal years 2012, 2013, and 2014. The issues resolved relate to the utilization of certain net operating losses and the allocation of profit between Medtronic, Inc. and its wholly owned subsidiary operating in Puerto Rico for businesses that are not the subject of the U.S. Tax Court Case for fiscal years 2005 and 2006.
- A net cost of \$73 million related to a tax basis adjustment of previously established deferred tax assets from intercompany intellectual property transactions. The cumulative amount of deferred tax benefit previously recognized from intercompany intellectual property transactions and recorded as Certain Tax Adjustments was \$1.5 billion. The corresponding deferred tax assets will be amortized over a period of approximately 20 years.
- A cost of \$50 million associated with the amortization of the previously established deferred tax assets from intercompany intellectual property transactions.
- A net cost of \$25 million associated with an internal restructuring and intercompany sale of assets.
- A benefit of \$83 million related to the capitalization of certain research and development costs for U.S. taxation
 purposes and the establishment of a deferred tax asset at the U.S. federal statutory tax rate.

Certain tax adjustments will affect the comparability of our operating results between periods. Therefore, we consider these Non-GAAP Adjustments. Refer to the "Key Performance Indicators" section of this Directors' Report for further discussion of these adjustments.

Subsequent to April 29, 2022, on August 18, 2022 the U.S. Tax Court (Tax Court) issued its opinion on the previously disclosed litigation regarding the allocation of profit between Medtronic, Inc. and its wholly-owned subsidiary operating in Puerto Rico for fiscal years 2005 and 2006 (Opinion). While the Opinion rejected the IRS's position and the Tax Court determined the methodology advanced by Medtronic was appropriate for purposes of determining the intercompany royalty rate between Puerto Rico and the U.S., it determined that the royalty rate should be higher, thereby increasing profit allocated to the U.S. and consequently subject to U.S. taxation. This case relates only to fiscal years 2005 and 2006. The Opinion remains subject to finalization by the Tax Court and to appeal by either or both parties. At this time, the Group is evaluating the impact of the Opinion and whether the Group will appeal. If the Opinion is finalized as is, without appeal by either party, the Group anticipates the findings will likely be applied for all years following fiscal year 2006. Under this potential scenario, the Group has currently estimated a potential taxation charge, including interest, of up to \$2.0 billion, which would result in a future cash payment of up to \$2.5 billion and no material impact to the Group's taxation rate going forward.

LIQUIDITY AND CAPITAL RESOURCES

We are currently in a strong financial position, and we believe our balance sheet and liquidity as of April 29, 2022 provide us with flexibility, and our cash at bank and in hand and current investments, along with our credit facility and related commercial paper programs will satisfy our foreseeable operating needs.

Our liquidity and capital structure are evaluated regularly within the context of our annual operating and strategic planning processes. We consider the liquidity necessary to fund our operations, which includes working capital needs, investments in research and development, tangible assets, and other operating costs. We also consider capital allocation alternatives that balance returning value to shareholders through dividends and share redemptions, satisfying maturing debt, and acquiring businesses and technology.

Summary of Cash Flows

The following is a summary of cash provided by (used in) operating, investing, and financing activities, the effect of exchange rate changes on cash at bank and in hand, and the net change in cash at bank and in hand:

	Fiscal	Year	/ear		
2022			2021		
\$	7,346	\$	6,240		
	(1,659)		(2,866)		
	(5,336)		(4,136)		
	(231)		215		
\$	121	\$	(547)		
	\$	\$ 7,346 (1,659) (5,336) (231)	\$ 7,346 \$ (1,659) (5,336) (231)		

Operating Activities The \$1.1 billion increase in net cash provided was primarily driven by an increase in cash collected from customers along with a decrease in cash paid for taxation. The increase in net cash provided was partially offset by an increase in cash paid to employees. The increase in cash collected from customers was primarily related to COVID-19 driving decreased turnover in the fourth quarter of fiscal year 2020 and first quarter of fiscal year 2021. The decrease in cash paid for taxation was primarily due to increased estimated federal tax payments and tax payments associated with IRS audit settlements in fiscal year 2021. Cash paid to employees increased due to higher annual incentive plan payouts compared to the prior fiscal year.

Investing Activities The \$1.2 billion decrease in net cash used was primarily attributable to a decrease in cash paid for acquisitions of \$903 million, as well as a decrease of net purchases of investments of \$273 million as compared to fiscal year 2021.

Financing Activities The \$1.2 billion increase in net cash used was largely the result of the increase of share redemptions of \$1.9 billion. The increase in net cash used was offset by a decrease in short-term borrowings of \$311 million. For fiscal year 2021, financing cash flows were impacted by the Mizuho Bank term loan under which we borrowed ¥300 billion in the first quarter of fiscal year 2021, which was subsequently repaid in the fourth quarter of fiscal year 2021. Fiscal year 2021 financing cash flows were also impacted by the issuance of \$7.2 billion of Euro-denominated senior notes offset by the early redemption of \$6.0 billion of senior notes for \$6.3 billion of total consideration, and repayment of an additional \$911 million of Euro-denominated senior notes. For more information on the Mizuho Bank term loan, and issuances and redemption of senior notes, refer to Note 17 of the consolidated financial statements.

Debt and Capital

Our capital structure consists of equity and interest-bearing debt. We primarily utilize unsecured senior debt obligations to meet our financing needs and, to a lesser extent, bank borrowings. From time to time, we may redeem our outstanding debt obligations in the open market or through privately negotiated transactions.

Total debt at April 29, 2022 was \$24.1 billion, as compared to \$26.4 billion at April 30, 2021. The decrease in total debt was driven by fluctuations in exchange rates as it pertains to our Euro-denominated senior notes.

Subsequent to fiscal year 2022, on May 2, 2022, we entered into a term loan agreement (Fiscal 2023 Loan Agreement) with Mizuho Bank, Ltd. for an aggregate principal amount of up to \(\frac{4}{3}00\) billion with a term of 364 days. In May and June 2022, Medtronic Luxco borrowed an aggregate of \(\frac{4}{2}27\) billion, or approximately \(\frac{5}{2}.3\) billion, of the term loan, under the Fiscal 2023 Loan Agreement. The Group used the net proceeds of the borrowings to fund the early redemption of \(\frac{5}{1}.9\) billion of Medtronic Inc. Senior Notes for \(\frac{5}{1}.9\) billion of total consideration, and \(\frac{5}{3}68\) million of Medtronic Luxco Senior Notes for \(\frac{5}{3}76\) million of total consideration. The Group will recognize a total loss on debt extinguishment of \(\frac{5}{5}3\) million in the quarter ended July 29,

2022, which primarily includes cash premiums and accelerated amortization of deferred financing costs and debt discounts and premiums. The loss will be recognized in *interest payable and similar expenses* in the consolidated profit and loss account.

We redeem our ordinary shares on occasion as part of our focus on returning value to our shareholders. In March 2019, the Directors authorized the redemption of \$6.0 billion of the Group's ordinary shares. There is no specific time period associated with these redemption authorizations. During fiscal years 2022 and 2021, we redeemed a total of 22 million and 4 million shares, respectively, under these programs at an average price of \$113.11 and \$126.80, respectively. At April 29, 2022, we had approximately \$3.0 billion remaining under the share redemption programs authorized by our Directors.

For more information on credit arrangements, see Note 17 of the consolidated financial statements.

Liquidity

Our liquidity sources at April 29, 2022 included \$3.7 billion of cash at bank and in hand and \$6.9 billion of short-term investments. Additionally, we maintain commercial paper programs and a Credit Facility.

Our investments primarily include available-for-sale debt securities, including U.S. and non-U.S. government and agency securities, corporate debt securities, mortgage-backed securities, certificates of deposit, and other asset-backed securities. See Note 12 to the consolidated financial statements for additional information regarding fair value measurements.

We maintain multicurrency commercial paper programs for short-term financing, which allow us to issue unsecured commercial paper notes on a private placement basis up to a maximum aggregate amount outstanding at any time of \$3.5 billion. At both April 29, 2022 and April 30, 2021, we had no commercial paper outstanding. The issuance of commercial paper reduces the amount of credit available under our existing line of credit, as explained below.

We also have a \$3.5 billion five-year syndicated credit facility (Credit Facility), which expires in December 2026. At each anniversary date of the Credit Facility, we can request a one-year extension of the maturity date. The Credit Facility provides backup funding for the commercial paper programs and may also be used for general corporate purposes. The Credit Facility provides us with the ability to increase our borrowing capacity by an additional \$1.0 billion at any time during the term of the agreement. At April 29, 2022 and April 30, 2021, no amounts were outstanding under the Credit Facility.

Interest rates on advances of our Credit Facility are determined by a pricing matrix based on our long-term debt ratings assigned by Standard & Poor's Ratings Services (S&P) and Moody's Investors Service (Moody's). Facility fees are payable on the Credit Facility and are determined in the same manner as the interest rates. We are in compliance with all covenants related to the Credit Facility.

The following table is a summary of our S&P and Moody's long-term debt ratings and short-term debt ratings:

	Agency 1	Rating (1)
	April 29, 2022	April 30, 2021
Standard & Poor's Ratings Services		
Long-term debt	A	A
Short-term debt	A-1	A-1
Moody's Investors Service		
Long-term debt	A3	A3
Short-term debt	P-2	P-2

(1) Agency ratings are subject to change, and there may be no assurance that an agency will continue to provide ratings and/or maintain its current ratings. A security rating is not a recommendation to buy, sell or hold securities, and may be subject to revision or withdrawal at any time by the rating agency, and each rating should be evaluated independently of any other rating.

S&P and Moody's long-term debt ratings and short-term debt ratings at April 29, 2022 were unchanged as compared to the ratings at April 30, 2021. We do not expect the S&P and Moody's ratings to have a significant impact on our liquidity or future flexibility to access additional liquidity given our balance sheet, Credit Facility, and related commercial paper programs.

Financial Risk Management

Currency Exchange Rate Risk Due to the global nature of our operations, we are exposed to currency exchange rate changes which may cause fluctuations in profit and cash flows. Fluctuations in the currency exchange rates of currency exposures that are unhedged, such as in certain emerging markets, may result in future profit and cash flow volatility. The gross notional amount of all currency exchange rate derivative instruments outstanding at April 29, 2022 and April 30, 2021 was \$13.8 billion and \$14.7 billion respectively. At April 29, 2022, these contracts were in a net unrealized gain position of \$586 million.

Additional information regarding our currency exchange rate derivative instruments is in included in Note 15 to the consolidated financial statements.

A sensitivity analysis of changes in the fair value of all currency exchange rate derivative contracts at April 29, 2022 and April 30, 2021 indicates that, if the U.S. dollar uniformly strengthened/weakened by 10 percent against all currencies, it would have the following impact on the fair value of these contracts:

	 Increase (decrease)				
(in millions)	 2022		2021		
10% appreciation in the U.S. dollar	\$ 903	\$	995		
10% depreciation in the U.S. dollar	(903)		(995)		

Any gains and losses on the fair value of derivative contracts would generally be offset by gains and losses on the underlying transactions. These offsetting gains and losses are not reflected in the above analysis.

Interest Rate Risk We are subject to interest rate risk on our short-term investments and our borrowings. We manage interest rate risk in the aggregate, while focusing on our immediate and intermediate liquidity needs. Our debt portfolio at April 29, 2022 was comprised of debt predominantly denominated in U.S. dollars and Euros, of which substantially all is fixed rate debt. We are also exposed to interest rate changes affecting our investments in interest rate sensitive instruments, which include our marketable debt securities.

A sensitivity analysis of the impact on our interest rate-sensitive financial instruments of a hypothetical 10 basis point change in interest rates, as compared to interest rates at April 29, 2022 and April 30, 2021, would have the following impact on the fair value of these instruments:

	 Increase	(decrease)		
(in millions)	2022		2021	
10 basis point increase in interest rates	\$ 53	\$	21	
10 basis point decrease in interest rates	(53)		(21)	

Principal Risks and Uncertainties

Investing in our securities involves a variety of risks and uncertainties, known and unknown, including, among others, those discussed below. Each of the following risks should be carefully considered. Furthermore, additional risks and uncertainty not presently known to us or that we currently believe to be immaterial may also adversely affect our business. Our business, results of operations, financial condition, and cash flow and prospects could be materially and adversely affected by any of these risks or uncertainties.

Business and Operational Risks

We operate in a highly competitive industry and we may be unable to compete effectively.

We compete in both the therapeutic and diagnostic medical markets in more than 150 countries throughout the world. These markets are characterized by rapid change resulting from technological advances and scientific discoveries. In the product lines in which we compete, we face a range of competitors from large companies with multiple business lines to small, specialized manufacturers that offer a limited selection of niche products. Development by other companies of new or improved products, processes, technologies, or the introduction of reprocessed products or generic versions when our proprietary products lose their patent protection may make our existing or planned products less competitive. In addition, we face competition from providers of alternative medical therapies, such as pharmaceutical companies.

We believe our ability to compete depends upon many factors both within and beyond our control, including:

- product performance and reliability,
- product technology and innovation,
- product quality and safety,
- breadth of product lines,
- product support services,
- customer support,
- cost-effectiveness and price,
- reimbursement approval from healthcare insurance providers, and

• changes to the regulatory environment.

Competition may increase as additional companies enter our markets or modify their existing products to compete directly with ours. In addition, academic institutions, governmental agencies and other public and private research organizations also may conduct research, seek patent protection and establish collaborative arrangements for discovery, research, clinical development and marketing of products similar to ours. These companies and institutions compete with us in recruiting and retaining qualified scientific and management personnel, as well as in acquiring necessary product technologies. From time to time we have lost, and may in the future lose, market share in connection with product problems, physician advisories, safety alerts and publications about our products, which highlights the importance of product quality, product efficacy and quality systems to our business. In the current environment of managed care, consolidation among healthcare providers, increased competition, declining reimbursement rates, and national and provincial tender pricing, as recently experienced in China, competitively priced product offerings are essential to our success. Further, our continued growth and success depend on our ability to develop, acquire and market new and differentiated products, technologies and intellectual property, and as a result we also face competition for marketing, distribution, and collaborative development agreements, establishing relationships with academic and research institutions and licenses to intellectual property. In order to continue to compete effectively, we must continue to create, invest in or acquire advanced technology, incorporate this technology into our proprietary products, obtain regulatory approvals in a timely manner, and manufacture and successfully market our products. Given these factors, we cannot guarantee that we will be able to compete effectively or continue our level of success.

The ongoing global COVID-19 pandemic has had, and may continue to have, an adverse effect on certain aspects of our business, results of operations, financial condition and cash flows. The nature and extent of future impacts are highly uncertain and unpredictable.

Our global operations and interactions with healthcare systems, providers and patients around the world expose us to risks associated with public health crises, including epidemics and pandemics such as COVID-19. In particular, the continuing preventative and precautionary measures that we and other businesses, communities, and governments have taken to mitigate the spread of the disease has led to restrictions on, disruptions in, and other related impacts on business and personal activities, including reduced customer demand for certain of our products and has resulted in many of our employees working remotely. We expect medical procedure rates to continue to vary by therapy and country, and could be impacted by regional COVID-19 case volumes, healthcare system staffing shortages, patient's willingness to schedule deferrable procedures, travel restrictions, transportation limitations, quarantine restrictions, vaccine and booster immunization rates, and new COVID-19 variants. While COVID-19 case volumes appear to be decreasing in the U.S and certain other countries as a result of higher vaccination rates, the global COVID-19 outlook remains uncertain as new variants emerge.

Together with the preventative and precautionary measures being taken, as well as the corresponding need to adapt to new and improved methods of conducting business, such as increased remote monitoring, COVID-19 is having, and may continue to have, an adverse impact on certain aspects of our Group and business, including the demand for and supply of certain of our products, operations, supply chains and distribution systems, impacts or delays to product development milestones, clinical trials, or regulatory clearances and approval timing, and our ability to generate cash flow, and may have an adverse impact on our ability to access capital. Some of our products are more sensitive to reductions in deferrable and emergent medical procedures, and, as hospital systems prioritize treatment of COVID-19 patients and otherwise comply with government guidelines, certain medical procedures have been and may continue to be suspended or postponed. It is not possible to predict the timing of deferrable medical procedures and, to the extent individuals and hospital systems de-prioritize, delay or cancel these procedures, or if unemployment or loss of insurance coverage adversely impacts an individual's ability to pay for our products and services, our business, results of operations, financial condition, and cash flows could continue to be negatively affected. Further, the COVID-19 pandemic has strained hospital systems around the world, resulting in adverse financial impacts to those systems that could result in reduced future expenditures for certain capital equipment and other products and services we provide, as well as potential disruption of product launches of our recently approved products.

A number of our global suppliers, vendors, and distributors have been adversely affected by the COVID-19 pandemic, including employee absenteeism. These impacts could impair our ability to move our products through distribution channels to end customers, and any such delay or shortage in the supply of components or materials may result in our inability to satisfy consumer demand for certain of our products in a timely manner or at all, which could harm our reputation, future turnover and profitability.

COVID-19 has impacted and may further impact the global economy and capital markets, including by negatively impacting demand for a number of our products, access to capital markets (including the commercial paper market), foreign currency exchange rates, and interest rates, each of which may adversely impact our business and liquidity. We could experience loss of turnover and profits due to delayed payments or insolvency of healthcare professionals, hospitals and other customers, suppliers and vendors facing liquidity issues. As a result, we may be compelled to take additional measures to preserve our cash flow.

COVID-19 could adversely impact our ability to retain key employees and the continued service and availability of skilled personnel necessary to run our complex productions and operations, including our executive officers and other key members of our management team.

While the impact of COVID-19 has had, and may continue to have, an adverse effect on our business, results of operations, financial condition and cash flows, the nature and extent of such impact is highly uncertain and unpredictable, as we cannot predict with confidence the duration of the pandemic.

Reduction or interruption in supply or other manufacturing difficulties may adversely affect our manufacturing operations and related product turnover.

The manufacture of our products requires the timely delivery of a sufficient amount of quality components and materials and is highly exacting and complex, due in part to strict regulatory requirements. We manufacture the majority of our products and procure important third-party services, such as sterilization services, at numerous facilities worldwide. We purchase many of the components, raw materials and services needed to manufacture these products from numerous suppliers in various countries. We seek to maintain continuity of supply by use of multiple options for sourcing where possible. We have generally been able to obtain adequate supplies of such raw materials, components and services, although global shortages of certain components such as semiconductors and resins have recently caused, and may in the future cause, disruptions to our product manufacturing supply chain. In addition, for reasons of quality assurance, cost effectiveness, or availability, certain components, raw materials and services needed to manufacture our products are obtained from a sole supplier. Although we work closely with our suppliers to try to ensure continuity of supply while maintaining high quality and reliability, the supply of these components, raw materials and services may be interrupted or insufficient. In addition, due to the stringent regulations and requirements of regulatory agencies, including the U.S. FDA, regarding the manufacture of our products, we may not be able to quickly establish additional or replacement sources. Additionally, many regulatory agencies are imposing regulatory requirements on safe use of chemicals and their potential impact on health and the environment which also may impact supply constraints. Furthermore, the prices of commodities and other materials used in our products, which are often volatile and outside of our control, could adversely impact our supply. We use resins, other petroleum-based materials and pulp as raw materials in some of our products, and the prices of oil and gas also significantly affect our costs for freight and utilities. A reduction or interruption in supply, and an inability to develop alternative sources for such supply, could adversely affect our ability to manufacture our products in a timely or cost-effective manner and could result in lost turnover.

Other disruptions in the manufacturing process or product turnover and fulfillment systems for any reason, including equipment malfunction, failure to follow specific protocols and procedures, supplier facility shut-downs, defective raw materials, natural disasters such as hurricanes, tornadoes, earthquakes, or wildfires, property damage or facility closures from riots or public protests, and other environmental factors and the impact of epidemics or pandemics, such as the COVID-19 pandemic, and actions by businesses, communities and governments in response, could lead to launch delays, product shortage, unanticipated costs, lost turnover and damage to our reputation. For example, in the past we have experienced a global information technology systems interruption that affected our customer ordering, distribution, and manufacturing processes, and we have been adversely impacted by, and may continue to be adversely impacted by, the global COVID-19 pandemic and the responses of governments and of our partners, including suppliers, manufacturers, distributors and other businesses. Furthermore, any failure to identify and address manufacturing problems prior to the release of products to our customers could result in quality or safety issues.

In addition, many of our products require sterilization before sale and several of our key products are manufactured or sterilized at a particular facility, with limited alternate facilities. If an event occurs that results in damage to or closure of one or more of such facilities, such as the Illinois Environmental Protection Agency's decision to close a supplier's sterilization facility in February 2019, we may be unable to manufacture or sterilize the relevant products to the required quality specifications or at all. Because of the time required to approve and license a manufacturing or sterilization facility, a third-party may not be available on a timely basis to replace production capacity in the event manufacturing or sterilization capacity is lost.

Our research and development efforts rely upon investments and investment collaborations, and we cannot guarantee that any previous or future investments or investment collaborations will be successful.

Our Mission is to provide a broad range of therapies to restore patients to fuller, healthier lives, which requires a wide variety of technologies, products and capabilities. The rapid pace of technological development in the medical industry and the specialized expertise required in different areas of medicine make it difficult for one company alone to develop a broad portfolio of technological solutions. In addition to internally generated growth through our research and development efforts, historically we have relied, and expect to continue to rely, upon investments and investment collaborations to provide us access to new technologies both in areas served by our existing businesses as well as in new areas.

We expect to make future investments where we believe that we can stimulate the development or acquisition of new technologies and products to further our strategic objectives and strengthen our existing businesses. Investments and investment

collaborations in and with medical technology companies are inherently risky, and we cannot guarantee that any of our previous or future investments or investment collaborations will be successful or will not materially adversely affect our business, results of operations, financial condition and cash flows.

The continuing development of many of our products depends upon us maintaining strong relationships with healthcare professionals.

If we fail to maintain our working relationships with healthcare professionals, many of our products may not be developed and marketed in line with the needs and expectations of the professionals who use and support our products, which could cause a decline in our profitability. The research, development, marketing and turnover of many of our new and improved products depends on our maintaining working relationships with healthcare professionals. We rely on these professionals to provide us with considerable knowledge and experience regarding the development, marketing and sale of our products. Physicians assist us as researchers, marketing and product consultants, inventors and public speakers. In addition, as a result of the COVID-19 pandemic, our access to these professionals has been limited at times, and travel restrictions, shutdowns and similar measures have impacted our ability to maintain these relationships, thereby affecting our ability to develop, market and sell new and improved products. If we are unable to maintain strong relationships with these professionals, the development and marketing of our products could suffer, which could have a material adverse effect on our business, results of operations, financial condition, and cash flows.

We have debt obligations that create risk.

We are required to use a portion of our operating cash flow to pay interest or principal on our outstanding indebtedness instead of for other corporate purposes, including funding future expansion of our business. We may also incur additional indebtedness in the future to supplement our existing liquidity and cash generated from operations to satisfy our needs for working capital and capital expenditures, to pursue growth initiatives, and to make returns of capital to shareholders. At the time we incur such additional indebtedness, or refinance or restructure existing indebtedness, we may be unable to obtain capital market financing with similar terms and currency denomination, or at all, which could have a material adverse effect on our business and results of operations. At any time, the value of our debt outstanding will fluctuate based on several factors including foreign currency exchange rate and interest rate movements.

Failure to integrate acquired businesses into our operations successfully, as well as liabilities or claims relating to such acquired businesses, could adversely affect our business.

As part of our strategy to develop and identify new products and technologies, we have made several significant acquisitions in recent years, and may make additional acquisitions in the future. Our integration of the operations of acquired businesses requires significant efforts, including the coordination of information technologies, research and development, sales and marketing, operations, manufacturing, and finance. These efforts result in additional expenses and involve significant amounts of management's time that cannot then be dedicated to other projects. Our failure to manage and coordinate the growth of acquired companies successfully could also have an adverse impact on our business. Further, acquired businesses may have liabilities, or be subject to claims, litigation or investigations that we did not anticipate or which exceed our estimates at the time of the acquisition. In addition, we cannot be certain that the businesses we acquire will become profitable or remain so. Factors that will affect the success of our acquisitions include:

- the presence or absence of adequate internal controls and/or significant fraud in the financial systems of acquired companies,
- our ability or inability to integrate information technology systems of acquired companies in a secure and reliable manner.
- liabilities, claims, litigation, investigations, or other adverse developments relating to acquired businesses or the business practices of acquired companies, including investigations by governmental entities, potential FCPA or product liability claims or other unanticipated liabilities,
- any decrease in customer loyalty and product orders caused by dissatisfaction with the combined companies' product lines and turnover and marketing practices, including price increases,
- our ability to retain key employees, and
- the ability to achieve synergies among acquired companies, such as increasing turnover of the integrated company's products, achieving cost savings, and effectively combining technologies to develop new products.

We also could experience negative effects on our business, results of operations, financial condition, and cash flows from acquisition-related charges, amortization of intangible assets and asset impairment charges.

Legal and Regulatory Risks

We are subject to extensive and complex laws and governmental regulations and any adverse regulatory action may materially adversely affect our financial condition and business operations.

Our medical devices and technologies, as well as our business activities, are subject to a complex set of regulations and rigorous enforcement, including by the U.S. FDA, U.S. Department of Justice, Health and Human Services-Office of the Inspector General, and numerous other federal, state, and non-U.S. governmental authorities. To varying degrees, each of these agencies requires us to comply with laws and regulations governing the development, testing, manufacturing, labeling, marketing and distribution of our products. As a part of the regulatory process of obtaining marketing clearance for new products and new indications for existing products, we conduct and participate in numerous clinical trials with a variety of study designs, patient populations, and trial endpoints. Unfavorable clinical data from existing or future clinical trials may adversely impact our ability to obtain product approvals, our position in, and share of, the markets in which we participate, and our business, results of operations, financial condition, and cash flows. We cannot guarantee that we will be able to obtain or maintain marketing clearance for our new products or enhancements or modifications to existing products, and the failure to maintain approvals or obtain approval or clearance could have a material adverse effect on our business, results of operations, financial condition and cash flows. Even if we are able to obtain approval or clearance, it may:

- take a significant amount of time,
- require the expenditure of substantial resources,
- involve stringent clinical and pre-clinical testing, as well as increased post-market surveillance,
- involve modifications, repairs or replacements of our products, and
- limit the proposed uses of our products.

Both before and after a product is commercially released, we have ongoing responsibilities under the U.S. FDA and other applicable non-U.S. government agency regulations. For instance, many of our facilities and procedures and those of our suppliers are also subject to periodic inspections by the U.S. FDA to determine compliance with applicable regulations. The results of these inspections can include inspectional observations on the U.S. FDA's Form-483, warning letters, or other forms of enforcement. If the U.S. FDA were to conclude that we are not in compliance with applicable laws or regulations, or that any of our medical products are ineffective or pose an unreasonable health risk, the U.S. FDA could ban such medical products, detain or seize adulterated or misbranded medical products, order a recall, repair, replacement, or refund of such products, refuse to grant pending pre-market approval applications or require certificates of non-U.S governments for exports, and/or require us to notify health professionals and others that the devices present unreasonable risks of substantial harm to the public health. The U.S. FDA and other non-U.S. government agencies may also assess civil or criminal penalties against us, our officers or employees and impose operating restrictions on a company-wide basis. The U.S. FDA may also recommend prosecution to the U.S. Department of Justice. Any adverse regulatory action, depending on its magnitude, may restrict us from effectively marketing and selling our products and limit our ability to obtain future pre-market clearances or approvals, and could result in a substantial modification to our business practices and operations. Furthermore, we occasionally receive subpoenas or other requests for information from state and federal governmental agencies, and while these investigations typically relate primarily to financial arrangements with healthcare providers, regulatory compliance and product promotional practices, we cannot predict the timing, outcome or impact of any such investigations. Any adverse outcome in one or more of these investigations could include the commencement of civil and/or criminal proceedings, substantial fines, penalties, and/or administrative remedies, including exclusion from government reimbursement programs and/or entry into Corporate Integrity Agreements (CIAs) with governmental agencies. In addition, resolution of any of these matters could involve the imposition of additional, costly compliance obligations. These potential consequences, as well as any adverse outcome from government investigations, could have a material adverse effect on our business, results of operations, financial condition, and cash flows.

In addition, the U.S. FDA has taken the position that device manufacturers are prohibited from promoting their products other than for the uses and indications set forth in the approved product labeling, and any failure to comply could subject us to significant civil or criminal exposure, administrative obligations and costs, and/or other potential penalties from, and/or agreements with, the federal government.

Governmental regulations in the U.S. and outside the U.S. are constantly changing and may become increasingly stringent. In the European Union, for example, the Medical Device Regulation which became effective in May 2021 includes significant additional pre-market and post-market requirements. Penalties for regulatory non-compliance could be severe, including fines and revocation or suspension of a company's business license, mandatory price reductions and criminal sanctions. The development and implementation of future laws and regulations may have a material adverse effect on us.

Our failure to comply with laws and regulations relating to reimbursement of healthcare goods and services may subject us to penalties and adversely impact our reputation, business, results of operations, financial condition and cash flows.

Our devices, products and therapies are purchased principally by hospitals or physicians that typically bill various third-party payers, such as governmental healthcare programs (e.g., Medicare, Medicaid and comparable non-U.S. programs), private insurance plans and managed care plans, for the healthcare services provided to their patients. The ability of our customers to obtain appropriate reimbursement for products and services from third-party payers is critical because it affects which products customers purchase and the prices they are willing to pay. As a result, our devices, products and therapies are subject to regulation regarding quality and cost by HHS, including the Centers for Medicare & Medicaid Services (CMS), as well as comparable state and non-U.S. agencies responsible for reimbursement and regulation of health are goods and services, including laws and regulations related to kickbacks, false claims, self-referrals and healthcare fraud. Many states have similar laws that apply to reimbursement by state Medicaid and other funded programs as well as in some cases to all payers. In certain circumstances, insurance companies attempt to bring a private cause of action against a manufacturer for causing false claims. In addition, as a manufacturer of U.S. FDA-approved devices reimbursable by federal healthcare programs, we are subject to the Physician Payments Sunshine Act, which requires us to annually report certain payments and other transfers of value we make to U.S.-licensed physicians or U.S. teaching hospitals. Any failure to comply with these laws and regulations could subject us or our officers and employees to criminal and civil financial penalties.

We are also subject to risks relating to changes in government and private medical reimbursement programs and policies, and changes in legal regulatory requirements in the U.S. and around the world. Implementation of further legislative or administrative reforms to these reimbursement systems, or adverse decisions relating to coverage of or reimbursement for our products by administrators of these systems, could have an impact on the acceptance of and demand for our products and the prices that our customers are willing to pay for them.

We are substantially dependent on patent and other proprietary rights and failing to protect such rights or to be successful in litigation related to our rights or the rights of others may result in our payment of significant monetary damages and/or royalty payments, negatively impacting our ability to sell current or future products.

We are substantially dependent on patent and other proprietary rights and rely on a combination of patents, trademarks, tradenames, copyrights, trade secrets, and agreements (such as employee, non-disclosure and non-competition agreements) to protect our business and proprietary intellectual property. We also operate in an industry characterized by extensive patent litigation. Patent litigation can result in significant damage awards and injunctions that could prevent our manufacture and sale of affected products or require us to pay significant royalties in order to continue to manufacture or sell affected products. At any given time, we are generally involved as both a plaintiff and a defendant in a number of patent infringement actions, the outcomes of which may not be known for prolonged periods of time. While it is not possible to predict the outcome of patent litigation, it is possible that the results of such litigation could require us to pay significant monetary damages and/or royalty payments, negatively impact our ability to sell current or future products, or that enforcement actions to protect our patent and proprietary rights against others could be unsuccessful, any of which could have a material adverse impact on our business, results of operations, financial condition, and cash flows. In addition, any public announcements related to litigation or administrative proceedings initiated or threatened against us could cause our stock price to decline.

While we intend to defend against any threats to our intellectual property, our patents, trademarks, tradenames, copyrights, trade secrets or agreements (such as employee, non-disclosure and non-competition agreements) may not adequately protect our intellectual property. Further, pending patent applications may not result in patents being issued to us, patents issued to or licensed by us may be challenged or circumvented by competitors and such patents may be found invalid, unenforceable or too limited in scope to protect our technology or provide us with any competitive advantage. In addition, our patents will expire over time, our ability to protect novel business models is uncertain, and infringement may go undetected. Third parties could obtain patents that may require us to negotiate licenses to conduct our business, and such licenses may not be available on reasonable terms or at all. In addition, license agreements could be terminated. We also rely on non-disclosure and non-competition agreements with certain employees, consultants and other parties to protect, in part, trade secrets and other proprietary rights. We cannot be certain that these agreements will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information, or that third parties will not otherwise gain access to our trade secrets or proprietary knowledge.

In addition, the laws of certain countries in which we market or manufacture some of our products do not protect our intellectual property rights to the same extent as the laws of the U.S., which could make it easier for competitors to capture market position. Competitors also may harm our turnover by designing products that substantially mirror the capabilities of our products or technology without infringing our intellectual property rights. If we are unable to protect our intellectual property in these countries, it could have a material adverse effect on our business, results of operations, financial condition, and cash flows.

Quality problems could lead to recalls or safety alerts, product liability claims, reputational harm, adverse verdicts or costly settlements, and could have a material adverse effect on our business, results of operations, financial condition and cash flows.

Quality is extremely important to us and our customers due to the impact on patients, and the serious and potentially costly consequences of adverse product performance. Our business exposes us to potential product liability risks that are inherent in the design, manufacture, and marketing of medical devices. In addition, many of our products are often used in intensive care settings with seriously ill patients and some of the medical devices we manufacture and sell are designed to be implanted in the human body for long periods of time or indefinitely. Component failures, manufacturing nonconformances, design defects, offlabel use, or inadequate disclosure of product-related risks or product-related information with respect to our products, if they were to occur, could result in an unsafe condition or injury to, or death of, a patient. These problems could lead to recall of, or issuance of a safety alert relating to, our products, and could result in product liability claims and lawsuits, including class actions, which could ultimately result, in certain cases, in the removal from the body of such products and claims regarding costs associated therewith. Due to the strong name recognition of the Medtronic brand, a material adverse event involving one of our products could result in diminished market acceptance and demand for all products within that brand, and could harm our reputation and ability to market products in the future. Further, we may be exposed to additional potential product liability risks related to products designed, manufactured and/or marketed in response to the COVID-19 pandemic, and unpredictable or accelerated changes in demand for certain of our products in connection with COVID-19 and its related impacts could impact development and production of products and services and could increase the risk of regulatory enforcement actions, product defects or related claims, as well as adversely impact our customer relationships and reputation.

Strong product quality is critical to the success of our goods and services. If we fall short of these standards and our products are the subject of recalls or safety alerts, our reputation could be damaged, we could lose customers and our turnover and results of operations could decline. Our success also can depend on our ability to manufacture to exact specification precision-engineered components, subassemblies and finished devices from multiple materials. If our components fail to meet these standards or fail to adapt to evolving standards, our reputation, competitive advantage and market share could be harmed. In certain situations, we may undertake a voluntary recall of products or temporarily shut down production lines based on performance relative to our own internal safety and quality monitoring and testing data.

Any of the foregoing problems, including future product liability claims or recalls, regardless of their ultimate outcome, could harm our reputation and have a material adverse effect on our business, results of operations, financial condition and cash flows.

Healthcare policy changes may have a material adverse effect on us.

In response to perceived increases in healthcare costs in recent years, there have been and continue to be actions and proposals by several governments, regulators and third-party payers globally, including the U.S. federal and state governments, to control these costs and, more generally, to reform healthcare systems. Certain of these actions and proposals, among other things, limit the prices we are able to charge for our products or the amounts of reimbursement available for our products and could limit the acceptance and availability of our products. These actions and proposals could have a material adverse effect on our business, results of operations, financial condition and cash flows.

We rely on the proper function, security and availability of our information technology systems and data, as well as those of third parties throughout our global supply chain, to operate our business, and a breach, cyber-attack or other disruption to these systems or data could materially and adversely affect our business, results of operations, financial condition, cash flows, reputation or competitive position.

We are increasingly dependent on sophisticated information technology systems to operate our business. That technology includes systems that could be used to process, transmit and store sensitive data. Additionally, many of our products and services include integrated software and information technology that collects data regarding patients or connects to other internal systems. One of the most prevalent attacks on large organizations has been ransomware which can have a devastating impact on an organization's operations. We have invested in ransomware readiness in the pursuit of both prevention and rapid response to a ransomware event. Like all organizations, we routinely experience attempted interference with the integrity of, and interruptions in, our technology systems via events such as cyber-attacks, malicious intrusions, or other breakdowns. The consequences could mean data breaches, interference with the integrity of our products and data, compromise of intellectual property or other proprietary information, or other significant disruptions. Furthermore, we rely on third-party vendors to supply and/or support certain aspects of our information technology systems and resulting products. As we have seen with recent "Supply Chain Attacks," these third-party systems could also become vulnerable to cyber-attack, malicious intrusions, breakdowns, interference, or other significant disruptions, and may contain defects in design or manufacture or other problems that could result in system disruption or compromise the information security of our own systems. The Russia-Ukraine conflict may increase cybersecurity risks on a global basis. Lastly, we continue to grow in part through new business acquisitions and,

as a result, may face risks associated with defects and vulnerabilities in their systems, or difficulties or other breakdowns or disruptions in connection with the integration of the acquisitions into our information technology systems.

Our worldwide operations mean that we are subject to laws and regulations, including data protection and cybersecurity laws and regulations, in many jurisdictions. Any data security breaches, cyber-attacks, malicious intrusions or significant disruptions could result in actions by regulatory bodies and/or civil litigation, any of which could materially and adversely affect our business, results of operations, financial condition, cash flows, reputation, or competitive position.

In addition, our information technology systems require an ongoing commitment of significant resources to maintain, protect, and enhance existing systems and develop new systems. This enables us to keep pace with continuing changes in information processing technology, evolving legal and regulatory standards, the increasing need to protect patient and customer information, changes in the techniques used to obtain unauthorized access to data and information systems, and the information technology needs associated with our changing products and services. There can be no assurance that our extensive efforts (including, but not limited to, consolidating, protecting, upgrading, and expanding our systems and capabilities, continuing to build security into the design of our products, and developing new systems to keep pace with continuing changes in information processing technology) will be successful or that additional systems issues will not arise in the future.

If our information technology systems, products or services or sensitive data are compromised, there are many consequences that could result. Consequences include, but are not limited to patients or employees being exposed to financial or medical identity theft or suffer a loss of product functionality, losing existing customers or have difficulty attracting new customers, experiencing difficulty preventing, detecting, and controlling fraud, being exposed to the loss or misuse of confidential information, having disputes with customers, physicians, and other healthcare professionals, suffering regulatory sanctions or penalties under federal laws, state laws, or the laws of other jurisdictions, experiencing increases in operating expenses or an impairment in our ability to conduct our operations, incurring expenses or losing turnover as a result of a data privacy breach, product failure, information technology outages or disruptions, or suffering other adverse consequences including lawsuits or other legal action and damage to our reputation.

The failure to comply with anti-corruption laws could materially adversely affect our business and result in civil and/or criminal sanctions.

The U.S. Foreign Corrupt Practices Act (FCPA), the Irish Criminal Justice (Corruption Offences) Act 2018, and similar anticorruption laws in other jurisdictions generally prohibit companies and their intermediaries from making improper payments to government officials for the purpose of obtaining or retaining business. Because of the predominance of governmentadministered healthcare systems in many jurisdictions around the world, many of our customer relationships outside of the U.S. are with governmental entities and are therefore potentially subject to such laws. We also participate in public-private partnerships and other commercial and policy arrangements with governments around the globe.

Global enforcement of anti-corruption laws has increased in recent years, including investigations and enforcement proceedings leading to assessment of significant fines and penalties against companies and individuals. Our international operations create a risk of unauthorized payments or offers of payments by one of our employees, consultants, sales agents, or distributors. We maintain policies and programs to implement safeguards to educate our employees and agents on these legal requirements, and to prevent and prohibit improper practices. However, existing safeguards and any future improvements may not always be effective, and our employees, consultants, sales agents or distributors may engage in conduct for which we could be held responsible. In addition, regulators could seek to hold us liable for conduct committed by companies in which we invest or that we acquire. Any alleged or actual violations of these regulations may subject us to government scrutiny, criminal or civil sanctions and other liabilities, including exclusion from government contracting, and could disrupt our business, adversely affect our reputation and result in a material adverse effect on our business, results of operations, financial condition and cash flows.

Laws and regulations governing international business operations could adversely impact our business.

The U.S. Department of the Treasury's Office of Foreign Assets Control (OFAC) and the U.S. Commerce Department's Bureau of Industry and Security (BIS) administer certain laws and regulations that restrict U.S. persons and, in some instances, non-U.S. persons, in conducting activities, transacting business with, or making investments in, certain countries, governments, entities and individuals subject to U.S. economic sanctions or export restrictions. Our international operations subject us to these laws and regulations, which are complex, restrict our business dealings with certain countries, governments, entities, and individuals, and are constantly changing. Further restrictions may be enacted, amended, enforced or interpreted in a manner that materially impacts our operations.

From time to time, certain of our subsidiaries have limited business dealings in countries subject to comprehensive sanctions, including Iran, Syria, Cuba and the region of Crimea. Certain of our subsidiaries sell medical devices, and may provide related services, to distributors and other purchasing bodies in such countries. These business dealings represent an insignificant

amount of our consolidated turnover and profit, but expose us to a heightened risk of violating applicable sanctions regulations. Violations of these regulations are punishable by civil penalties, including fines, denial of export privileges, injunctions, asset seizures, debarment from government contracts and revocations or restrictions of licenses, as well as criminal fines and imprisonment. We have established policies and procedures designed to assist with our compliance with such laws and regulations. However, there can be no assurance that our policies and procedures will prevent us from violating these regulations in every transaction in which we may engage, and such a violation could adversely affect our reputation, business, results of operations, financial condition, and cash flows.

Climate change, or legal, regulatory or market measures to address climate change may materially adversely affect our financial condition and business operations.

Climate change resulting from increased concentrations of carbon dioxide and other greenhouse gases in the atmosphere presents risks to our current and future operations from natural disasters and extreme weather conditions, such as hurricanes, tornadoes, earthquakes, wildfires or flooding. Such extreme weather conditions and other conditions caused by or related to climate change could increase our operational costs, pose physical risks to our facilities and adversely impact our supply chain, including: manufacturing and distribution networks, the availability and cost of raw materials and components, energy supply, transportation, or other inputs necessary for the operation of our business. The impacts of climate change on global water resources may result in water scarcity, which could impact our ability to access sufficient quantities of water in certain locations and result in increased costs. Concerns over climate change could have an impact on customer demand for our products and result in new legal or regulatory requirements designed to mitigate the effects of climate change on the environment. Although it is difficult to predict and adequately prepare to meet the challenges to our business posed by climate change, if new laws or regulations are more stringent than current legal or regulatory requirements, we may experience increased compliance burdens and costs to meet the regulatory obligations as well as adverse impacts on raw material sourcing, manufacturing operations and the distribution of our products.

We are subject to environmental laws and regulations and the risk of environmental liabilities, violations and litigation.

We are subject to environmental, health, and safety laws, and regulations concerning, among other things, the generation, handling, transportation, and disposal of hazardous substances or wastes, the remediation of hazardous substances or materials at various sites, and emissions or discharges into the land, air or water. We are further subject to numerous laws and regulations concerning, among other things, chemical constituents in medical products and end-of-life disposal and take-back programs for medical devices. Our operations and those of certain third-party suppliers involve the use of substances subject to these laws and regulations, primarily those used in manufacturing and sterilization processes. If we or our suppliers violate these environmental laws and regulations, facilities could be shut down and violators could be fined, or otherwise sanctioned. New laws and regulations, violations of these laws or regulations, stricter enforcement of existing requirements, or the discovery of previously unknown contamination could require us to incur costs or could become the basis for new or increased liabilities that could be material.

Our insurance program may not be adequate to cover future losses.

We have elected to self-insure most of our insurable risks across the Group, and we made this decision based on cost and availability factors in the insurance marketplace. We manage and maintain a portion of our self-insured program through a wholly-owned captive insurance company. We continue to maintain a directors and officers liability insurance policy with third-party insurers that provides coverage for the directors and officers of the Group. We continue to monitor the insurance marketplace to evaluate the value of obtaining insurance coverage for other categories of losses in the future. Although we believe, based on historical loss trends, that our self-insurance program accruals and our existing insurance coverage will be adequate to cover future losses, historical trends may not be indicative of future losses. The absence of third-party insurance coverage for other categories of losses increases our exposure to unanticipated claims and these losses could have a material adverse impact on our business, results of operations, financial condition and cash flows.

Changes in tax laws or exposure to additional income tax liabilities could have a material impact on our business, results of operations, financial condition and cash flows.

We are subject to income taxation, as well as non-income based taxation, in the U.S., Ireland, and various other jurisdictions in which we operate. The tax laws in the U.S., Ireland and other countries in which we and our affiliates do business could change on a prospective or retroactive basis, and any such changes could materially adversely affect our business and our effective tax rate. For example, on December 22, 2017, the U.S. enacted comprehensive tax legislation, commonly referred to as the Tax Cuts and Jobs Act (the "Tax Act"), which resulted in a significant charge to taxation during our fiscal year 2018 associated with U.S. taxation of accumulated foreign profit as well as the requirement to revalue U.S. deferred tax assets and liabilities resulting from the reduction in the U.S. corporate tax rate. In addition, the Biden Administration has provided a framework for proposed

U.S. tax law changes, which if enacted could have a material impact on our business, results of operations, financial condition, and cash flows.

In October 2021, the Organization for Economic Cooperation and Development (OECD) secured agreement from 136 countries to push forward with proposals to fundamentally rewrite International Tax rules which if enacted by these countries, will likely impact the amount of tax multinationals such as Medtronic pay in the future. During 2022 and 2023 more details on these proposals will be released and various consultations will take place. The OECD has set a timeline for the implementation of these proposals in 2023 but may end up being deferred to a later date.

The aggressive nature of the timeline set by the OECD may mean that all implications for business may not have been fully worked through or fully understood before rules are finalized. We continue to monitor the implications potentially resulting from this guidance. This action together with other legislative changes in many countries on the mandatory sharing of company information (financial and operational) with taxing authorities on a local and global basis under various information sharing initiatives, could lead to disagreements between jurisdictions associated with the proper allocation of profits between such jurisdictions.

We are subject to ongoing tax audits in the various jurisdictions in which we operate. Tax authorities may disagree with certain positions we have taken and assess additional taxation. We regularly assess the likely outcomes of these audits in order to determine the appropriateness of our tax provision. However, there can be no assurance that we will accurately predict the outcomes of these audits, and the actual outcomes of these audits could have a material impact on our business, results of operations, financial condition, and cash flows.

We have recorded reserves for potential payments of tax to various tax authorities related to uncertain tax positions. However, the calculation of such tax liabilities involves the application of complex tax laws, regulations and treaties (where applicable) in many jurisdictions. Therefore, any dispute with a tax authority may result in a payment that is significantly different from current estimates. If payment of these amounts ultimately proves to be less than the recorded amounts, the reversal of the liabilities generally would result in tax benefits being recognized in the period when we determine the liabilities are no longer necessary. If our estimate of tax liabilities proves to be less than the amount for which it is ultimately liable, we would incur additional charges, and such charges could have a material adverse effect on our business, results of operations, financial condition, and cash flows.

The Medtronic, Inc. tax court proceeding outcome could have a material adverse impact on our financial condition.

In March 2009, the IRS issued its audit report for Medtronic Inc. for fiscal years 2005 and 2006. Medtronic, Inc. reached agreements with the IRS on some, but not all matters related to these fiscal years. The remaining unresolved issue for fiscal years 2005 and 2006 relates to the allocation of profit between Medtronic, Inc. and its wholly-owned subsidiary operating in Puerto Rico, which is one of our key manufacturing sites. An adverse outcome in this matter could materially and adversely affect our business, results of operations, financial condition, and cash flows. See Note 4 to the consolidated financial statements for further information.

Future potential changes to the U.S. tax laws could result in us being treated as a U.S. corporation for U.S. federal tax purposes, and the IRS may not agree with the conclusion that we should be treated as a foreign corporation for U.S federal income tax purposes.

Because Medtronic plc is organized under the laws of Ireland, we would generally be classified as a foreign corporation under the general rule that a corporation is considered tax resident in the jurisdiction of its organization or incorporation for U.S. federal taxation purposes. Even so, the IRS may assert that we should be treated as a U.S. corporation (and, therefore, a U.S. tax resident) for U.S. federal taxation purposes pursuant to Section 7874 of the U.S. Internal Revenue Code of 1986, as amended (the Code). In addition, a retroactive change to U.S. tax laws in this area could change this classification. If we were to be treated as a U.S. corporation for federal tax purposes, we could be subject to substantially greater U.S. tax liability than currently contemplated as a non-U.S. corporation.

Legislative or other governmental action relating to the denial of U.S. federal or state governmental contracts to U.S. companies that redomicile abroad could adversely affect our business.

Various U.S. federal and state legislative proposals that would deny governmental contracts to U.S. companies that move their corporate location abroad may affect us. We are unable to predict the likelihood that, or final form in which, any such proposed legislation might become law, the nature of the regulations that may be promulgated under any future legislative enactments, or the effect such enactments and increased regulatory scrutiny may have on our business.

Risks Relating to Our Jurisdiction of Incorporation

We are incorporated in Ireland, and Irish law differs from the laws in effect in the U.S. and may afford less protection to holders of our securities.

Our shareholders may have more difficulty protecting their interests than would shareholders of a corporation incorporated in a jurisdiction of the United States. It may not be possible to enforce court judgments obtained in the U.S. against us in Ireland based on the civil liability provisions of the U.S. federal or state securities laws. In addition, there is some uncertainty as to whether the courts of Ireland would recognize or enforce judgments of U.S. courts obtained against us or our directors or officers based on the civil liabilities provisions of the U.S. federal or state securities laws or hear actions against us or those persons based on those laws. We have been advised that the U.S. currently does not have a treaty with Ireland providing for the reciprocal recognition and enforcement of judgments in civil and commercial matters. Therefore, a final judgment for the payment of money rendered by any U.S. federal or state court based on civil liability, whether or not based solely on U.S. federal or state securities laws, would not automatically be enforceable in Ireland.

As an Irish company, we are governed by the Irish Companies Act 2014, which differs in some material respects from laws generally applicable to U.S. corporations and shareholders, including, among others, differences relating to interested director and officer transactions and shareholder lawsuits. Likewise, the duties of directors and officers of an Irish company generally are owed to the company only. Shareholders of Irish companies generally do not have a personal right of action against directors or officers of the company and may exercise such rights of action on behalf of the company only in limited circumstances. Accordingly, holders of our securities may have more difficulty protecting their interests than would holders of securities of a corporation incorporated in the U.S.

As an Irish public limited company, certain capital structure decisions require shareholder approval, which may limit Medtronic's flexibility to manage its capital structure.

Under Irish law, our authorized share capital can be increased by an ordinary resolution of our shareholders and the directors may issue new ordinary or preferred shares, without shareholder approval, once authorized to do so by our articles of association or by an ordinary resolution of our shareholders. Additionally, subject to specified exceptions, Irish law grants statutory preemption rights to existing shareholders where shares are being issued for cash consideration but allows shareholders to disapply such statutory preemption rights either in our articles of association or by way of special resolution. Such disapplication can either be generally applicable or be in respect of a particular allotment of shares. Accordingly, at our 2021 Annual General Meeting, our Shareholders authorized our Directors to issue up to 33% of our issued ordinary shares and further authorized our Directors to issue up to 10% of such shares for cash without first offering them to our existing shareholders (provided that with respect to 5% of such shares, such allotment is to be used for the purposes of a specified capital investment). Both of these authorizations will expire on June 9, 2023, unless renewed by shareholders for a further period. We anticipate seeking new authorizations at our 2022 Annual General Meeting and in subsequent years. We cannot provide any assurance that these authorizations will always be approved, which could limit our ability to issue equity and thereby adversely affect the holders of our securities.

A transfer of our shares, other than ones effected by means of the transfer of book-entry interests in the Depository Trust Company, may be subject to Irish stamp duty.

Transfers of our shares effected by means of the transfer of book entry interests in the Depository Trust Company (DTC) will not be subject to Irish stamp duty. However, if a shareholder holds our shares directly rather than beneficially through DTC, any transfer of shares could be subject to Irish stamp duty (currently at the rate of 1% of the higher of the price paid or the market value of the shares acquired). Payment of Irish stamp duty is generally a legal obligation of the transferee. The potential for stamp duty could adversely affect the price of shares.

In certain limited circumstances, dividends we pay may be subject to Irish dividend withholding tax and dividends received by Irish residents and certain other shareholders may be subject to Irish income tax.

In certain limited circumstances, dividend withholding tax (currently at a rate of 25%) may arise in respect of dividends paid on our shares. A number of exemptions from dividend withholding tax exist such that shareholders resident in the U.S. and other specified countries that have a tax treaty with Ireland may be entitled to exemptions from dividend withholding tax.

Shareholders resident in the U.S. that hold their shares through DTC will not be subject to dividend withholding tax, provided the addresses of the beneficial owners of such shares in the records of the brokers holding such shares are recorded as being in the U.S. (and such brokers have further transmitted the relevant information to a qualifying intermediary appointed by us). However, other shareholders may be subject to dividend withholding tax, which could adversely affect the price of their shares.

Shareholders entitled to an exemption from Irish dividend withholding tax on dividends received from us will not be subject to Irish income tax in respect of those dividends unless they have some connection with Ireland other than their shareholding in our Group (for example, they are resident in Ireland). Shareholders who are not resident nor ordinarily resident in Ireland, but who receive dividends subject to Irish dividend withholding tax, will generally have no further liability to Irish income tax on those dividends.

Our shares received by means of a gift or inheritance could be subject to Irish capital acquisitions tax.

Irish capital acquisitions tax (CAT) could apply to a gift or inheritance of our shares irrespective of the place of residence, ordinary residence or domicile of the parties. This is because our shares will be regarded as property situated in Ireland. The person who receives the gift or inheritance has primary liability for CAT. Gifts and inheritances passing between spouses are exempt from CAT. Children currently have a tax-free threshold of €335,000 in respect of taxable gifts or inheritances received from their parents. Irish Revenue typically updates the amount of this tax-free threshold on an annual basis.

Economic and Industry Risks

Changes in the prices of our goods and services and/or inflationary costs may have a material adverse effect on our business, results of operations, financial condition and cash flows.

We have experienced, and may continue to experience, decreasing prices for certain of our goods and services due to pricing pressure from managed care organizations and other third-party payers on our customers, increased market power of our customers as the medical device industry consolidates and increased competition among medical engineering and manufacturing services providers. We have also recently experienced, and may continue to experience, rising costs due to inflation. If the prices for our goods and services change or inflation continues to rise, we may be unable to sufficiently reduce our expenses or offset rising costs through increased prices to customers. As a result, our business, results of operations, financial condition and cash flows may be adversely affected.

We are subject to a variety of risks associated with global operations that could adversely affect our profitability and operating results.

We develop, manufacture, distribute and sell our products globally. We intend to continue to expand our operations and to pursue growth opportunities outside the U.S., especially in emerging markets. Operations in different countries including emerging markets could expose us to additional and greater risks and potential costs, including:

- fluctuations in currency exchange rates,
- healthcare reform legislation,
- the need to comply with different regulatory regimes worldwide that are subject to change and that could restrict our ability to manufacture and sell our products,
- local product preferences and product requirements,
- longer-term receivables than are typical in the U.S.,
- trade protection measures, tariffs and other border taxation, and import or export licensing requirements,
- less intellectual property protection in some countries outside the U.S. than exists in the U.S.,
- · different labor regulations and workforce instability,
- political and economic instability, including as a result of wars and insurrections,
- the expiration and non-renewal of foreign tax rulings and/or grants,
- potentially negative consequences from changes in or interpretations of tax laws, and
- economic instability and inflation, recession or interest rate fluctuations.

The ongoing global economic competition and trade tensions between the U.S. and China present risk to Medtronic. Although we have been able to mitigate some of the impact on Medtronic from increased duties imposed by both sides (through petitioning both governments for tariff exclusions and other mitigations), the risk remains of additional tariffs and other kinds of restrictions. Tariff exclusions awarded to Medtronic by the U.S. Government require periodic renewal, and policies for granting exclusions could shift. The U.S. and China could impose other types of restrictions such as limitations on government procurement or technology export restrictions, which could affect Medtronic's access to the markets. China comprises approximately eight percent of our total turnover.

The Russia-Ukraine conflict and resulting sanctions and export restrictions are creating barriers to doing business in Russia and adversely impacting global supply chains. While we have no manufacturing, distribution or direct material suppliers in the region, we are closely monitoring the potential raw material/sub-tier supplier impact in both Russia and Ukraine. Materials like

palladium and neon, which are both dependent on Russia supply, are part of broader semiconductor shortages in industry. Additional sanctions, export restrictions, and potential countermeasures within Russia may lead to greater uncertainty and geopolitical shifts in Asia that could cause additional adverse impacts on global supply chains and our business, results of operations, financial condition and cash flows.

More generally, several governments including the U.S. have raised the possibility of policies to induce "re-shoring" of supply chains, less reliance on imported supplies, and greater national production. Examples include potential "Buy America" requirements in the U.S. If such steps triggered retaliation in other markets restricting access to foreign products in purchases by their government-owned healthcare systems, the result could be a significant impact on Medtronic.

Other significant changes or disruptions to international trade arrangements, such as termination or modifications of other existing trade agreements, may adversely affect our business, results of operations, financial condition and cash flows. In addition, a significant amount of our trade debtors are with national healthcare systems in many countries. Repayment of these trade debtors is dependent upon the political and financial stability of those countries. In light of these global economic fluctuations, we continue to monitor the creditworthiness of customers. Failure to receive payment of all or a significant portion of our trade debtors' balances could adversely affect our business, results of operations, financial condition and cash flows.

The COVID-19 pandemic, and the responses of business and governments to the pandemic, have at times resulted in reduced availability of air transport, port closures, increased border controls or closures, increased transportation costs and increased security threats to our supply chain, and countries may continue to close borders, impose prolonged quarantines, and further restrict travel and other activities. Our business could be adversely impacted if we are unable to successfully manage these and other risks of global operations.

Finally, changes in currency exchange rates may impact the reported value of our turnover, expenses, and cash flows. We cannot predict changes in currency exchange rates, the impact of exchange rate changes, nor the degree to which we will be able to manage the impact of currency exchange rate changes.

Consolidation in the healthcare industry could have an adverse effect on our turnover and results of operations.

Many healthcare industry companies, including healthcare systems, distributors, manufacturers, providers, and insurers, are consolidating or have formed strategic alliances. As the healthcare industry consolidates, competition to provide goods and services to industry participants will become more intense. Further, this consolidation creates larger enterprises with greater negotiating power, which they can use to negotiate price concessions. If we must reduce our prices because of industry consolidation, or if we lose customers as a result of consolidation, our business, results of operations, financial condition, and cash flows could be adversely affected.

Healthcare industry cost-containment measures could result in reduced turnover of our medical devices and medical device components.

Most of our customers, and the healthcare providers to whom our customers supply medical devices, rely on third-party payers, including government programs and private health insurance plans, to reimburse some or all of the cost of the procedures in which medical devices that incorporate components we manufacture or assemble are used. The continuing efforts of governmental authorities, insurance companies and other payers of healthcare costs to contain or reduce these costs could lead to patients being unable to obtain approval for payment from these third-party payers. If third-party payer payment approval cannot be obtained by patients, turnover of finished medical devices that include our components may decline significantly and our customers may reduce or eliminate purchases of our components. The cost-containment measures that healthcare providers are instituting, both in the U.S. and outside of the U.S., could harm our ability to operate profitably. For example, managed care organizations have successfully negotiated volume discounts for pharmaceuticals, and GPOs and IDNs have also concentrated purchasing decisions for some customers, which has led to downward pricing pressure for medical device companies, including us.

Directors

Richard H. Anderson, Craig Arnold, Scott C. Donnelly, Andrea Goldsmith, Randall J. Hogan, III, Kevin E. Lofton, Geoffrey S. Martha, Elizabeth G. Nabel, Denise M. O'Leary, and Kendall J. Powell served as directors of the Group during fiscal year 2022, and each of their terms expire at the 2022 annual general meeting of shareholders. Mr. Lofton's service as a director of the Group became effective during fiscal year 2021. Michael O. Leavitt's and James T. Lenehan's service ended on December 9, 2021. Omar Ishrak's service as Chairman of the Board ended upon his retirement on December 11, 2020. There were no other changes in directors holding office in fiscal years 2022 or 2021.

Directors' and Corporate Secretary's Interests in Shares

The interests of the Directors and corporate secretary holding office at April 29, 2022 and April 30, 2021 in the ordinary shares of the Group were as follows:

	April 29	April 29, 2022		April 30, 2021 (or date of appointment)	
	Ordinary Shares	Options/Share Units ⁽¹⁾	Ordinary Shares	Options/Share Units ⁽¹⁾	
Directors:					
Richard H. Anderson	83,836	32,193	78,826	30,171	
Craig Arnold	31,620	1,364	31,620		
Scott C. Donnelly	9,999	3,676	9,999	2,262	
Andrea Goldsmith	1,652	1,364	1,652		
Randall J. Hogan, III	38,432	1,364	38,432		
Michael O. Leavitt ⁽²⁾	_	_	12,434	8,012	
James T. Lenehan ⁽²⁾	_		33,216	23,300	
Kevin E. Lofton	_	838			
Geoffrey S. Martha	30,359	1,004,177	23,859	806,498	
Elizabeth Nabel	9,019	1,364	9,019		
Denise M. O'Leary	34,907	34,577	34,907	32,505	
Kendall J. Powell	14,800	24,184	14,800	22,333	
Corporate Secretary:					
Ivan K. Fong ⁽³⁾	_	263,922	_	_	
Bradley E. Lerman ⁽⁴⁾	_	_	21,505	499,380	

- (1) Includes unvested and vested stock options, unvested restricted stock units, deferred stock units, and unvested performance share units. For the performance share units, the number of shares earned at the end of the three-year period will vary, based on actual performance, from 0% to 200% of the target number of performance share units granted.
- (2) Served as directors until December 9, 2021, and as such, their April 29, 2022 balances disclose zero interests as they were not Directors at the end of fiscal year 2022.
- (3) Mr. Fong became Corporate Secretary on February 1, 2022. Mr. Fong had no interests as of the date of hire.
- (4) Mr. Lerman retired on February 1, 2022, and as such, his April 29, 2022 balances disclose zero interests as he was not the Corporate Secretary at the end of fiscal year 2022.

Audit Committee

The Company has an audit committee and therefore meets the requirements of Section 167 of the Companies Act 2014.

Disclosure of Information to Auditor

Each of the persons who is a director at the date of approval of this report confirms that:

- so far as the director is aware, there is no relevant audit information of which the Company's statutory auditor is unaware, and
- that director has taken all steps that ought to have been taken as a director in order to be aware of any relevant audit information and to establish that the Company's statutory auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of Section 330 of the Companies Act 2014.

Political Donations

No political contributions that require disclosure under Irish law were made during fiscal years 2022 or 2021.

Dividends

Ordinary cash dividends declared and paid during fiscal years 2022 and 2021 were \$3.4 billion and \$3.1 billion, respectively. On a per share basis, ordinary cash dividends declared and paid totaled \$0.63 per share for each quarter of fiscal year 2022 and \$0.58 per share for each quarter of fiscal year 2021. The timing, declaration, and payment of future dividends to holders of the Group's ordinary shares falls within the discretion of the Directors and depends upon many factors, including the statutory requirements of Irish law, the Group's profit and financial condition, the capital requirements of the Group's businesses, industry practice and any other factors the Directors deem relevant.

Ordinary Share Redemptions

In March 2019, the Directors authorized \$6.0 billion for redemption of the Group's ordinary shares. There is no specific time-period associated with these authorizations. The Group's redemption of ordinary shares is part of our commitment to return capital to shareholders. At April 29, 2022, we had approximately \$3.0 billion remaining under the share redemption program. Upon redemption, shares are cancelled by us, therefore, we did not hold any treasury shares at April 29, 2022 or April 30, 2021.

The following redemptions were made under the share redemption plan during fiscal year 2022:

Fiscal Year 2022	Total Number of Ordinary Shares Purchased	Nominal Value (in millions)	Average Price Paid per Share	Total Consideration Paid (in millions)	Maximum Approximate Dollar Value of Shares that may yet be Purchased Under the Program
Quarter 1	2,463,969	\$ —	\$ 126.23	\$ 311	5,080,638,969
Quarter 2	2,787,099	_	128.62	358	4,722,175,476
Quarter 3	3,433,500	<u>—</u>	108.14	371	4,350,866,973
Quarter 4	12,899,578		108.58	1,401	2,950,215,113
Total	21,584,146	<u>\$</u>		\$ 2,441	

Going Concern

The Directors have formed a judgment at the time of approving the financial statements that there is a reasonable expectation that the Group and the Company have adequate resources to continue in operational existence for at least the next twelve-month period extending from the time of approving the financial statements. The Directors have considered uncertainties driven by certain macro-economic and geopolitical factors in its impact in their going concern assessment as these could negatively impact our business.

These uncertainties include, but are not limited to, the continuing impacts of COVID-19 and healthcare system staffing shortages on future procedural volumes, supply constraints, demand for our products, customers' and suppliers' financial condition, levels of liquidity, the availability of credit facilities, and our ongoing compliance with debt covenants. The Group prepared cash flow forecasts covering a period of at least twelve months from the date of these financial statements in assessing the potential impact of these uncertainties on our liquidity. This assessment included consideration of the forecasted business performance, the cash and financial facilities available to the Group, and certain macro-economic and geopolitical factors listed above. The Group continues to expect that existing cash at bank and in hand, the cash generated by our operations, our available credit facility, as well as our expected ability to access the capital and debt markets will be sufficient to fund the Group's operating and capital needs for at least the next twelve months. To their knowledge, the Directors reasonably believe that these uncertainties would not have a material impact on our ability to continue as a going concern as of the financial statements' approval date.

Having regard to the Group's assessment of its ability to fund its expected operating and capital needs the Directors are satisfied that it is appropriate that the going concern basis continues to be adopted in the preparation of the Consolidated Financial Statements and the Company Financial Statements. The Directors understand the importance of continuing to monitor future developments related to certain macro-economic and geopolitical factors listed above.

Future Developments

As a global healthcare technology leader, we are evolving our business strategy in four key areas, as further defined in the Principal Activities section of this Directors' Report. Refer to the Principal Activities section for more information.

Significant Events Since Year End

Subsequent events have been evaluated through September 1, 2022, the date this report was approved by the Directors and the Group's Audit Committee.

On May 25, 2022, Medtronic and DaVita Inc. ("DaVita") entered into a definitive agreement with the intent to form a new, independent kidney care-focused medical device company ("NewCo") with equal equity ownership. The transaction is expected to close in calendar year 2023, subject to customary regulatory approvals and closing conditions. Medtronic is contributing its entire Renal Care Solutions business ("RCS") to NewCo. RCS is part of the Respiratory, Gastrointestinal, and Renal division in the Group's Medical Surgical portfolio and had turnover of \$325 million in fiscal year 2022.

Refer to Note 4 and 6 for further information on the subsequent U.S. Tax Court ruling, Note 9 for further information on the subsequent acquisitions of Intersect ENT and Affera, Inc., and Note 17 for further information on the subsequent term loan agreement.

Subsidiary Companies and Branches

Information regarding subsidiary undertakings, including information regarding branches, is provided in Note 26 to the consolidated financial statements.

Auditors

The statutory Auditor, PricewaterhouseCoopers, Chartered Accountants and Statutory Audit Firm, has indicated their willingness to continue in office and a resolution that they be re-appointed will be proposed at the Annual General Meeting.

NON-FINANCIAL STATEMENT

These non-financial information disclosures are included for the purpose of complying with European Union (Disclosure of Non-Financial and Diversity Information by certain large undertakings and groups) Regulations 2017, Statutory Instrument 360 of 2017, as amended by Statutory Instrument 410 of 2018.

Business Model

Information regarding the Group's business model is presented in the Principal Activities section of this Directors' Report.

Human Capital

Medtronic Workforce Overview

The Group's employees deliver on our Mission every day. We empower insight-driven care, experiences that put people first, and better outcomes for our world. In everything we do, we are engineering the extraordinary. We strive to be the employer of choice for the best and brightest global talent, where employees can grow and develop fulfilling careers. We aspire to create a truly inclusive, diverse, and equitable workplace that fosters innovation and creativity, and where every employee feels a sense of belonging and well-being. The Group has 95,000+ full-time employees, of which forty-four percent are based in the U.S. or Puerto Rico.

Inclusion, Diversity & Equity

We believe that improving health for people from all walks of life depends on our ability to unleash the creative power of our diverse global employees. By breaking down barriers to Inclusion, Diversity and Equity (ID&E), we open doors for everyone, driving progress and prosperity around the world. As of the end of fiscal year 2022, 38 percent of our U.S. workforce is ethnically diverse; women comprise 50 percent of our global workforce; and 42 percent of our manager and above employees are women. Additionally, the Group employee resource groups (ERGs) are employee-led affinity groups that provide career development and networking opportunities for members and strengthen ties between employees of many different backgrounds, cultures, and interests. In fiscal year 2022, there were 12 ERGs and Diversity Networks across 75 countries with more than 34,000 members.

Pay Equity

For fiscal year 2022, in the United States we have achieved 100% pay equity for gender for the third consecutive year and 100% pay equity for ethnically diverse employees. Globally we have achieved 99% pay equity for gender. We are actively working to close any remaining pay gaps by continuing to expand the annual pay equity analyses for each country we operate in

Workforce Compensation

Our compensation framework is designed to celebrate the value and contributions of our employees. We are committed to transparent communications on compensation. Our competitive approach to compensation reflects industry benchmarks and local market standards. Our programs include annual and long-term incentives that provide the means to share in the Group's success. To attract the best leaders, we offer competitive benefits and cash and equity incentives. We reward high-performing

employees with an ownership stake in the Group through restricted stock, and all employees have the opportunity to purchase stock at a significant discount.

Learning & Development

The skills and dedication of our employees drive our business performance. Our comprehensive professional development programs empower our people to build rewarding careers and help us attract world-class talent. Our suite of professional development programs ensures that our employees, regardless of level, location, language or learning preferences, have access to opportunities to develop and grow. Our investment in employee development has contributed to more than 30 percent of our open roles being filled with internal employees.

In fiscal year 2022, we began our shift away from degree requirements to focus on skills-based certification for certain roles within the Group. Additionally, as members of the Multiple Pathways Initiative, we have used a skill – based approach to offering opportunities to expanded pools of external talent that have previously been held back due to lack of access to undergraduate education. Internally, employees can now participate through MAPS (Medtronic Advancement Pathways and Skill-building) in undergraduate courses from top-tier universities to enhance or obtain new skills, at no cost to the employee. Our change in approach has opened up opportunities for employees who have been otherwise restricted from career advancement due to degree requirements.

Employee Engagement and Culture

Through our organizational health survey, we gain valuable insight into the Group employee experience and identify areas where we can improve in four key priority areas: 1) Employee Engagement, 2) Inclusion, 3) Innovation, and 4) Ethics. In our most recent survey ending in the fourth quarter of fiscal year 2022, more than 77 percent of our employees responded. The Group carefully reviews and implements actions based on employee feedback in order to partner and create an inclusive, innovative and supportive environment.

To enable our transformation to be the global healthcare technology leader, we introduced a reinvigorated and revived culture. The Medtronic Mindset builds on our core values of integrity, quality, inclusion and collaboration. It urges us to act boldly, compete to win, move with speed and decisiveness, foster belonging, and deliver results... the right way. Our renewed culture helps us meet the needs of our patients and customers, and ensures our Mission endures for many years to come.

Health & Safety

As a large, global employer, it is our responsibility to maintain a safe workplace and support the well-being of our employees. Throughout the COVID-19 pandemic, we have placed a high priority on employee health, providing comprehensive benefits, accommodations and resources to support our workforce through this challenging time. During fiscal year 2022, we offered onsite vaccinations to our employees, enabling a vaccination rate of nearly 90% for our U.S. and Puerto Rico – based workforce. To help limit exposure to the virus, we acted to ensure employees in business-critical functions who cannot work from home were protected, including those in research and development, quality, manufacturing, distribution, and sales. Personal protective equipment, increased sanitation, social distancing guidance, and facility updates (one-way hallways, cafeteria partitions and extra sinks) were provided to protect our employees.

The Group has a comprehensive approach to providing robust support for our employees and their families not only during the pandemic, but also in natural disasters, civil unrest and war, bereavement, and other challenging events. Along with other programs, the Medtronic Employee Assistance Program and the Medtronic Employee Emergency Assistance Fund have historically supported employees and their families when faced with difficult times by providing a variety of services such as mental health, safety, and financial resources and support at no cost. These programs have proven invaluable in navigating our employees through unique challenges, including in fiscal year 2022. The Medtronic Employee Emergency Assistance Fund is supported by donations from employees and the Medtronic Foundation, and over the last five years has provided over \$6 million in grants to employees experiencing unexpected events creating a financial hardship.

Trade Unions

We comply with global laws regarding freedom of association and collective bargaining agreements, including participation in work councils. Approximately 20 percent of our workforce were covered by collective bargaining agreements.

The non-financial information included in the following sections is based on our fiscal year 2021 performance disclosed in the 2021 Integrated Performance Report.

Sustainability Matters

Our environmental, social, and governance (ESG) strategy drives our social impact and sustainability efforts. We apply a disciplined approach with: a concentrated focus on material issues; proactive change management and risk assessments; and ongoing dialogue with stakeholders.

We embed sustainability throughout our operations, guided by our Sustainability Steering Committee (SSC). Our SSC is led by our CFO and comprises executive committee members from across the company who oversee our ESG issues. They are joined by vice presidents who lead ESG focus areas or whose work is informed by ESG.

We focus on issues that have the potential to significantly impact our business growth, finances, or reputation, are important to our stakeholders, and are aligned with our mission. Based on this definition, we identified the following sustainability priorities and focus areas where we have a particular opportunity to make a difference:

- Innovation and Access: We are increasing the availability of treatment by expanding access through capacity building, infrastructure improvement, regulatory approval, and remote diagnosis or treatment.
- Patient Safety and Product Quality: We take our responsibility to patients and caregivers seriously. Our robust quality
 management system ensures we maintain high-quality manufacturing practices and all new products adhere to
 rigorous internal and external regulatory standards for design, testing, and safety.
- Inclusion and Diversity: We are advancing the fair treatment and adequate representation of ethnicities and genders through equitable professional opportunities and pay and proactive inclusion of groups facing barriers.
- Climate and Product Stewardship: We are committed to implementing policies and responsible practices to minimize our impacts on the climate and play our part in safeguarding the planet. We do this by reducing energy and water use as well as the life cycle impacts of our products and packaging.

In addition to proactively managing our sustainability priorities, we proactively manage the following sustainability risks:

Risks from product quality and patient safety issues:

- We embed design, reliability, and manufacturability (DRM) best practices in our product design and development processes. We use standardized systems to ensure a consistent approach to quality in manufacturing processes and at our facilities.
- We track product use and collect patient outcome data to measure and improve safety and to inform future design.
- When alerted to regulatory or field safety issues with one of our products, we promptly assess the situation and implement corrective measures, as appropriate, working to understand and resolve underlying issues and root causes.

Risks from climate change:

- We manage transitional risks by monitoring climate change regulation and treaties, as well as regulations on carbon emissions (including carbon taxes), and continue to install renewable and alternate energy sources as they become more cost-effective and readily available. In preparation for the global transition to a zero-carbon economy, we announced a goal to be carbon neutral in our operations by FY30.
- We manage physical risk through our business continuity management, including hurricane readiness planning and infrastructure improvement, and risk-exposure analyses that encompass hurricanes, wildfires, earthquakes, and water stress impacts.

Risks from unforeseen ethical, social, and environmental regulations:

- We monitor relevant regulations in global markets through our Government Affairs, Human Resources, Communications, Environmental, Health and Safety, and Procurement groups.
- We engage industry organizations and regulators to share our perspectives and prepare for potential and pending regulation.

Risk of failure to meet stakeholder or regulatory expectations of our ESG performance:

We strive to meet or surpass expectations and requirements on our ESG and sustainability performance. We actively
solicit input from stakeholders concerning our performance spanning product stewardship, human rights, ethical
conduct, environmental responsibility, climate change, healthcare access, diversity, inclusion, equity, and more. For
example:

- We maintain a strong Global Cybersecurity program designed to safeguard personal data, intellectual property, and other sensitive information. Additionally, throughout the COVID-19 pandemic, we acted swiftly to help relieve impacts on our employees, partners, communities, and other stakeholders.
- We regularly train employees on our Code of Conduct and have clear processes for reporting and acting on ethical concerns. We also set consistent expectations on key issues for employees and suppliers, such as through our Global Human Rights and Responsible Supply Management programs.

We also disclose key non-financial performance indicators related to the Group's most impactful sustainability issues, risks and opportunities in our annual Integrated Performance Report. These disclosures are based on global standards and frameworks for reporting and disclosure issued by the Global Reporting Initiative, the Sustainability Accounting Standards Board, Carbon Disclosure Project (CDP), and the Task Force on Climate-related Financial Disclosures.

A full listing of our principal risks and uncertainties are set out on pages 14 to 26 of this report.

Environmental Matters

Our global Environmental Health and Safety (EHS) Policy establishes a performance management system to set goals, measure progress, and integrate sustainability into decision-making. Our corporate EHS team oversees our environmental management, compliance, remediation, health and safety, and training. They also collaborate with leaders who are responsible for policy and programs across our global regions. Manufacturing facilities account for most of our energy consumption, water use, and waste generation. We track EHS performance at these sites with management systems based on the ISO 14001 and OHSAS 18001 standards. Our impacts are detailed in our publicly available CDP response.

The Group has fiscal year 2025 environmental performance goals that will be measured against a fiscal year 2020 baseline. for energy use, greenhouse gas (GHG) emissions, water use, and waste. These emissions and energy goals move us toward our ambition of being carbon neutral in our operations by fiscal year 2030. These goals are as follows:

- 20 percent reduction in energy intensity
- 50 percent reduction in GHG emissions intensity
- 50 percent increase in energy sourced from renewable and alternative sources
- 15 percent reduction in waste intensity
- 15 percent reduction in water use intensity

The table below illustrates the Group's progress against our FY25 Environmental Performance Goals.

FY21 Progress 11%	Reduction in emissions intensity	FY25 goals 50%
4%	Reduction in energy intensity	20%
25%	Energy sourced from renewable and alternative sources	50%
14%	Reduction in waste intensity	15%
8%	Reduction in water usage intensity	15%

A full listing of our regulatory environmental risks is included within the principal risks and uncertainties section on pages 14 to 26 of this report.

Climate Resilience and Business Continuity

Unexpected events, such as global health crises, political turmoil, extreme weather, and civil unrest have the potential to impact

our employees' lives and disrupt our operations or supply chain. Our preparedness for unexpected events is key to our resilience as a business. Our Enterprise Risk & Continuity team helps us remain resilient in the face of uncertainty. We stay nimble and prepared through four key programs:

- Enterprise risk management: Our overarching approach helps ensure risk management activities are consistent across the Group and that none function in isolation.
- Business continuity management: We prioritize critical products and services based on patient impact and our strategic plans, focusing on resiliency and the identification and effective management of key operational risks.
- Crisis management (CM): The CM team prioritizes and coordinates resources and our response to crises that affect our people, operations, and/or reputation. The executive committee sponsors the CM program, with more support for operational response from the Medtronic Global Command Center and leadership.
- Supply risk management: We use this process to identify threats our extensive supply chain could pose and determine
 how to best mitigate them. We work closely with our suppliers to ensure their understanding and action regarding
 risks.

Human Rights

We comply with all relevant human rights regulations. Our Global Human Rights and Labor Standards Policy applies to all of the Group's locations and personnel and any third-party labor agencies providing employees on our behalf. We strive to ensure our suppliers adhere to the minimum standards outlined within this policy and to conduct our business in a manner that demonstrates a respect for internationally recognized human rights and the dignity of all people. Our Global Supplier Standards describe the minimum social, ethical, and environmental requirements and expectations of our suppliers. We incorporate these standards into supplier selection and management processes, supplier agreements, and purchase order terms and conditions.

Our Global Supplier Standards Compliance Program is our mechanism for identifying and mitigating the potential risks in our supply chain. This approach helps us meet regulatory requirements and ensure our supply chain conforms with customer expectations.

We encourage our suppliers to report publicly on their social and environmental goals and performance. In our fiscal year 2021 review, we assessed the top 200 suppliers by spend and confirmed that 37 percent of those publish sustainability reports, 8 percent have sustainability goals published online, and 26 percent had information relating to sustainability on their website.

We also promote inclusive sourcing through employee business unit annual plans, and sponsorship of organizations that develop and promote small and diverse suppliers in the U.S. We have integrated supplier diversity procedures as standard work across the sourcing and procurement process. In fiscal year 2021, we directed approximately 35 percent, or \$2.4 billion, of our U.S. supplier spend to small and diverse companies.

Conflict Minerals

Some of our products contain tin, tungsten, tantalum, or gold. In the Democratic Republic of Congo and neighboring countries, the mining and processing of these metals have been linked to the funding of armed conflict. To promote the use of responsibly sourced minerals, we continue to support the U.S. Dodd-Frank Act, which requires companies to disclose the use of any such conflict minerals. Additionally, we require suppliers to comply with the law and uphold responsible sourcing practices, and we reference conflict minerals requirements in supplier agreements and purchase orders. We follow the Organization for Economic Cooperation and Development (OECD) guidance on conflict minerals, including surveying suppliers to collect data on the smelters in their supply chains, as well as participate in the Responsible Minerals Initiative. We report our supplier survey results to the U.S. Securities and Exchange Commission annually in a dedicated Conflict Minerals Report. For calendar year 2021, 56 of our suppliers reported red-flag smelters or refineries in their supply chain, an increase of 125 percent compared with calendar year 2020. This increase was due to a single, large gold refiner being added to the red-flag category in calendar year 2021. In such instances, we request that the supplier work to eliminate red-flag smelters from their supply chain.

More information on our approach is available in our Conflict Minerals Policy. Our Conflict Minerals Reports can be accessed at www.sec.gov, and our Conflict Minerals Policy is available on www.medtronic.com.

Customer Relations

Our relationship with healthcare professionals is instrumental to our success, as our partners at universities, hospitals, and healthcare systems help keep us focused on patient needs throughout the innovation and healthcare delivery processes. Enduring customer relationships are built on trust, aligned values, and shared goals. Sales and marketing employees are ambassadors for the Group, and we place the highest importance in ensuring integrity is at the core of their work. We promote our products based on their approved use, and employees must adhere to the policies made explicit in our Code of Conduct and AdvaMed's Code of Ethics on Interactions with Healthcare Professionals. Our requirements for product marketing are also

included in our Global Business Conduct Standards Policy and our Physician Collaboration policy. In fiscal year 2021, we further enhanced our policy and programs to increase transparency on payments to physician-owned entities. In the United States, payment disclosures are published on the U.S. Centers for Medicare and Medicaid Services open payments site.

We require our employees to uphold our high ethical standards, whether interacting with customers in person or remotely. in response to COVID-19 restrictions, we provided sales and marketing employees with guidance and training on how to conduct ethical interactions in virtual settings. We also have the Internal Investigation program, managed by the Medtronic Office of Ethics and Compliance (OEC), which is a critical part of our system for ensuring that our marketing practices comply with our policies and external regulations.

Anti-Corruption

The Directors oversee our Anti-Bribery and Anti-Corruption program. The program is strengthened by feedback from regulators, third-party auditing, and benchmarks of other companies. We implement anti-corruption training to make internal and external stakeholders aware of relevant regulations and to explain how ethically challenging scenarios should be addressed. Anti-corruption training is covered in our required Code of Conduct training cycle. Our process ensures that new hires receive anti-corruption training upon joining the Group and when employees transition into customer-facing roles.

In some cases, we partner with third-party entities to distribute our products to customers. We hold these organizations to the same standards to which we hold ourselves and require them to implement their own anti-corruption programs. To ensure that distributors adhere to our ethical standards, we deliver annual anti-corruption training that covers our Distributor Code of Conduct, support and monitor compliance, conduct onsite monitoring, and assess corruption potential prior to renewing or entering contracts. We also establish a commercial Distributor Relationship Owner who is responsible for holding distributors accountable to our anti-corruption requirements. The table below illustrates key metrics in our anti-corruption training efforts.

	Fiscal Ye	ear
	2021	2020
Full-time equivalent employees supporting anti-corruption efforts	215	214
Third-party distributors receiving anti-corruption training	99 %	98 %
Third-party distributors receiving onsite monitoring	13.4 %	11.8 %

We also engage and educate our employees on ethics through our Code of Conduct annual review process, employee communications, Ethics Circles, and Ethics & Integrity Week. Our global Code of Conduct provides our employees with clear guidance on everyday actions. We provide versions of the Code in 22 languages, allowing 99 percent of our employees the ability to read it in their first language. We also deliver multilingual Code training for new employees and those joining the Group through acquisitions. Each year, we retrain employees on the Code and require employees to certify their understanding of its contents. The table below illustrates key metrics related to our Code of Conduct training efforts:

	Fiscal Year	
	2021	2020
Employees receiving code of conduct training and certification ⁽¹⁾	69 %	90 %
New employees receiving code of conduct training and certification	99 %	99 %
Employees joining through acquisitions receiving compliance and ethics training within 90 days of the transaction	95 %	95 %

(1) Live training at manufacturing facilities was suspended due to COVID-19, which depressed the training completion amount in fiscal year 2021.

When employees require ethical guidance or have concerns about potential violations, we strongly encourage them to speak up through one of several available channels:

- Their manager
- · Human Resources
- Legal or Compliance representatives
- The Directors' email inbox
- Our third-party Voice Your Concern Line
- Exit interviews

If our investigations confirm any employee misconduct, we take corrective action including coaching, discussion during performance reviews, change in job responsibilities (such as demotion), and, in serious cases, dismissal.

Patient Safety

Patients trust us to deliver products that are safe, effective, and reliable, and we pay close attention to quality across our entire value chain — design, manufacturing, pre-clinical and clinical trials, and post-market surveillance. In FY22, we launched a cross-functional, enterprise-wide product quality plan to drive consistency and accountability across the company, ensuring we deliver on our Mission to alleviate pain, restore health, and extend life. The plan focuses on increasing consistency and rigor across the areas of risk assessment, product design, and quality systems.

Product Quality The Group utilizes the Medtronic DRM methodology as our set of best practices for ensuring product quality, safety, and reliability throughout product design and development. Our engineers use DRM to carry out predictive engineering, a process for simulating product use to forecast performance and identify areas for improvement. These measurements enable continuous improvement and reduce the time to market for vital treatments by helping us reach our quality, cost, and performance targets. We continually improve our predictive capabilities by refining our design practices and measuring predictive engineering outcomes for every new product.

We embed quality in our manufacturing processes using a set of standardized strategies, which include the Medtronic Operating System (MOS), First Time Quality (FTQ), and Supplier Optimization and Risk Reduction (SOAR). Our quality management systems are aligned to ISO 13485. FTQ has demonstrated a significant positive impact in reducing manufacturing nonconformances at our sites. Our FTQ methodology achieves a 90 percent reduction of high-business-impact risks and quality instabilities.

Customer Data Security Protecting information is critically important for the Group, our customers, and most importantly, the patients who use our products. We have designed our security programs to safeguard data in a rapidly evolving environment. In a time of rapid adoption of connected data devices and powerful data analysis, big data is contributing to innovative products and faster research. It is critical to our business to protect information.

Our Global Cybersecurity program is designed to reflect ISO/IEC 27001 standard and the National Institute of Standards of Technology Cybersecurity Framework, as well as other relevant international security standards. To advance security practices, we collaborate with third-party organizations such as the Health Information Center (H-ISAC), AdvaMed, and the European Union Agency for Cybersecurity. We also contribute to global product security and cybersecurity standards in collaboration with the U.S. Food and Drug Administration and other regulatory advocacy groups.

The Group's employees and contingent workers play a crucial role in safeguarding data. We train all employees and contingent workers on data privacy and security to ensure they understand their role in identifying, protecting and preserving sensitive data and prevent cyber intrusions. In fiscal year 2021, we expanded and improved our global trainings to raise employee awareness of privacy and security obligations. We provided E.U. General Data Protection Regulation training for global corporate employees and non-corporate E.U. employees. We also delivered Privacy by Design training to the vast majority of E.U. employees and employees in key global functions. U.S. employees completed additional trainings on U.S. privacy laws. When we acquire a company, we conduct privacy and security due diligence and implement an integration plan that includes training as well as policy and procedure standardization. Vendors must also adhere to our data security and privacy standards, and we evaluate privacy and security risks as part of our vendor assessment process.

Clinical Trials Clinical trials are a key component in establishing the effectiveness and safety for our products. We are committed to robust, ethical practices in our studies, delivered by our team of more than 2,000 clinical employees. In addition to following our Code of Conduct and the Global Business Conduct Standards Policy, we adhere to all relevant laws and regulations relating to clinical trials.

Our internal Code of Conduct and Global Business Conduct Standards Policy guide our approach to clinical trials. We adhere to all relevant laws and regulations, including the E.U. Medical Device Regulation and the revised ISO14155:2020 standard for clinical research.

Community Investment

/s/ Denise M. O'Leary

Director

Through the first tenet of our mission, we aim to alleviate pain, restore health, and extend life. Our philanthropy extends these benefits to the underserved and their communities who lack access to healthcare. We partner with local stakeholders to determine the resources we can provide to strengthen their health efforts. These include financial contributions (including contributions to the Medtronic Foundation), product donations, volunteerism, and charitable third-party medical education.

We have donated more than \$1 billion throughout the years to support philanthropic efforts, including our contributions to the Medtronic Foundation. The table below illustrates the Group's contributions by fiscal year:

	Fiscal Year								
(in millions)	20	022		2021					
Corporate cash donations	\$	51	\$	49					
Product donations		13		13					
Approved by the Board of Directors and signed on its behalf on September 1, 2022 by:

Director

PART II

Independent auditors' report to the members of Medtronic plc

Report on the audit of the financial statements

Opinion

In our opinion:

- Medtronic plc's consolidated financial statements and company financial statements (the "financial statements") give a true and fair view of the group's and the company's assets, liabilities and financial position as at April 29, 2022 and of the group's profit and cash flows for the period then ended;
- the consolidated financial statements have been properly prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP"), as defined in Section 279 of the Companies Act 2014, to the extent that the use of those principles in the preparation of consolidated financial statements does not contravene any provision of Part 6 of the Companies Act 2014;
- the company financial statements have been properly prepared in accordance with Generally Accepted Accounting
 Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial
 Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish
 law); and
- the financial statements have been properly prepared in accordance with the requirements of the Companies Act 2014.

We have audited the financial statements, included within the Irish Annual Report, which comprise:

- the Consolidated Balance Sheet as at April 29, 2022;
- the Company Balance Sheet as at April 29, 2022;
- the Consolidated Profit and Loss Account and Consolidated Statement of Comprehensive Income for the period then ended;
- · the Consolidated Statement of Cash Flows for the period then ended;
- the Consolidated Reconciliation of Movement in Shareholders' Funds for the period then ended;
- the Company Statement of Changes in Equity for the period then ended; and
- the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

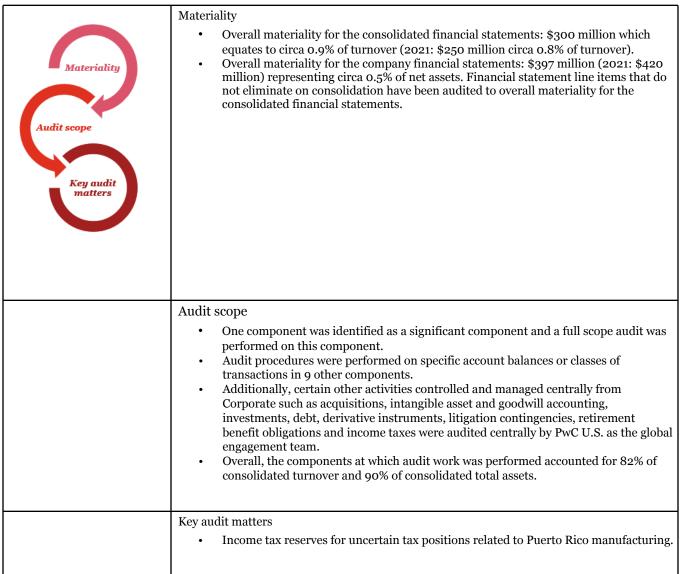

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law. Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the group in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard as applicable to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Our audit approach

Overview

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

Key audit matter

How our audit addressed the key audit matter

Income tax reserves for uncertain tax positions related to Puerto Rico manufacturing

Refer to Note 4 "Commitments and Contingencies" and Note 6 "Taxation"

As described in Notes 4 and 6 to the consolidated financial statements, the Group records reserves for uncertain tax positions related to unresolved matters with the Internal Revenue Service (IRS) of the United States (U.S.) and other taxing authorities. A significant remaining unresolved issue with the IRS at the balance sheet date, for which the Group has recorded a reserve, relates to the allocation of income between Medtronic, Inc. and its wholly owned subsidiary operating in Puerto Rico, which is one of the Group's key manufacturing sites. These reserves are subject to a high degree of estimation and management judgement. Total reserves relating to uncertain tax positions as of April 29, 2022 were \$1.661 billion, of which the Puerto Rico manufacturing reserve makes up a significant amount.

As disclosed in note 27 - Post-Balance Sheet Events and note 6 - Taxation, subsequent to the year end, on August 18, 2022, the U.S. Tax Court (Tax Court) issued its opinion regarding the allocation of income between Medtronic Inc and its wholly owned subsidiary operating in Puerto Rico for fiscal years 2005 and 2006. This case relates only to fiscal years 2005 and 2006. The Tax Court determined that the royalty rate should be higher, thereby increasing income allocated to the U.S. and consequently income tax. The Tax Court's opinion remains subject to finalization by the Tax Court and to appeal by either or both parties. At the time of the approval of the financial statements the Company is evaluating the impact of the Tax Court's opinion and whether it will appeal. If the Tax Court's opinion is finalized as is, without appeal by either party, the Company anticipates the findings will likely be applied for all years following fiscal year 2006. Under this potential scenario. the Company has currently estimated a potential income tax charge, including interest, of up to \$2.0 billion. In accordance with ASC 740 - Income Taxes, this has been determined to be a non adjusting post balance sheet

We determined the Group's accounting for income tax reserves for uncertain tax positions related to Puerto Rico manufacturing to be a key audit matter due to the significant judgement exercised by management when determining the reserves and the inherent high degree of estimation uncertainty.

We tested the effectiveness of controls relating to the recognition and measurement of the Puerto Rico reserve for uncertain tax positions.

We evaluated management's process to determine the estimate.

We evaluated the reasonableness of the underlying assumptions in management's calculations to determine the reserves recorded, including whether the methodology and assumptions used by the Group are consistent with the initial Tax Court's ruling as described in Note 4 to the consolidated financial statements and examined relevant documents related to the tax court case.

Professionals with specialized skill and knowledge were used to assist in these procedures.

We considered the Tax Court's opinion issued subsequent to the year end on August 18, 2022 and management's determination that the Tax Court's opinion is a non adjusting post balance sheet event in accordance with US GAAP.

We also considered the disclosures in the financial statements in relation to these matters.

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the group, the accounting processes and controls, and the industry in which the group operates. The group functions in four operating segments, Cardiovascular Portfolio, Medical Surgical Portfolio, Neuroscience Portfolio and Diabetes Operating Unit. Reporting components are comprised of legal entities with the majority of these components supported by shared service centres within the group.

In determining our audit scope we first focused on individual reporting components and determined the type of work that needed to be performed by us at the reporting components, as the Irish group engagement team, PwC U.S. as the global engagement team or other component auditors within other PwC network firms. One component was identified as a significant component and a full scope audit was performed on this component. Based on our risk assessment, audit procedures were performed on specific account balances or classes of transactions in 9 other components. Additionally, certain other activities controlled and managed centrally from Corporate such as acquisitions, intangible asset and goodwill accounting, investments, debt, derivative instruments, litigation contingencies, retirement benefit obligations and income taxes were audited centrally by PwC U.S. as the global engagement team. We determined the level of involvement we needed to have in the audit work of those reporting components to be able to conclude whether sufficient appropriate audit evidence had been obtained as a basis for our opinion on the financial statements as a whole.

Overall, the components at which audit work was performed accounted for 82% of consolidated turnover and 90% of consolidated total assets. We allocated materiality levels and issued instructions to each component auditor. In addition to the audit report from each of the component auditors, we received memoranda of examination on work performed and relevant findings which supplemented our understanding of the component, its results and the audit findings and we participated in a number of meetings with the component teams. This, together with the additional procedures performed at a group level, gave us the evidence we needed for our opinion on the financial statements as a whole.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements as a whole as follows:

	Consolidated financial statements	Company financial statements
Overall materiality	\$300 million (2021: \$250 million).	\$397 million (2021: \$420 million).
	Equating to circa 0.9% of turnover (2021: circa 0.8% of turnover).	Based on circa 0.5% of net assets.
Rationale for benchmark applied	We considered a number of materiality benchmarks including "turnover", "profit before taxation", "profit before taxation adjusted for impairment charges and other costs specific to the Mechanical Circulatory Support Operating Unit" and a four-year average of "profit before taxation adjusted for certain non-recurring items" in calculating our overall materiality level. In considering the materiality levels calculated by reference to the various benchmarks we considered a materiality level of \$300 million to be the most appropriate. We also considered the reasonableness of the amount of overall materiality calculated by reference to the materiality used in the prior period.	As the Company is a holding company whose main activity is the management of investments in subsidiaries, net assets is considered the most appropriate benchmark. Financial statement line items that do not eliminate on consolidation have been audited to overall materiality for the consolidated financial statements.

We agreed with the Audit Committee that we would report to them misstatements identified during our audit above \$25 million (consolidated and company financial statements) (2021: \$25 million) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Conclusions relating to going concern

Our evaluation of the directors' assessment of the group and company's ability to continue to adopt the going concern basis of accounting included:

- obtaining management's going concern assessment for a period of at least twelve months from the date on which the financial statements are authorised for issue;
- agreeing that the cash flow projections underlying management's going concern assessment are materially consistent with the board approved forecasts, assessing how these forecasts are compiled, and evaluating the key assumptions;
- considering available facilities and the maturity profile of the group's debt to assess liquidity and considering expected compliance with debt covenants for the going concern assessment period;
- evaluation of management's assessment of the impact which COVID-19 may continue to have through the going concern assessment period; and
- assessing the going concern disclosures within note 1 of the consolidated and company financial statements.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the group's or the company's ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the group's or the company's ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Irish Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 (excluding the information included in the "Non-Financial Statement" as defined by that Act on which we are not required to report) have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report
 (excluding the information included in the "Non-Financial Statement" on which we are not required to report) for the
 period ended April 29, 2022 is consistent with the financial statements and has been prepared in accordance with the
 applicable legal requirements.
- Based on our knowledge and understanding of the group and company and their environment obtained in the course of
 the audit, we have not identified any material misstatements in the Directors' Report (excluding the information
 included in the "Non-Financial Statement" on which we are not required to report).

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities set out on page 1, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and the company's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In

other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is

selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/ Description of auditors responsibilities for audit.pdf

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- · We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the company were sufficient to permit the company financial statements to be readily and properly audited.
- The Company Balance Sheet is in agreement with the accounting records.

Other exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Prior financial period Non-Financial Statement

We are required to report if the company has not provided the information required by Regulation 5(2) to 5(7) of the European Union (Disclosure of Non-Financial and Diversity Information by certain large undertakings and groups) Regulations 2017 in respect of the prior financial period. We have nothing to report arising from this responsibility.

Paul Barrie for and on behalf of PricewaterhouseCoopers Chartered Accountants and Statutory Audit Firm Dublin September 1, 2022

The accompanying notes are an integral part of these consolidated financial statements.

1. Summary of Significant Accounting Policies

Nature of Operations Medtronic plc and its subsidiaries (the Group) is the leading global healthcare technology company – alleviating pain, restoring health, and extending life for millions of people around the world. The Group provides innovative products and therapies to serve healthcare systems, physicians, clinicians, and patients. The Group was founded in 1949 and is headquartered in Dublin, Ireland. Medtronic plc is incorporated as a company limited by shares in the Republic of Ireland (registration number 545333). The address of its registered office is 20 On Hatch, Hatch Street Lower, Dublin 2, Ireland.

Basis of Presentation The Directors have elected to prepare the consolidated financial statements in accordance with Section 279 of the Companies Act 2014, which provides that a true and fair view of the state of affairs and profit or loss may be given by preparing the financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP), as defined in Section 279(1) of the Companies Act 2014, to the extent that the use of those principles in the preparation of the consolidated financial statements does not contravene any provision of Part 6 of the Companies Act 2014 or any regulations made thereunder.

Consolidated financial statements and notes prepared in accordance with U.S. GAAP were included in the Group's Annual Report on Form 10-K for the year ended April 29, 2022, filed with the United States (U.S.) Securities and Exchange Commission (SEC). These consolidated financial statements were prepared in accordance with Irish Company Law, to present to the shareholders of the Group and to file with the Companies Registration Office in Ireland. Accordingly, these consolidated financial statements include presentation and additional disclosures required by the Companies Act 2014, in addition to those disclosures required under U.S. GAAP.

Rather than utilizing the terminology set out under Irish Company Law, some terminology typically utilized in a set of U.S. GAAP financial statements has been retained for the benefit of those users of these financial statements who also access the Group's Form 10-K U.S. GAAP financial statements. The following Irish Company Law references have the same meaning as the corresponding U.S. GAAP references throughout this report:

U.S. GAAP Terminology

Irish Company Law Terminology

Net sales	Turnover
Accounts receivable	Trade debtors
Property, plant, & equipment	Tangible assets
Liabilities	Creditors/Provision
Selling, general, and administrative expense	Distribution and administration expense
Consolidated Statements of Income	Consolidated Profit and Loss Account
Income tax provision	Taxation
Interest expense	Interest payable and similar expenses

Irish Company Law contains specific requirements for the classification of any liability uncertain as to the amount at which it will be settled or as to the date on which it will be settled. These liabilities are classified as provisions. Refer to Note 18 for those liabilities which meet the provision classification requirements under Irish Company Law.

The consolidated financial statements include the accounts of Medtronic plc, its wholly-owned subsidiaries, entities for which the Group has a controlling financial interest, and variable interest entities for which the Group is the primary beneficiary. Intercompany transactions and balances have been fully eliminated in consolidation. Certain reclassifications have been made to prior year financial statements to conform to classifications used in the current year. Amounts reported in millions within this Irish annual report are computed based on the amounts in thousands, and therefore, the sum of the components may not equal the total amount reported in millions due to rounding. Additionally, certain columns and rows within tables may not sum due to rounding.

Use of Estimates The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States (U.S.) (U.S. GAAP) requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Estimates are used when accounting for items such as taxation, contingencies, intangible asset, and liability valuations. Actual results may or may not differ from those estimates.

COVID-19 has had, and may continue to have, an adverse effect on our business, results of operations, financial condition, and cash flows, and its future impacts remain uncertain and unpredictable. The Group has considered the disruptions caused by COVID-19, has assessed the potential impact on certain accounting estimates including, but not limited to, the allowance for doubtful accounts, inventory reserves, return reserves, the valuation of goodwill, intangible assets, other long-lived assets, investments and contingent consideration, as of April 29, 2022 and through the date of this report. There was not a material impact to accounting estimates associated with the Group's consolidated financial statements as of and for the fiscal years ended April 29, 2022 and April 30, 2021.

Going Concern The Directors have formed a judgment at the time of approving the financial statements that there is a reasonable expectation that the Group and the Company have adequate resources to continue in operational existence for at least the next twelve-month period extending from the time of approving the financial statements. The Directors have considered uncertainties driven by certain macro-economic and geopolitical factors in its impact in its going concern assessment as these could negatively impact our business.

These uncertainties include, but are not limited to, the continuing impacts of COVID-19 and healthcare system staffing shortages on future procedural volumes, supply constraints, demand for our products, customers' and suppliers' financial condition, levels of liquidity, the availability of credit facilities, and our ongoing compliance with debt covenants. The Group prepared cash flow forecasts covering a period of at least twelve months from the date of these financial statements in assessing the potential impact of these uncertainties on our liquidity. This assessment included consideration of the forecasted business performance, the cash and financial facilities available to the Group, and certain macro-economic and geopolitical factors listed above. The Group continues to expect that existing cash at bank and in hand, the cash generated by our operations, our available credit facility, as well as our expected ability to access the capital and debt markets will be sufficient to fund the Group's operating and capital needs for at least the next twelve months. To its knowledge, the Directors reasonably believe that these uncertainties would not have a material impact on our ability to continue as a going concern as of the financial statements' approval date.

Having regard to the Group's assessment of its ability to fund its expected operating and capital needs, the Directors are satisfied that it is appropriate that the going concern basis continues to be adopted in the preparation of the Consolidated Financial Statements and the Company Financial Statements. The Directors understand the importance of continuing to monitor future developments related to certain macro-economic and geopolitical factors listed above.

Fiscal Year-End The Group utilizes a 52/53-week fiscal year, ending the last Friday in April, for the presentation of its consolidated financial statements and related notes thereto at April 29, 2022 and April 30, 2021 and for each of the two fiscal years ended April 29, 2022 (fiscal year 2022) and April 30, 2021 (fiscal year 2021). Fiscal year 2022, was a 52-week year. Fiscal year 2021 was a 53-week year, with the extra week having occurred in the first fiscal month of the first quarter.

Cash at Bank and in Hand The Group considers highly liquid investments with maturities of three months or less from the date of purchase to be cash at bank and in hand. These investments are carried at cost, which approximates fair value.

Investments The Group invests in marketable debt and equity securities, investments that do not have readily determinable fair values, and investments accounted for under the equity method.

Marketable debt securities are classified and accounted for as available-for-sale. These investments are recorded at fair value in the consolidated balance sheet. The change in fair value for available-for-sale securities is recorded, net of taxation, as a component of accumulated other comprehensive loss on the consolidated balance sheet. The Group determines the appropriate classification of its investments in marketable debt securities at the time of purchase and reevaluates such determinations at each balance sheet date. The classification of marketable debt securities as short-term or financial assets is based on the nature of the securities and the availability for use in current operations consistent with the Group's management of its capital structure and liquidity.

Certain of the Group's investments in marketable equity securities and other securities are long-term, strategic investments in companies that are in various stages of development and are included in *financial assets* on the consolidated balance sheet. Marketable equity securities are recorded at fair value in the consolidated balance sheet. The change in fair value of marketable equity securities is recognized within *other non-operating income*, *net* in the consolidated profit and loss account. At each reporting period, the Group makes a qualitative assessment considering impairment indicators to evaluate whether the investment is impaired. Equity securities accounted for under the equity method are initially recorded at the amount of the Group's investment and are adjusted each period for the Group's share of the investee's profit or loss and dividends paid. Securities accounted for under the equity method are reviewed quarterly for changes in circumstance or the occurrence of events that suggest other than temporary impairment has occurred.

Trade Debtors The Group grants credit to customers in the normal course of business and maintains an allowance for doubtful accounts for potential credit losses. When evaluating allowances for doubtful accounts, the Group considers various factors, including historical experience and customer-specific information. Uncollectible accounts are written-off against the allowance when it is deemed that a customer account is uncollectible.

Inventories Inventories are stated at the lower of cost or net realizable value, with cost determined on a first-in, first-out basis. The Group reduces the carrying value of inventories for items that are potentially excess, obsolete, or slow-moving based on changes in customer demand, technology developments, or other economic factors.

Tangible Assets Tangible assets are stated at cost and depreciated over the useful lives of the assets using the straight-line method. Additions and improvements that extend the lives of the assets are capitalized, while expenditures for repairs and maintenance are expensed as incurred. The Group assesses tangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of tangible asset groupings may not be recoverable. The cost of interest that is incurred in connection with significant ongoing construction projects is capitalized using a weighted average interest rate. These costs are included in tangible assets and amortized over the useful life of the related asset. Upon retirement or disposal of tangible assets, the costs and related amounts of accumulated depreciation or amortization are eliminated from the asset and accumulated depreciation accounts. The difference, if any, between the net asset value and the proceeds, is recognized in profit and loss. The Group utilizes the following estimated useful lives (in years):

Equipment	Generally 2-7, up to 15
Computer software	Up to 5
Land and land improvements	Up to 20
Buildings and leasehold improvements	Up to 40

Goodwill and Intangible Assets Goodwill is the excess of the purchase price over the estimated fair value of net assets of acquired businesses. Irish Company Law requires goodwill and indefinite live intangible assets to be amortized. However, the Group does not believe this gives true and fair view, as not all goodwill and intangible assets decline in value, and goodwill is not amortized under U.S. GAAP. In addition, as goodwill that does decline in value rarely does so on a straight-line basis, straight-line amortization of goodwill and indefinite lived intangible assets over an arbitrary period does not reflect the economic reality. Therefore, goodwill and indefinite lived intangible assets are not amortized. The Group assesses goodwill for impairment annually in the third quarter of the financial year and whenever an event occurs or circumstances change that would indicate the carrying amount may be impaired. Impairment testing for goodwill is performed at a reporting unit level. The test for impairment of goodwill requires the Group to make several estimates related to projected future cash flows to determine the fair value of the goodwill reporting units. The Group calculates the excess of each reporting unit's fair value over its carrying amount, including goodwill, utilizing a discounted cash flow analysis. Internal operational budgets and long-range strategic plans are used as a basis for the cash flow analysis. The Group also utilizes assumptions for working capital, capital expenditures, and terminal growth rates. The discount rate applied to the cash flow analysis is based on the weighted average cost of capital ("WACC") for each reporting unit. An impairment is recognized when the carrying amount of the reporting unit's net assets exceeds the estimated fair value of the reporting unit.

Intangible assets include patents, trademarks, tradenames, customer relationships, purchased technology, and in-process research and development (IPR&D). Intangible assets with a definite life are amortized on a straight-line basis with estimated useful lives typically ranging from three to 20 years. Amortization is recognized within *distribution and administrative expense* in the consolidated profit and loss account. Intangible assets with a definite life are tested for impairment whenever events or changes in circumstances indicate that the carrying amount of an intangible asset (asset group) may not be recoverable. When events or changes in circumstances indicate that the carrying amount of an intangible asset may not be recoverable, the Group calculates the excess of an intangible asset's carrying value over its undiscounted future cash flows. If the carrying value is not recoverable, an impairment is recognized based on the amount by which the carrying value exceeds the fair value. The fair value of an intangible asset (asset group) is estimated by utilizing a discounted cash flow analysis.

Acquired IPR&D represents the fair value assigned to those research and development projects that were acquired in a business combination for which the related products have not received regulatory approval and have no alternative future use. IPR&D is capitalized at its fair value as an indefinite-lived intangible asset, and any development costs incurred after the acquisition are expensed as incurred. The fair value of IPR&D is determined by estimating the future cash flows of each project and discounting the net cash flows back to their present values. Upon achieving regulatory approval or commercial viability for the related product, the indefinite-lived intangible asset is accounted for as a definite-lived asset and is amortized on a straight-line

basis over the estimated useful life. If the project is not completed or is terminated or abandoned, the Group may have an impairment related to the IPR&D, which is charged to expense. Indefinite-lived intangible assets are tested for impairment annually in the third quarter of the fiscal year and whenever events or changes in circumstances indicate that the carrying amount may be impaired. Impairment is calculated as the excess of the asset's carrying value over its fair value. Fair value is generally determined using a discounted future cash flow analysis. IPR&D with no alternative future use acquired outside of a business combination is expensed immediately.

Contingent Consideration Certain of the Group's business combinations involve potential payment of future consideration that is contingent upon the achievement of certain product development milestones and/or contingent on the acquired business reaching certain performance milestones. The Group records contingent consideration at fair value at the date of acquisition based on the consideration expected to be transferred, estimated as the probability-weighted future cash flows, discounted back to present value. The fair value of contingent consideration is measured using projected payment dates, discount rates, probabilities of payment, and projected turnover (for turnover-based considerations). Projected turnover is based on the Group's most recent internal operational budgets and long-range strategic plans. The discount rate used is determined at the time of measurement in accordance with accepted valuation methodologies. Changes in projected turnover, probabilities of payment, discount rates, and projected payment dates may result in adjustments to the fair value measurements. Contingent consideration is remeasured each reporting period using Level 3 inputs, and the change in fair value, including accretion for the passage of time, is recognized as profit or expense within *other operating expense, net* in the consolidated profit and loss account. Contingent consideration payments made soon after the acquisition date are classified as investing activities in the consolidated statement of cash flows. Contingent consideration payments not made soon after the acquisition date that are related to the acquisition date fair value are reported as financing activities in the consolidated statement of cash flows, and amounts paid in excess of the original acquisition date fair value are reported as operating activities in the consolidated statement of cash flows.

Self-Insurance The Group self-insures the majority of its insurable risks, including medical and dental costs, disability coverage, physical loss to property, business interruptions, workers' compensation, comprehensive general, and product liability. Insurance coverage is obtained for risks required to be insured by law or contract. The Group uses claims data and historical experience, as applicable, to estimate liabilities associated with the exposures that the Group has self-insured.

Retirement Benefit Plan Assumptions The Group sponsors various retirement benefit plans, including defined benefit pension plans, post-retirement medical plans, defined contribution savings plans, and termination indemnity plans, covering substantially all U.S. employees and many employees outside the U.S. See Note 19 for assumptions used in determining pension and post-retirement benefit costs and liabilities.

Derivatives The Group recognizes all derivative financial instruments in its consolidated financial statements at fair value in accordance with authoritative guidance on derivatives and hedging, and presents assets and liabilities associated with derivative financial instruments on a gross basis in the consolidated financial statements. For derivative instruments that are designated and qualify as hedging instruments, the hedging instrument must be designated as a fair value hedge or a cash flow hedge, based upon the exposure being hedged. See Note 15 for more information on the Group's derivative instruments and hedging programs.

Fair Value Measurements The Group follows the authoritative guidance on fair value measurements and disclosures with respect to assets and liabilities that are measured at fair value on both a recurring and nonrecurring basis. Fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. The authoritative guidance also establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs market participants would use in valuing the asset or liability, based on market data obtained from sources independent of the Group. Unobservable inputs are inputs that reflect the Group's assumptions about the factors market participants would use in valuing the asset or liability developed based upon the best information available in the circumstances. The categorization of financial assets and financial liabilities within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The hierarchy is broken down into three levels defined as follows:

- Level 1 Inputs are quoted prices in active markets for identical assets or liabilities.
- Level 2 Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs (other than quoted prices) that are observable for the asset or liability, either directly or indirectly.
- Level 3 Inputs are unobservable for the asset or liability.

Financial assets that are classified as Level 1 securities include highly liquid government bonds within U.S. government and agency securities and marketable equity securities for which quoted market prices are available. In addition, the Group classifies currency forward contracts as Level 1 since they are valued using quoted market prices in active markets which have identical assets or liabilities.

The valuation for most fixed maturity securities are classified as Level 2. Financial assets that are classified as Level 2 include corporate debt securities, government and agency securities, other asset-backed securities, certificate of deposits, debt funds, and mortgage-backed securities whose value is determined using inputs that are observable in the market or may be derived principally from, or corroborated by, observable market data such as pricing for similar securities, recently executed transactions, cash flow models with yield curves, and benchmark securities. In addition, total return swaps are included in Level 2 as the Group uses inputs other than quoted prices that are observable for the asset. The Level 2 derivative instruments are primarily valued using standard calculations and models that use readily observable market data as their basis.

Financial assets are considered Level 3 when their fair values are determined using pricing models, discounted cash flow methodologies, or similar techniques, and at least one significant model assumption or input is unobservable. Financial assets that are classified as Level 3 include certain investment securities for which there is limited market activity such that the determination of fair value requires significant judgment or estimation, and auction rate securities. With the exception of auction rate securities, these securities are valued using third-party pricing sources that incorporate transaction details such as contractual terms, maturity, timing, and amount of expected future cash flows, as well as assumptions about liquidity and credit valuation adjustments by market participants. The fair value of auction rate securities is estimated by the Group using a discounted cash flow model, which incorporates significant unobservable inputs. The significant unobservable inputs used in the fair value measurement of the Group's auction rate securities are years to principal recovery and the illiquidity premium that is incorporated into the discount rate. For goodwill, other intangible assets, and IPR&D, inputs used in the fair value analysis fall within Level 3 of the fair value hierarchy due to the use of significant unobservable inputs to determine fair value.

Certain investments for which the fair value is measured using the net asset value per share (or its equivalent) practical expedient are excluded from the fair value hierarchy. Financial assets for which the fair value is measured using the net asset value per share practical expedient include certain debt funds, equity and fixed income commingled trusts, and registered investment companies.

Turnover The Group sells its products through direct sales representatives and independent distributors. Additionally, a portion of the Group's turnover is generated from consignment inventory maintained at hospitals. The Group recognizes turnover when control is transferred to the customer. For products sold through direct sales representatives and independent distributors, control is transferred upon shipment or upon delivery, based on the contract terms and legal requirements. For consignment inventory, control is transferred when the product is used or implanted. Payment terms vary depending on the country of sale, type of customer, and type of product.

If a contract contains more than one performance obligation, the transaction price is allocated to each performance obligation based on relative standalone selling price. Shipping and handling is treated as a fulfillment activity rather than a promised service, and therefore, is not considered a performance obligation. Taxes assessed by a governmental authority that are both imposed on, and concurrent with, a specific turnover producing transaction and collected by the Group from customers (for example, sales, use, value added, and some excise taxes) are not included in turnover. For contracts that have an original duration of one year or less, the Group uses the practical expedient applicable to such contracts and does not adjust the transaction price for the time value of money.

The amount of turnover recognized reflects turnover rebates and returns, which are estimated based on sales terms, historical experience, and trend analysis. In estimating rebates, the Group considers the lag time between the point of sale and the payment of the rebate claim, the stated rebate rates, and other relevant information. The Group records adjustments to rebates and returns reserves as increases or decreases of turnover.

The Group records a deferred revenue liability if a customer pays consideration before the Group transfers a good or service to the customer. Deferred revenue primarily represents remote monitoring services and equipment maintenance, for which consideration is received at the same time as consideration for the device or equipment. Turnover related to remote monitoring services and equipment maintenance is recognized over the service period as time elapses.

Shipping and Handling Shipping and handling costs incurred to physically move product from the Group's premises to the customer's premises are recognized in *distribution and administrative expense* in the consolidated profit and loss account and were \$354 million and \$308 million in fiscal years 2022 and 2021, respectively. Other shipping and handling costs incurred to store, move, and prepare products for shipment are recognized in *cost of sales* in the consolidated profit and loss account.

Medtronic plc

Notes to the Consolidated Financial Statements

Research and Development Research and development costs are expensed when incurred. Research and development costs include costs of research, engineering, and technical activities to develop a new product or service or make significant improvement to an existing product or manufacturing process. Research and development costs also include pre-approval regulatory and clinical trial expenses.

Contingencies The Group records a liability in the consolidated financial statements for loss contingencies when a loss is known or considered probable, and the amount may be reasonably estimated. If the reasonable estimate of a known or probable loss is a range, and no amount within the range is a better estimate than any other, the minimum amount of the range is accrued. If a loss is reasonably possible but not known or probable, and may be reasonably estimated, the estimated loss or range of loss is disclosed.

Taxation The Group has deferred taxation that arises as a result of the different treatment of transactions for U.S. GAAP and taxation accounting, known as temporary differences. The Group records the tax effect of these temporary differences as deferred tax assets and deferred tax provisions. Deferred tax assets generally represent items that may be used as a tax deduction or credit in a tax return in future years for which the Group has already recognized the tax benefit in the consolidated profit and loss account. The Group establishes valuation allowances for deferred tax assets when the amount of expected future taxable profit is not likely to support the use of the deduction or credit. Deferred tax provisions generally represent taxation recognized in the consolidated financial statements for which payment has been deferred or expense has already been taken as a deduction on the Group's tax return but has not yet been recognized as an expense in the consolidated profit and loss account.

Other Operating Expense, Net Other operating expense, net primarily includes royalty income and expense, currency remeasurement and derivative gains and losses, Puerto Rico excise taxes, changes in fair value of contingent consideration, changes in amounts accrued for certain contingent liabilities for a past acquisition, charges related to the June 2021 decision to stop the distribution and sale of Medtronic's HVAD System within the Mechanical Circulatory Support Operating Unit (MCS) (MCS charges), impairment charges, and profit from funded research and development arrangements.

Other Non-Operating Income, Net Other non-operating income, net includes the non-service component of net periodic pension and post-retirement benefit cost, investment gains and losses, and interest receivable and similar income.

Currency Translation Assets and liabilities of non-U.S. dollar functional currency entities are translated to U.S. dollars at period-end exchange rates, and the currency impacts arising from the translation of the assets and liabilities are recorded as a cumulative translation adjustment, a component of *accumulated other comprehensive loss*, on the consolidated balance sheet. Elements of the consolidated profit and loss account are translated at the average monthly currency exchange rates in effect during the period. Currency transaction gains and losses are included in *other operating expense*, *net* in the consolidated profit and loss account.

Comprehensive Income and Accumulated Other Comprehensive Loss In addition to profit for the financial year, comprehensive income includes changes in currency exchange rate translation adjustments, gains and losses on derivative and non-derivative instruments designated as net investment hedges, unrealized gains and losses on currency exchange rate derivative contracts and interest rate derivative instruments qualifying and designated as cash flow hedges, net changes in retirement obligation funded status, and unrealized gains and losses on investment securities. See Note 22 for discussion regarding taxation on cumulative translation adjustments.

Stock-Based Compensation The Group measures stock-based compensation expense at the grant date based on the fair value of the award and recognizes the compensation expense over the requisite service period, which is generally the vesting period. The amount of stock-based compensation expense recognized during a period is based on the portion of the awards that are expected to vest. The Group estimates pre-vesting forfeitures at the time of grant and revises the estimates in subsequent periods.

Recently Adopted Accounting Standards

Current Expected Credit Losses

In June 2016, the Financial Accounting Standards Board (FASB) issued guidance changing the methodology to be used to measure credit losses for certain financial instruments and financial assets, including trade receivables. The new methodology requires the recognition of an allowance that reflects the current estimate of credit losses expected to be incurred over the life of the financial asset. The Group adopted this guidance using the modified retrospective method in the first quarter of fiscal year 2021. The adoption of this guidance did not have a material impact to the Group's consolidated financial statements.

2. Turnover

The Group's turnover is principally derived from device-based medical therapies and services related to cardiac rhythm disorders, cardiovascular disease, renal disease, neurological disorders and diseases, spinal conditions and musculoskeletal trauma, chronic pain, urological and digestive disorders, ear, nose, and throat conditions, and diabetes conditions as well as advanced and general surgical care products, respiratory and monitoring solutions, and neurological surgery technologies. The Group's primary customers include healthcare systems, clinics, third-party healthcare providers, distributors, and other institutions, including governmental healthcare programs and group purchasing organizations.

The table below illustrates turnover by segment and division for fiscal years 2022 and 2021.

	 Turnover by Fiscal Year					
(in millions)	 2022		2021			
Cardiac Rhythm & Heart Failure	\$ 5,908	\$	5,584			
Structural Heart & Aortic	3,055		2,834			
Coronary & Peripheral Vascular	2,460		2,354			
Cardiovascular	11,423		10,772			
Surgical Innovations	6,060		5,438			
Respiratory, Gastrointestinal, & Renal	3,081		3,298			
Medical Surgical	9,141		8,737			
Cranial & Spinal Technologies	4,456		4,288			
Specialty Therapies	2,592		2,307			
Neuromodulation	1,735		1,601			
Neuroscience	8,784		8,195			
Diabetes	2,338		2,413			
Total	\$ 31,686	\$	30,117			

The table below includes turnover by market geography and segment for fiscal years 2022 and 2021.

	U.S. ⁽¹⁾				Non-U.S. Developed Markets ⁽²⁾					Emerging Markets ⁽³⁾			
(in millions)	Fis	scal Year 2022	Fi	scal Year 2021	Fi	iscal Year 2022	Fis	scal Year 2021	Fis	scal Year 2022	Fi	scal Year 2021	
Cardiovascular	\$	5,545	\$	5,248	\$	3,866	\$	3,752	\$	2,012	\$	1,773	
Medical Surgical		3,862		3,650		3,373		3,320		1,905		1,766	
Neuroscience		5,753		5,456		1,801		1,724		1,229		1,015	
Diabetes		974		1,171		1,085		1,019		279		222	
Total	\$	16,135	\$	15,526	\$	10,126	\$	9,815	\$	5,426	\$	4,777	

- (1) U.S. includes the United States and U.S. territories.
- (2) Non-U.S. developed markets include Japan, Australia, New Zealand, Korea, Canada, and the countries of Western Europe.
- (3) Emerging markets include the countries of the Middle East, Africa, Latin America, Eastern Europe, and the countries of Asia that are not included in the non-U.S. developed markets, as defined above.

At April 29, 2022, \$981 million of rebates were classified as *provisions for liabilities*, and \$548 million of rebates were classified as a reduction of *debtors* in the consolidated balance sheet. At April 30, 2021, \$906 million of rebates were classified as *provisions for liabilities*, and \$485 million of rebates were classified as a reduction of *debtors* in the consolidated balance sheet. During fiscal year 2022, adjustments to rebate and return reserves recognized in turnover that were included in the rebate and return reserves at the beginning of the period were not material.

Deferred Revenue and Remaining Performance Obligations

Deferred revenue at April 29, 2022 and April 30, 2021 was \$399 million and \$368 million, respectively. At April 29, 2022 and April 30, 2021, \$305 million and \$276 million was included in *creditors (amounts falling due within one year)*, respectively, and \$94 million and \$93 million was included in *creditors (amounts falling due after more than one year)*, respectively. During

Medtronic plc

Notes to the Consolidated Financial Statements

the fiscal year ended April 29, 2022, the Group recognized \$243 million of turnover that was included in deferred revenue as of April 30, 2021.

Remaining performance obligations include goods and services that have not yet been delivered or provided under existing, noncancellable contracts with minimum purchase commitments. At April 29, 2022, the estimated turnover expected to be recognized in future periods related to unsatisfied performance obligations for executed contracts with an original duration of one year or more was approximately \$925 million. The Group expects to recognize turnover on the majority of these remaining performance obligations over the next three years.

3. Restructuring Charges

Enterprise Excellence

In the third quarter of fiscal year 2018, the Group announced its Enterprise Excellence restructuring program, which was designed to leverage the Group's global size and scale, as well as enhance the customer and employee experience, with a focus on three objectives: global operations, functional optimization, and commercial optimization.

Since inception, the Group has incurred pre-tax exit and disposal costs and other costs, across all segments, of \$1.6 billion in connection with the Enterprise Excellence program. In total, the Group estimates it will recognize approximately \$1.8 billion of exit and disposal costs and other costs related to the program by the end of fiscal year 2023. The remaining charges are costs associated with the restructuring program, such as salaries and benefits for employees supporting the program, including program management and transition teams, and strategic and operational consulting services related to the three objectives of the program. These charges are recognized within *restructuring charges*, *net*, *cost of sales*, and *distribution and administrative expense* in the consolidated profit and loss account.

For fiscal years 2022 and 2021, the Group recognized net charges of \$259 million and \$349 million, respectively, of which \$116 million and \$128 million, respectively, were recognized within *cost of sales*, and \$112 million and \$169 million, respectively, were recognized within *distribution and administrative expense* in the consolidated profit and loss account.

Simplification

In the first quarter of fiscal year 2021, the Group initiated the Simplification restructuring program, designed to make the Group a more nimble and competitive organization focused on accelerating innovation, enhancing the customer experience, driving turnover growth, and winning market share, while also more efficiently and effectively leveraging the enterprise scale.

Since inception, the Group has incurred pre-tax exit and disposal costs and other costs, across all segments, of \$349 million in connection with the program. In total, the Group estimates it will recognize approximately \$450 million of exit and disposal costs and other costs related to the Simplification program by the end of fiscal year 2023. The remaining charges are costs associated with the restructuring program, such as salaries for employees supporting the program and consulting expenses. These charges are recognized within *restructuring charges, net, cost of sales*, and *distribution and administrative expense* in the consolidated profit and loss account.

For fiscal years 2022 and 2021, the Group recognized net charges of \$82 million and \$268 million, respectively, of which \$45 million and \$27 million were recognized within *distribution and administrative expense* in the consolidated profit and loss account. The net charges for fiscal year 2021 included \$97 million of incremental defined benefit pension and post-retirement related expenses for employees that accepted voluntary early retirement packages and are not included in the table below, as they are associated with costs that are accounted for under the pension and post-retirement rules. See Note 19 for further discussion on these charges.

Medtronic plc

Notes to the Consolidated Financial Statements

The following table summarizes the activity related to the restructuring programs noted above for fiscal years 2022 and 2021:

(in millions)	Employe Termination Benefits	on	 Associated Costs ⁽¹⁾	ther Costs	 Total
April 24, 2020	\$	89	\$ 19	\$ 4	\$ 112
Charges		213	322	4	539
Cash payments	(162)	(319)	(5)	(486)
Provision adjustments ⁽²⁾		(17)	 	(2)	(19)
April 30, 2021		123	22	1	146
Charges		80	274		354
Cash payments	(109)	(269)	_	(378)
Provision adjustments ⁽²⁾		(13)	 		(13)
April 29, 2022	\$	81	\$ 27	\$ 1	\$ 110

- Associated costs include costs incurred as a direct result of the restructuring program, such as salaries for employees supporting the program and consulting expenses.
- (2) Provision adjustments relate to certain employees identified for termination finding other positions within the Group or contract terminations being settled for less than originally estimated.

Mechanical Circulatory Support (MCS)

On June 3, 2021, the Group announced the decision to stop the distribution and sale of the Medtronic HVAD System in light of a growing body of observational clinical comparisons indicating a lower frequency of neurological adverse events and mortality with another circulatory support device available to patients compared to the HVAD system. In connection with this decision, the Group recorded charges of \$726 million (MCS charges) within the Cardiovascular segment during the first quarter of fiscal year 2022, including \$58 million recognized in *costs of sales* and \$668 million recognized within *other operating expense, net* in the consolidated profit and loss account. The charges included \$515 million of non-cash impairments and write-downs primarily related to \$409 million of intangible asset impairments and \$58 million of inventory write-downs. The Group also recorded charges of \$211 million for commitments and obligations associated with the decision, which included charges for patient support obligations, restructuring, and other associated costs. During the fourth quarter of fiscal year 2022, the Group recorded additional charges of \$155 million within *other operating expense, net* primarily related to incremental commitments and obligations associated with the exit of the business. As of April 29, 2022, accruals were recorded in the consolidated balance sheet for these obligations, with \$233 million reflected in *provisions for liabilities*. The Group remains committed to serving the needs of the approximately 3,500 patients currently implanted with the HVAD system.

4. Commitments and Contingencies

Legal Matters

The Group and its affiliates are involved in a number of legal actions from time to time involving product liability, employment, intellectual property and commercial disputes, shareholder related matters, environmental proceedings, tax disputes, and governmental proceedings and investigations, including those described below. With respect to governmental proceedings and investigations, like other companies in our industry, the Group is subject to extensive regulation by national, state, and local governmental agencies in the United States and in other jurisdictions in which the Group and its affiliates operate. As a result, interaction with governmental agencies is ongoing. The Group's standard practice is to cooperate with regulators and investigators in responding to inquiries. The outcomes of legal actions are not within the Group's complete control and may not be known for prolonged periods of time. In some actions, the enforcement agencies or private claimants seek damages, as well as other civil or criminal remedies (including injunctions barring the sale of products that are the subject of the proceeding), that could require significant expenditures, result in lost turnover, or limit the Group's ability to conduct business in the applicable jurisdictions.

The Group records a provision in the consolidated financial statements on an undiscounted basis for loss contingencies related to legal actions when a loss is known or considered probable and the amount may be reasonably estimated. If the reasonable estimate of a known or probable loss is a range, and no amount within the range is a better estimate than any other, the minimum amount of the range is accrued. If a loss is reasonably possible but not known or probable, and may be reasonably estimated, the estimated loss or range of loss is disclosed. When determining the estimated loss or range of loss, significant judgment is required. Estimates of probable losses resulting from litigation and governmental proceedings involving the Group

Medtronic plc

Notes to the Consolidated Financial Statements

are inherently difficult to predict, particularly when the matters are in early procedural stages with incomplete scientific facts or legal discovery, involve unsubstantiated or indeterminate claims for damages, potentially involve penalties, fines or punitive damages, or could result in a change in business practice. The Group classifies certain specified litigation charges and gains related to significant legal matters as *certain litigation charges* in the consolidated profit and loss account. During fiscal years 2022 and 2021, the Group recognized \$95 million and \$206 million, respectively, of additional certain litigation charges. At April 29, 2022 and April 30, 2021, total accrued litigation charges were approximately \$0.3 billion and \$0.4 billion, respectively. The ultimate cost to the Group with respect to accrued litigation could be materially different than the amount of the current estimates and provisions and could have a material adverse impact on the Group's consolidated profit, financial position, and/or cash flows. The Group includes accrued litigation in *provisions for liabilities* on the consolidated balance sheet. While it is not possible to predict the outcome for most of the legal matters discussed below, the Group believes it is possible that the costs associated with these matters could have a material adverse impact on the Group's consolidated profit, financial position, and/or cash flows.

Product Liability Matters

Pelvic Mesh Litigation

The Group is currently involved in litigation in various state and federal courts against manufacturers of pelvic mesh products alleging personal injuries resulting from the implantation of those products. Two subsidiaries of Covidien supplied pelvic mesh products to one of the manufacturers, C.R. Bard (Bard), named in the litigation. The litigation includes a federal multi-district litigation in the U.S. District Court for the Northern District of West Virginia and cases in various state courts and jurisdictions outside the U.S. Generally, complaints allege design and manufacturing claims, failure to warn, breach of warranty, fraud, violations of state consumer protection laws and loss of consortium claims. In fiscal year 2016, Bard paid the Group \$121 million towards the settlement of 11,000 of these claims. In May 2017, the agreement with Bard was amended to extend the terms to apply to up to an additional 5,000 claims. That agreement does not resolve the dispute between the Group and Bard with respect to claims that do not settle, if any. As part of the agreement, the Group and Bard agreed to dismiss without prejudice their pending litigation with respect to Bard's obligation to defend and indemnify the Group. The Group estimates law firms representing approximately 16,200 claimants have asserted or may assert claims involving products manufactured by Covidien's subsidiaries. As of August 3, 2022, the Group had reached agreements to settle approximately 15,900 of these claims. The Group's provisions for this matter are included within accrued litigation as discussed above.

Hernia Mesh Litigation

Starting in fiscal year 2020, plaintiffs began filing lawsuits against certain subsidiaries of the Group in U.S. state and federal courts alleging personal injury from hernia mesh products sold by those subsidiaries. The majority of the pending cases are in Massachusetts state court, where they have been consolidated before a single judge. As of June 6, 2022, subsidiaries of the Group have been named as defendants in lawsuits filed on behalf of approximately 5,900 individual plaintiffs, and certain plaintiffs' law firms have advised the Group that they may file additional cases in the future. On June 6, 2022, the Judicial Panel on Multidistrict Litigation transferred 83 actions involving the Group's hernia mesh to a federal Multidistrict Litigation in the U.S. District Court for the District of Massachusetts for pretrial proceedings. The pending lawsuits relate almost entirely to hernia mesh products that have not been subject to recalls, withdrawals, or other adverse regulatory action. The Group has not recorded an expense related to damages in connection with these matters because any potential loss is not currently probable and reasonably estimable. Additionally, the Group is unable to reasonably estimate the range of loss, if any, that may result from these matters.

Environmental Proceedings

The Group is involved in various stages of investigation and cleanup related to environmental remediation matters at a number of sites. These projects relate to a variety of activities, including removal of solvents, metals and other hazardous substances from soil and groundwater. The ultimate cost of site cleanup and timing of future cash flows is difficult to predict given uncertainties regarding the extent of the required cleanup, the interpretation of applicable laws and regulations, and alternative cleanup methods.

The Group is a successor to a company which owned and operated a chemical manufacturing facility in Orrington, Maine from 1967 until 1982, and is responsible for the costs of completing an environmental site investigation as required by the Maine Department of Environmental Protection (MDEP). MDEP served a compliance order on Mallinckrodt LLC and U.S. Surgical Corporation, subsidiaries of Covidien, in December 2008, which included a directive to remove a significant volume of soils at the site. After a hearing on the compliance order before the Maine Board of Environmental Protection (Maine Board) to challenge the terms of the compliance order, the Maine Board modified the MDEP order and issued a final order requiring removal of two landfills, capping of the remaining three landfills, installation of a groundwater extraction system and long-term monitoring of the site and the three remaining landfills. The Group has proceeded with remediation in accordance with the MDEP order as modified by the Maine Board order.

Since the early 2000s, the Group or its predecessors have also been involved in a lawsuit filed in the U.S. District Court for the District of Maine by the Natural Resources Defense Council and the Maine People's Alliance. Plaintiffs sought an injunction requiring the Group's predecessor to conduct extensive studies of mercury contamination of the Penobscot River and Bay and options for remediating such contamination, and to perform appropriate remedial activities, if necessary.

Following a trial in March 2002, the court held that conditions in the Penobscot River and Bay may pose an imminent and substantial endangerment and that the Group's predecessor was liable for the cost of performing a study of the River and Bay. Following a second trial in June 2014, the court ordered that further engineering study and engineering design work was needed to determine the nature and extent of remediation in the Penobscot River and Bay. The court also appointed an engineering firm to conduct such studies and issue a report on potential remediation alternatives. In connection with these proceedings, reports have been produced including a variety of cost estimates for a variety of potential remedial options. In March 2021, the parties notified the court that they had agreed on a settlement in principle of all issues in this matter. Finalization of the proposed settlement remains subject to court approval.

The Group's provisions for environmental proceedings are included within accrued litigation as discussed above.

Taxation

In March 2009, the IRS issued its audit report on Medtronic, Inc. for fiscal years 2005 and 2006. Medtronic, Inc. reached agreement with the IRS on some, but not all matters related to these fiscal years. The remaining unresolved issue for fiscal years 2005 and 2006 relates to the allocation of profit between Medtronic, Inc. and its wholly-owned subsidiary operating in Puerto Rico, which is one of the Group's key manufacturing sites. The U.S. Tax Court reviewed this dispute, and in June 2016, issued an opinion with respect to the allocation of profit between the parties for fiscal years 2005 and 2006 whereby it generally rejected the IRS's position, but also made certain modifications to the Medtronic, Inc. tax returns as filed. In April 2017, the IRS filed a Notice of Appeal to the U.S. Court of Appeals for the Eighth Circuit regarding the Tax Court opinion. Oral argument for the Appeal occurred in March 2018. The Court of Appeals issued its opinion in August 2018 and remanded the case back to the Tax Court for additional factual findings, which concluded in June 2021. The Tax Court issued its opinion on August 18, 2022, and it remains subject to appeal by either or both parties. At this time, the Group is evaluating the impact of the opinion and whether the Group will appeal.

The IRS has issued its audit reports on Medtronic, Inc. for fiscal years 2007 through 2016. Medtronic, Inc. and the IRS have reached agreement on all significant issues except for the allocation of profit between Medtronic, Inc. and its wholly-owned subsidiary operating in Puerto Rico for the businesses that are the subject of the U.S. Tax Court matter for fiscal years 2005 and 2006.

Medtronic, Inc.'s fiscal years 2017, 2018, and 2019 U.S. federal income tax returns are currently being audited by the IRS.

Covidien LP (a wholly owned subsidiary of Medtronic plc) has either reached agreement with the IRS or the statute of limitations has lapsed on its U.S. federal income tax returns through fiscal year 2018.

Although it is not possible to predict the outcome for most of the taxation matters discussed above, the Group believes it is possible that charges associated with these matters could have a material adverse impact on the Group's consolidated profit, financial position, and/or cash flows.

See Note 6 for additional discussion of taxation.

Medtronic plc Notes to the Consolidated Financial Statements

Guarantees

For the purpose of Section 357 of the Companies Act, 2014, the Company has undertaken to indemnify the creditors of the following subsidiaries incorporated in the Republic of Ireland, in respect of commitments entered into by those subsidiaries, including amounts shown as liabilities in their statutory financial statements as referred to in Section 357 of the Companies Act 2014 for the financial year ending on April 29, 2022 or any amended financial period incorporating the said financial year.

- Makani II Unlimited Company
- Covidien Unlimited Company
- Covidien Services Europe Limited
- Medtronic Vascular Galway Unlimited Company
- Nellcor Puritan Bennett Ireland Holdings Unlimited Company
- Nellcor Puritan Bennett Ireland Unlimited Company
- Mallinckrodt Medical Unlimited Company
- Medtronic Ireland Limited
- Medtronic Ireland Manufacturing Unlimited Company

In the normal course of business, the Group and/or its affiliates periodically enter into agreements that require one or more of the Group and/or its affiliates to indemnify customers or suppliers for specific risks, such as claims for injury or property damage arising as a result of the Group or its affiliates' products, the negligence of the Group's personnel, or claims alleging that the Group's products infringe on third-party patents or other intellectual property. The Group also offers warranties on various products. The Group's maximum exposure under these guarantees is unable to be estimated. Historically, the Group has not experienced significant losses on these types of guarantees.

The Group believes the ultimate resolution of the above guarantees is not expected to have a material effect on the Group's consolidated profit, financial position, and/or cash flows.

Other Commitments

The Group has various commitments and contractual obligations that are not reflected in the Group's consolidated balance sheet at April 29, 2022, primarily related to funding of minority investments, royalty and milestone payments, interest on debt obligations, and other commitments and contractual obligations.

At April 29, 2022, aggregate obligations for commitments related to the funding of minority investments, estimated milestone payments, and royalty obligations was \$233 million, of which \$95 million relates to fiscal year 2023. The Group acquires assets still in development, enters into research and development arrangements, and sponsors certain clinical trials that often require milestone and/or royalty payments to a third-party, contingent upon the occurrence of certain future events. In situations where the Group has no ability to influence the achievement of the milestone or otherwise avoid the payment, the milestone or minimum royalty payments have been included in the aggregate obligation. The majority of the arrangements give the Group the discretion to unilaterally make the decision to stop development of a product or cease progress of a clinical trial, which would allow the Group to avoid making the contingent payments. Due to the contingent nature of these payments, they are not included in the disclosed amount of contractual obligations.

The Group has contractual interest payments on outstanding debt obligations totaling \$6.9 billion at April 29, 2022, of which \$466 million relates to fiscal year 2023. See Note 17 for additional discussion of debt obligations.

The Group has other commitments and contractual obligations that include inventory purchase commitments, research and development arrangements, and other arrangements that are legally binding and specify minimum purchase quantities or spending amounts. These commitments do not include open purchase orders with a remaining term of less than one year and do not exceed the Group's projected requirements. At April 29, 2022, aggregate obligations for these commitments was \$995 million, of which \$445 million relates to fiscal year 2023.

Medtronic plc

Notes to the Consolidated Financial Statements

5. Interest Payable and Similar Expenses

Interest payable and similar expenses is comprised of the following:

	Fiscal Year			
(in millions)		2022		2021
Interest charges related to financing arrangements	\$	553	\$	617
Loss on debt extinguishment and redemption		_		308
Interest payable and similar expenses	\$	553	\$	925

⁽¹⁾ Certain prior year amounts have been reclassified to conform to current year presentation.

Medtronic plc

Notes to the Consolidated Financial Statements

Deferred taxation activity for fiscal year 2022 was as follows:

(in millions)	_	Deferred Taxation
April 30, 2021	\$	2,897
Provisions		611
Acquisitions		4
Charges to equity		(229)
Currency translation and other	<u>. </u>	2
April 29, 2022	<u>\$</u>	3,284

No deferred taxation has been provided on the approximately \$79.3 billion and \$74.2 billion of undistributed profits of the Group's subsidiaries at April 29, 2022 and April 30, 2021, respectively, since these profits have been, and under current plans will continue to be, permanently reinvested in these subsidiaries. Due to the number of legal entities and jurisdictions involved, the complexity of the legal entity structure of the Group, and the complexity of the tax laws in the relevant jurisdictions, the Group believes it is not practicable to estimate, within any reasonable range, the amount of additional taxation which may be payable upon distribution of these undistributed profits.

At April 29, 2022, the Group had approximately \$25.4 billion of net operating loss carryforwards in certain non-U.S. jurisdictions, of which \$20.0 billion have no expiration, and the remaining \$5.4 billion will expire during fiscal years 2023 through 2042. Included in these net operating loss carryforwards are \$18.6 billion of net operating losses related to a subsidiary of the Group, substantially all of which were recorded in fiscal year 2008 as a result of the receipt of a favorable tax ruling from certain non-U.S. taxing authorities. The Group has recorded a full valuation allowance against these net operating losses, as management does not believe that it is more likely than not that these net operating losses will be utilized. Certain of the remaining non-U.S. net operating loss carryforwards of \$6.8 billion have a valuation allowance recorded against the carryforwards, as management does not believe that it is more likely than not that these net operating losses will be utilized.

At April 29, 2022, the Group had \$222 million of U.S. federal net operating loss carryforwards, of which \$47 million have no expiration. The remaining loss carryforwards will expire during fiscal years 2023 through 2036. For U.S. state purposes, the Group had \$1.4 billion of net operating loss carryforwards at April 29, 2022, \$72 million of which have no expiration. The remaining U.S. state loss carryforwards will expire during fiscal years 2023 through 2042.

At April 29, 2022, the Group also had \$254 million of tax credits available to reduce future income taxes payable, of which \$120 million have no expiration. The remaining credits will expire during fiscal years 2023 through 2042.

The Group has established valuation allowances of \$6.6 billion and \$5.8 billion at April 29, 2022 and April 30, 2021, respectively, primarily related to the uncertainty of the utilization of certain deferred tax assets which are primarily comprised of tax loss and credit carryforwards in various jurisdictions. The increase in the valuation allowance during fiscal year 2022 is primarily related to the step up in tax basis for Swiss Cantonal purposes, the generation of certain net operating losses and the effects of currency fluctuations. These valuation allowances would result in a taxation reduction in the consolidated profit and loss account if they are ultimately not required.

Medtronic plc

Notes to the Consolidated Financial Statements

The Group's effective income tax rate varied from the U.S. federal statutory tax rate as follows:

	Fiscal Y	ear
	2022	2021
U.S. Federal statutory tax rate	21.0 %	21.0 %
Increase (decrease) in tax rate resulting from:		
U.S. state taxes, net of federal tax benefit	0.2	(1.2)
Research and development credit	(1.3)	(2.4)
Puerto Rico excise tax	(1.1)	(2.1)
International	(11.2)	(13.4)
Stock based compensation	(0.8)	(0.8)
Interest on uncertain tax positions	0.5	1.0
Base erosion anti-abuse tax	0.9	0.4
Foreign derived intangible income benefit	(1.0)	(2.0)
Certain tax adjustments	(0.9)	(1.1)
Legal entity restructuring	_	1.9
U.S. tax on foreign profit	2.2	3.6
Other, net	(0.2)	1.0
Effective tax rate	8.3 %	5.9 %

During fiscal year 2022, the net benefit from certain tax adjustments of \$50 million, recognized in *taxation* in the consolidated profit and loss account, included the following:

- A benefit of \$82 million associated with a step up in tax basis for Swiss Cantonal purposes.
- A benefit of \$82 million related to a change in tax rates on intangible assets.
- A cost of \$47 million associated with the amortization of the previously established deferred tax assets from intercompany intellectual property transactions.
- A cost of \$41 million associated with a change in the Group's permanent reinvestment assertion on certain historical profit.
- A net cost of \$26 million primarily associated with an intercompany sale of assets.

During fiscal year 2021, the net benefit from certain tax adjustments of \$41 million, recognized in *taxation* in the consolidated profit and loss account, included the following:

- A net benefit of \$106 million associated with the resolution of an audit at the IRS Appellate level for fiscal years 2012, 2013, and 2014. The issues resolved relate to the utilization of certain net operating losses and the allocation of profit between Medtronic, Inc. and its wholly owned subsidiary operating in Puerto Rico for businesses that are not the subject of the U.S. Tax Court Case for fiscal years 2005 and 2006.
- A net cost of \$73 million related to a tax basis adjustment of previously established deferred tax assets from
 intercompany intellectual property transactions. The cumulative amount of deferred tax benefit previously recognized
 from intercompany intellectual property transactions and recorded as Certain Tax Adjustments was \$1.5 billion. The
 corresponding deferred tax assets will be amortized over a period of approximately 20 years.
- A cost of \$50 million associated with the amortization of the previously established deferred tax assets from intercompany intellectual property transactions.
- A net cost of \$25 million associated with an internal restructuring and intercompany sale of assets.
- A benefit of \$83 million related to the capitalization of certain research and development costs for U.S. taxation
 purposes and the establishment of a deferred tax asset at the U.S. federal statutory tax rate.

Currently, the Group's operations in Puerto Rico, Singapore, Dominican Republic, Costa Rica, and China have various tax holidays and tax incentive grants. The tax reductions as compared to the local statutory rate favorably impacted profit by \$248 million and \$301 million in fiscal years 2022 and 2021, respectively, and diluted earnings per share by \$0.18 and \$0.22 in fiscal

Medtronic plc

Notes to the Consolidated Financial Statements

years 2022 and 2021, respectively. The tax holidays are conditional upon the Group meeting certain thresholds required under statutory law. The tax incentive grants, unless extended, will expire between fiscal years 2023 and 2034. The Group's historical practice has been to renew, extend, or obtain new tax incentive grants upon expiration of existing tax incentive grants. If the Group is not able to renew, extend, or obtain new tax incentive grants, the expiration of existing tax incentive grants could have a material impact on the Group's financial results in future periods. The tax incentive grants which expired during fiscal year 2022 did not have a material impact on the Group's consolidated financial statements.

The Group had \$1.7 billion of gross unrecognized tax benefits at April 29, 2022 and April 30, 2021, respectively. A reconciliation of the beginning and ending amount of unrecognized tax benefits for fiscal years 2022 and 2021 is as follows:

	 Fiscal	l Year		
(in millions)	2022		2021	
Gross unrecognized tax benefits at beginning of fiscal year	\$ 1,668	\$	1,862	
Gross increases:				
Prior year tax positions	1		88	
Current year tax positions	40		62	
Gross decreases:				
Prior year tax positions	(29)		(106)	
Settlements	(8)		(216)	
Statute of limitation lapses	 (11)		(21)	
Gross unrecognized tax benefits at end of fiscal year	1,661		1,668	
Cash advance paid to taxing authorities	 (859)		(859)	
Gross unrecognized tax benefits at end of fiscal year, net of cash advance	\$ 802	\$	809	

If all of the Group's unrecognized tax benefits at April 29, 2022 and April 30, 2021 were recognized, \$1.6 billion would impact the Group's effective tax rate, respectively. Although the Group believes that it has adequately provided for liabilities resulting from tax assessments by taxing authorities, positions taken by these tax authorities could have a material impact on the Group's effective tax rate in future periods. The Group has recorded gross unrecognized tax benefits, net of cash advance, of \$787 million as a noncurrent liability. The Group estimates that within the next 12 months it is reasonably possible that its uncertain tax positions excluding interest, could decrease by as much as \$15 million, net as a result of statute of limitation lapses.

The Group recognizes interest and penalties related to income tax matters in *taxation* in the consolidated profit and loss account and records the liability in *creditors* (amounts falling due within one year) and creditors (amounts falling due after more than one year) in the consolidated balance sheet, as appropriate. The Group had \$117 million and \$99 million of accrued gross interest and penalties at April 29, 2022 and April 30, 2021, respectively. During fiscal years 2022 and 2021, the Group recognized gross interest payable and similar expenses of \$17 million and interest receivable and similar income of \$44 million, respectively, in *taxation* in the consolidated profit and loss account.

The Group reserves for uncertain tax positions related to unresolved matters with the IRS and other taxing authorities. These reserves are subject to a high degree of estimation and management judgment. Resolution of these significant unresolved matters, or positions taken by the IRS or other tax authorities during future tax audits, could have a material impact on the Group's financial results in future periods. The Group continues to believe that its reserves for uncertain tax positions are appropriate and that it has meritorious defenses for its tax filings and will vigorously defend them during the audit process, appellate process, and through litigation in courts, as necessary.

Subsequent to April 29, 2022, on August 18, 2022 the U.S. Tax Court (Tax Court) issued its opinion on the previously disclosed litigation regarding the allocation of profit between Medtronic, Inc. and its wholly-owned subsidiary operating in Puerto Rico for fiscal years 2005 and 2006 (Opinion). While the Opinion rejected the IRS's position and the Tax Court determined the methodology advanced by Medtronic was appropriate for purposes of determining the intercompany royalty rate between Puerto Rico and the U.S., it determined that the royalty rate should be higher, thereby increasing profit allocated to the U.S. and consequently subject to U.S. taxation. This case relates only to fiscal years 2005 and 2006. The Opinion remains subject to finalization by the Tax Court and to appeal by either or both parties. At this time, the Group is evaluating the impact of the Opinion and whether the Group will appeal. If the Opinion is finalized as is, without appeal by either party, the Group anticipates the findings will likely be applied for all years following fiscal year 2006. Under this potential scenario, the Group has currently estimated a potential taxation charge, including interest, of up to \$2.0 billion. Since the Opinion was issued

Medtronic plc

Notes to the Consolidated Financial Statements

subsequent to the year end, any potential impact of a change in estimate related to this uncertain tax position is considered a non-recognized subsequent event under U.S. GAAP.

The major tax jurisdictions where the Group conducts business which remain subject to examination are as follows:

Jurisdiction	Earliest Year Open
United States - federal and state	2005
Australia	2018
Brazil	2017
Canada	2013
China	2015
Costa Rica	2018
Dominican Republic	2019
France	2019
Germany	2014
India	2002
Ireland	2012
Israel	2010
Italy	2005
Japan	2018
Korea	2017
Luxembourg	2017
Mexico	2017
Puerto Rico	2011
Singapore	2016
Switzerland	2010
United Kingdom	2017

See Note 4 for additional information regarding the status of current tax audits and proceedings.

7. Earnings Per Share

Basic earnings per share is computed based on the weighted average number of ordinary shares outstanding. Diluted earnings per share is computed based on the weighted number of ordinary shares outstanding, increased by the number of additional shares that would have been outstanding had the potentially dilutive ordinary shares been issued, and reduced by the number of shares the Group could have redeemed with the proceeds from issuance of the potentially dilutive shares. Potentially dilutive ordinary shares include stock-based awards granted under stock-based compensation plans and shares committed to be purchased under the employee stock purchase plan.

Medtronic plc

Notes to the Consolidated Financial Statements

The table below sets forth the computation of basic and diluted earnings per share:

	Fiscal Year						
(in millions, except per share data)		2022		2021			
Numerator:							
Profit for the financial year attributable to ordinary shareholders	\$	5,039	\$	3,436			
Denominator:							
Basic – weighted average shares outstanding		1,342.4		1,344.9			
Effect of dilutive securities:							
Employee stock options		6.6		6.6			
Employee restricted stock units		1.6		2.1			
Other		0.8		0.5			
Diluted – weighted average shares outstanding		1,351.4		1,354.0			
Basic earnings per ordinary share	\$	3.75	\$	2.55			
Diluted earnings per ordinary share	\$	3.73	\$	2.54			

The calculation of weighted average diluted shares outstanding excludes options to purchase approximately 5 million and 4 million ordinary shares in fiscal years 2022 and 2021, respectively, because their effect would have been anti-dilutive on the Group's earnings per share.

8. Intangible Assets

Indefinite-lived intangible asset activity for fiscal year 2022 was as follows:

(in millions)	Goodwill	Acquired IPR&D		 Total
April 30, 2021	\$ 41,961	\$ 394		\$ 42,355
Additions as a result of acquisitions	80	23		103
Transfers	_	(105)	(105)

April 29, 2022	\$ 40,502	\$ 293		\$ 40,795

Indefinite-lived intangible asset impairment charges were not significant for fiscal year 2022. During fiscal year 2021, the Group recognized \$45 million of indefinite-lived intangible asset impairment charges related to the abandonment of certain IPR&D projects in the Neuroscience segment. Indefinite-lived intangible asset impairment charges are recognized in *other operating expense*, *net* in the consolidated profit and loss account. Due to the nature of IPR&D projects, the Group may experience future delays or failures to obtain regulatory approvals to conduct clinical trials, failures of such clinical trials, delays or failures to obtain required market clearances, other failures to achieve a commercially viable product, or the discontinuation of certain projects, and as a result, may recognize impairment losses in the future.

Medtronic plc

Notes to the Consolidated Financial Statements

The following table presents the changes in the carrying amount of goodwill by segment:

(in millions)	Car	diovascular	Medical Surgical	N	euroscience	Diabetes	Total

April 29, 2022	9,948		5,135		207		11		15,302	

During fiscal year 2022, the Group recognized \$409 million of definite-lived intangible asset impairment charges in connection with MCS within the Cardiovascular Portfolio. The intangible asset impairment charge primarily related to purchased technology and patents. Refer to Note 3 for additional information on what led to the impairment. During fiscal year 2021, the Group recognized \$30 million of definite-lived intangible asset charges in connection with the abandonment of certain intangible assets within the Neuroscience segment. Definite-lived intangible asset charges are recognized in *other operating expense, net* in the consolidated profit and loss account.

Medtronic plc

Notes to the Consolidated Financial Statements

Definite-Lived Intangible Asset Amortization

Intangible asset amortization expense was \$1.7 billion and \$1.8 billion for fiscal year 2022 and 2021, respectively. Estimated aggregate amortization expense by fiscal year based on the current carrying value and remaining estimated useful lives of definite-lived intangible assets at April 29, 2022, excluding any possible future amortization associated with acquired IPR&D which has not met technological feasibility, is as follows:

(in millions)	AmortizationExpense
2023	\$ 1,659
2024	1,624
2025	1,602
2026	1,588
2027	1,564

9. Acquisitions

The Group had acquisitions during fiscal years 2022 and 2021 that were accounted for as business combinations. The assets and liabilities of businesses acquired were recorded and consolidated on the acquisition date at their respective fair values. Goodwill resulting from business combinations is largely attributable to future yet to be defined technologies, new customer relationships, existing workforce of the acquired businesses, and synergies expected to arise after the Group's acquisition of these businesses. The pro forma impact of acquisitions during fiscal years 2022 and 2021 was not significant, either individually or in the aggregate, to the consolidated results of the Group. The results of operations of acquired businesses have been included in the Group's consolidated profit and loss account since the date each business was acquired. Purchase price allocation adjustments for fiscal years 2022 and 2021 business combinations were not significant.

Fiscal Year 2022

The acquisition date fair value of net assets acquired during fiscal year 2022 was \$125 million, consisting of \$154 million of assets acquired and \$29 million of liabilities assumed. Based upon preliminary valuations, assets acquired were primarily comprised of \$50 million of technology-based intangible assets with estimated useful lives ranging from 15 to 16 years, and \$80 million of goodwill. The goodwill is not deductible for tax purposes. The Group recognized \$31 million of contingent consideration liabilities in connection with business combinations during fiscal year 2022, which are comprised of turnover and regulatory milestone-based payments.

Fiscal Year 2021

The acquisition date fair value of net assets acquired during fiscal year 2021 was \$1.2 billion, consisting of \$1.4 billion of assets acquired and \$161 million of liabilities assumed. Based upon preliminary valuations, assets acquired were primarily comprised of \$417 million of technology-based intangible assets and \$13 million of customer-related intangible assets with estimated useful lives ranging from 8 to 15 years, and \$816 million of goodwill. The goodwill is not deductible for tax purposes. The Group recognized \$253 million of contingent consideration liabilities in connection with business combinations during fiscal year 2021, which are comprised of turnover and regulatory milestone-based payments.

Subsequent Acquisitions

Subsequent to fiscal year 2022, on May 13, 2022, the Group acquired Intersect ENT, a global ear, nose, and throat (ENT) medical technology leader. The acquisition expands the Neuroscience segment portfolio of products used during ENT procedures and, combined with the Group's navigation, powered instruments, and existing tissue health products, will offer a broader suite of solutions to assist surgeons treating patients who suffer from chronic rhinosinusitis (CRS). The transaction was accounted for as a business combination using the acquisition method of accounting. This requires, among other things, that assets acquired and liabilities assumed be recognized at their fair values as of the acquisition date. Total consideration, net of cash acquired, for the transaction, in which the Group acquired all outstanding shares of Intersect ENT for \$28.25 per share, was \$1.2 billion consisting of \$1.1 billion of cash and \$98 million previously held investments in Intersect ENT. Based upon a preliminary acquisition valuation, the Group acquired \$615 million of goodwill, \$635 million of technology-based intangible assets, \$35 million of customer-related intangible assets, and \$13 million of tradenames with estimated useful lives of 20 years. The goodwill is primarily attributable to synergies expected to be realized from existing operations and cash flows attributable to future technologies. The goodwill is not deductible for tax purposes.

The acquisition date fair values of the assets acquired and liabilities assumed were as follows:

(in millions)	Inter	Intersect ENT	
Cash and cash equivalents	\$	39	
Inventory		32	
Goodwill		615	
Other intangible assets		683	
Other assets		40	
Total assets acquired		1,408	
Current liabilities		63	
Deferred tax liabilities		51	
Other liabilities		18	
Total liabilities assumed		131	
Net assets acquired	\$	1,277	

Additionally, on August 30, 2022, subsequent to fiscal year 2022, the Group acquired Affera, Inc. (Affera) a privately-held manufacturer of cardiac mapping and navigation systems and catheter-based cardiac ablation technologies. The acquisition expands the Cardiovascular segment portfolio of advanced cardiac ablation products and accessories to include its first-ever cardiac mapping and navigation platform to meet physician needs within a growing patient population. Total consideration for the transaction is up to \$1 billion, including up to \$250 million of undiscounted contingent consideration related to certain technical and regulatory milestones. The transaction will be accounted for as a business combination using the acquisition method of accounting. This requires, among other things, that assets acquired and liabilities assumed be recognized at their fair values as of the acquisition date.

Due to the limited amount of time since the acquisition date and the significant limitations on access to Affera information prior to the acquisition date, the preliminary acquisition valuation for the business combination is incomplete at this time. As a result, the Group is unable to provide the amounts recognized as of the acquisition date for the major classes of assets acquired and liabilities assumed, including the information required for valuation of intangible assets.

Acquired In-Process Research & Development (IPR&D)

IPR&D with no alternative future use acquired outside of a business combination is expensed immediately. During fiscal year 2022, the Group acquired \$101 million of IPR&D in connection with asset acquisitions of technology not approved by regulators, which was recognized in *research and development expense* in the consolidated profit and loss account. During fiscal year 2021, IPR&D acquired in connection with asset acquisitions was not significant.

Medtronic plc

Notes to the Consolidated Financial Statements

Contingent Consideration

The fair value of contingent consideration at April 29, 2022 and April 30, 2021 was \$119 million and \$270 million, respectively. At April 29, 2022, \$35 million was recorded in *creditors (amounts falling due within one year)*, and \$84 million was recorded in *creditors (amounts falling due after more than one year)* on the consolidated balance sheet. At April 30, 2021, \$78 million was reflected in *creditors (amounts falling due within one year)*, and \$192 million was reflected in *creditors (amounts falling due after more than one year)* on the consolidated balance sheet.

The following table provides a reconciliation of the beginning and ending balances of contingent consideration:

	Fiscal Year		
(in millions)	2022		2021
Beginning Balance	\$ 270	\$	280
Purchase price contingent consideration	31		253
Purchase price allocation adjustments	7		_
Payments	(86)		(299)
Change in fair value	 (103)		36
Ending Balance	\$ 119	\$	270

The recurring Level 3 fair value measurements of contingent consideration for which a provision is recorded include the following significant unobservable inputs:

(in millions)	Fair Value at April 29, 2022		Unobservable Input	Range	Weighted Average ⁽¹⁾	
			Discount rate	11.2% - 27.2%	14.6%	
Turnover and other performance-based payments	\$	104	Probability of payment	100% - 100%	100.0%	
			Projected fiscal year of payment	2023 - 2027	2025	
			Discount rate	5.5%	5.5%	
Product development and other milestone-based payments	\$	15	Probability of payment	100%	100%	
			Projected fiscal year of payment	2023 - 2024	2024	

⁽¹⁾ Unobservable inputs were weighted by the relative fair value of the contingent consideration liability. For projected fiscal year of payment, the amount represents the median of the inputs and is not a weighted average.

10. Tangible Assets

Tangible assets activity for fiscal year 2022 was as follows:

(in millions)	l and Land rovements	uildings and Leasehold aprovements	_1	Equipment	Computer Software		Construction in Progress		To	tal Tangible Assets
Cost:										
April 30, 2021	\$ 178	\$ 2,370	\$	6,308	\$	2,346	\$	1,498	\$	12,700
Additions		1		309		8		1,042		1,360
Disposals	(5)	(67)		(458)		(17)		(38)		(585)
Acquisitions	_	_		(1)		_		_		(1)
Transfers	1	75		387		280		(744)		
Currency translation and other	(4)	(28)		(56)		_		(21)		(109)
April 29, 2022	\$ 170	\$ 2,351	\$	6,489	\$	2,617	\$	1,737	\$	13,365
Accumulated depreciation:										
April 30, 2021	\$ (31)	\$ (1,236)	\$	(4,634)	\$	(1,578)	\$	_	\$	(7,479)
Depreciation expense	(1)	(109)		(633)		(231)		_		(974)
Disposals	2	49		362		10		_		422
Currency translation and other	_	11		60		8		_		79
April 29, 2022	\$ (30)	\$ (1,285)	\$	(4,845)	\$	(1,791)	\$	_	\$	(7,952)
Net book value:										
April 30, 2021	\$ 147	\$ 1,134	\$	1,674	\$	768	\$	1,498	\$	5,221
April 29, 2022	140	1,066		1,644		826		1,737		5,413

Capital expenditures are expected to be approximately \$1.7 billion in fiscal year 2023.

11. Leases

The Group leases office, manufacturing, and research facilities and warehouses, as well as transportation, data processing, and other equipment. The Group determines whether a contract is a lease or contains a lease at inception date. Upon commencement, the Group recognizes a right-of-use asset and lease liability. Right-of-use assets represent the Group's right to use the underlying asset for the lease term. Lease liabilities are the Group's obligation to make the lease payments arising from a lease. As the Group's leases typically do not provide an implicit rate, the Group's lease liabilities are measured on a discounted basis using the Group's incremental borrowing rate. Lease terms used in the recognition of right-of-use assets and lease liabilities include only options to extend the lease that are reasonably certain to be exercised. Additionally, lease terms underlying the right-of-use assets and lease liabilities consider terminations that are reasonably certain to be executed.

The Group's lease agreements include leases that have both lease and associated nonlease components. The Group has elected to account for lease components and the associated nonlease components as a single lease component. The consolidated balance sheet does not include recognized assets or liabilities for leases that, at the commencement date, have a term of twelve months or less and do not include an option to purchase the underlying asset that is reasonably certain to be exercised. The Group recognizes such leases in the consolidated profit and loss account on a straight-line basis over the lease term. Additionally, the Group recognizes variable lease payments not included in its lease liabilities in the period in which the obligation for those payments is incurred. Variable lease payments for fiscal year 2022 and 2021 were not material.

The Group's lease agreements include leases accounted for as operating leases and those accounted for as finance leases. The right-of-use assets, lease liabilities, lease costs, cash flows, and lease maturities associated with the Group's finance leases were not material to the consolidated financial statements at April 29, 2022 or April 30, 2021 or for fiscal year 2022 or 2021. Finance lease right-of-use assets are included in *tangible assets*, and finance lease liabilities are included in *creditors (amounts falling due within one year)* and *creditors (amounts falling due after more than one year)* on the consolidated balance sheet.

Medtronic plc

Notes to the Consolidated Financial Statements

The following table summarizes the balance sheet classification of the Group's operating leases and amounts of the right-of-use assets and lease liabilities at April 29, 2022 and April 30, 2021:

(in millions)	Balance Sheet Classification	Apri	1 29, 2022	Ap	oril 30, 2021
Right-of-use assets	Right of use assets	\$	854	\$	998
Current liability	Creditors (amounts falling due within one year)		167		186
Non-current liability	Creditors (amounts falling due after more than one year)		703		829

The following table summarizes the weighted-average remaining lease term and weighted-average discount rate for the Group's operating leases at April 29, 2022 and April 30, 2021:

	April 29, 2022	April 30, 2021
Weighted-average remaining lease term	7.3 Years	7.5 years
Weighted-average discount rate	2.0%	2.3%

The following table summarizes the components of total operating lease cost for fiscal year 2022 and 2021:

	Fiscal Year									
(in millions)	2022	2021								
Operating lease cost	\$ 195	\$ 216								
Short-term lease cost	65	35								
Total operating lease cost	\$ 260	\$ 251								

Right of use asset activity for fiscal year 2022 was as follows:

	Fisca	al Year
(in millions)	2	022
April 30, 2021	\$	998
Additions		78
Amortization		(191)
Currency translation and other		(31)
April 29, 2022	\$	854

The following table summarizes the cash paid for amounts included in the measurement of operating lease liabilities and right-of-use assets obtained in exchange for operating lease liabilities for fiscal year 2022 and 2021:

	Fiscal Year 2022 2021 \$ 174 \$			
(in millions)		2022		2021
Cash paid for amounts included in the measurement of operating lease liabilities	\$	174	\$	216
Right-of-use assets obtained in exchange for operating lease liabilities		78		230

Notes to the Consolidated Financial Statements

The following table summarizes the maturities of the Group's operating leases at April 29, 2022:

(in millions) Fiscal Year	Oper	rating Leases
2023	\$	213
2024		164
2025		130
2026		103
2027		82
Thereafter		284
Total expected lease payments		976
Less: Imputed interest		(105)
Total lease liability	\$	871

The Group makes certain products available to customers under lease arrangements, including arrangements whereby equipment is placed with customers who then purchase consumable products to accompany the use of the equipment. Profit arising from arrangements where the Group is the lessor is recognized within *turnover* in the consolidated profit and loss account and the Group's net investments in sales-type leases are included in *debtors* in the consolidated balance sheet. Lessor profit and the related assets and lease maturities were not material to the consolidated financial statements at or for the fiscal year ended April 29, 2022 and April 30, 2021.

12. Financial Assets/Fair Value Measurement

Debt Securities

The Group holds investments in marketable debt securities that are classified and accounted for as available-for-sale and are remeasured on a recurring basis. The following tables summarize the Group's investments in available-for-sale debt securities by significant investment category and the related consolidated balance sheet classification at April 29, 2022 and April 30, 2021:

	April 29, 2022											
				Valu	atio	on			Balance Sheet Classification			
(in millions)		Cost		Unrealized Gains		Unrealized Losses		Fair Value		Short-term Investments		inancial Assets
Level 1:

Total available-for-sale debt securities	\$	7,131	\$	5	\$	(245)	\$	6,893	\$	6,859	\$	33

	April 30, 2021											
				Valu		Balance Sheet Classification						
(in millions)	Cost		Unrealized Gains		Unrealized Losses		Fair Value		Short-term Investments			inancial Assets
Level 1:												
U.S. government and agency securities	\$	505	\$	26	\$	(3)	\$	528	\$	528	\$	
Level 2:												
Corporate debt securities		4,557		103		(13)		4,647		4,647		
U.S. government and agency securities		810		_		(7)		804		804		_
Mortgage-backed securities		645		21		(16)		650		650		
Non-U.S. government and agency securities		31		1		_		33		33		_
Certificates of deposit		19						19		19		
Other asset-backed securities		534		4		(1)		537		537		_
Debt funds		7						7		7		_
Total Level 2		6,603		129		(36)		6,696		6,696		_
Level 3:												
Auction rate securities		36				(3)		33		_		33
Total available-for-sale debt securities	\$	7,144	\$	155	\$	(42)	\$	7,257	\$	7,224	\$	33

The amortized cost of debt securities excludes accrued interest, which is reported in *debtors* in the consolidated balance sheet.

The following tables present the gross unrealized losses and fair values of the Group's available-for-sale debt securities that have been in a continuous unrealized loss position deemed to be temporary, aggregated by investment category at April 29, 2022 and April 30, 2021:

	April 29, 2022								
		Less than	12 mo	nths		More than 12 months			
(in millions)	Fair	r Value	U	nrealized Losses		Fair Value		Unrealized Losses	
U.S. government and agency securities	\$	_	\$	_	\$	945	\$	(56)	
Corporate debt securities		222		(1)		2,993		(139)	
Mortgage-backed securities		_		_		507		(35)	
Other asset-backed securities		_				526		(11)	
Auction rate securities						33		(3)	
Total	\$	222	\$	(1)	\$	5,004	\$	(244)	

	April 30, 2021										
	Less than 12 months More than 12 months										
(in millions)	Unrealized Fair Value Losses					Fair Value	Unrealized Losses				
U.S. government and agency securities	\$	946	\$	(10)	\$	_	\$	_			
Corporate debt securities		_				3,209		(13)			
Mortgage-backed securities		_		_		650		(16)			
Other asset-backed securities		_				531		(1)			
Auction rate securities						33		(3)			
Total	\$	946	\$	(10)	\$	4,423	\$	(32)			

The Group reviews the fair value hierarchy classification on a quarterly basis. Changes in the ability to observe valuation inputs may result in a reclassification of levels for certain securities within the fair value hierarchy. There were no transfers into or out of Level 3 during the fiscal years ended April 29, 2022 and April 30, 2021. When a determination is made to classify an asset or liability within Level 3, the determination is based upon the significance of the unobservable inputs to the overall fair value measurement.

Notes to the Consolidated Financial Statements

Activity related to the Group's available for sale securities portfolio is as follows:

(in millions)	Apr	il 29, 2022	Apr	ril 30, 2021
Proceeds from sales and maturities	\$	9,611	\$	10,420
Gross realized gains		15		15
Gross realized losses		(18)		(14)

During the fiscal year ended April 30, 2021, the Group had proceeds from maturities of investments classified as held to maturity of \$911 million.

The April 29, 2022 balance of available-for-sale debt securities by contractual maturity is shown in the following table. Within the table, maturities of mortgage-backed securities have been allocated based upon timing of estimated cash flows assuming no change in the current interest rate environment. Actual maturities may differ from contractual maturities because the issuers of the securities may have the right to prepay obligations without prepayment penalties.

(in millions)	Apri	1 29, 2022
Due in one year or less	\$	1,501
Due after one year through five years		3,465
Due after five years through ten years		1,271
Due after ten years		656
Total debt securities	\$	6,893

Equity Securities, Equity Method Investments, and Other Investments

The Group holds investments in equity securities with readily determinable fair values, equity investments without readily determinable fair values, investments accounted for under the equity method, and other investments. Equity securities with readily determinable fair values are included in Level 1 of the fair value hierarchy, as they are measured using quoted market prices. Equity method investments and investments without readily determinable fair values are included within Level 3 of the fair value hierarchy due to the use of significant unobservable inputs to determine fair value. To determine the fair value of these investments, the Group uses all pertinent financial information available related to the investees, including financial statements, market participant valuations from recent and proposed equity offerings, and other third-party data.

The following table summarizes the Group's equity and other investments at April 29, 2022 and April 30, 2021, which are classified as *financial assets* in the consolidated balance sheet:

(in millions)	April	29, 2022	April	30, 2021
Investments with readily determinable fair value (marketable equity securities)	\$	64	\$	74
Investments without readily determinable fair values		732		537
Equity method and other investments		85		76
Total equity and other investments	\$	881	\$	687

The table below includes activity related to the Group's portfolio of equity and other investments. Gains and losses on equity and other investments are recognized in *other non-operating income*, *net* in the consolidated profit and loss account.

(in millions)	April 29, 2022	April 30, 2021
Proceeds from sales	\$ 81	\$ 13
Gross gains	99	68
Gross losses	(52)	(3)
Impairment losses recognized	(17)	(4)

During the fiscal year ended April 29, 2022, there were \$8 million of net unrealized gains on equity securities and other investments still held at April 29, 2022. During the fiscal year ended April 30, 2021, there were \$63 million of net unrealized gains on equity securities and other investments still held at April 30, 2021.

Notes to the Consolidated Financial Statements

Financial assets and short-term investments activity for fiscal year 2022 was as follows:

(in millions)	Debt Equity			Total		
April 30, 2021	\$ 7,257	\$	687	\$	7,944	
Purchases	9,638		243		9,882	
Proceeds from sales	(9,611)		(81)		(9,692)	
Realized (losses) gains, net	(3)		47		44	
Impairments	_		(17)		(17)

15. Derivatives and Currency Exchange Risk Management

The Group uses operational and economic hedges, including currency exchange rate derivative contracts and interest rate derivative instruments, to manage the impact of currency exchange and interest rate changes on profit and cash flows. In addition, the Group uses cross currency interest rate swaps to manage currency risk related to certain debt. In order to minimize profit and cash flow volatility resulting from currency exchange rate changes, the Group enters into derivative instruments, principally forward currency exchange rate contracts. These contracts are designed to hedge anticipated foreign currency transactions and changes in the value of specific assets and liabilities. At inception of the contract, the derivative is designated as either a freestanding derivative or a cash flow hedge. Currencies of our derivative instruments include the Euro, Japanese Yen, Chinese Yuan, and others. The Group does not enter into currency exchange rate derivative contracts for speculative purposes. The gross notional amount of all currency exchange rate derivative instruments outstanding was \$13.8 billion and \$14.7 billion at April 29, 2022 and April 30, 2021, respectively.

The Group also uses derivative and non-derivative instruments to manage the impact of currency exchange rate changes on net investments in foreign currency-denominated operations. The information that follows explains the various types of derivatives and financial instruments used by the Group, reasons the Group uses such instruments, and the impact such instruments have on the Group's consolidated balance sheet and consolidated profit and loss account.

Freestanding Derivative Contracts

Freestanding derivative contracts are primarily used to offset the Group's exposure to the change in value of specific foreign-currency-denominated assets and liabilities, and to offset variability of cash flows associated with forecasted transactions denominated in foreign currencies. The gross notional amount of the Group's freestanding currency exchange rate contracts outstanding at April 29, 2022 and April 30, 2021 was \$4.9 billion and \$5.7 billion, respectively. The Group's freestanding currency exchange rate contracts are not designated as hedges, and therefore, changes in the value of these contracts are recognized in profit, thereby offsetting the current profit effect of the related change in value of foreign-currency-denominated assets, liabilities, and cash flows.

The Group also uses total return swaps to hedge the liability of a non-qualified, deferred compensation plan. The gross notional amount of the Group's total return swaps outstanding at April 29, 2022 and April 30, 2021 was \$226 million and \$243 million, respectively. The Group's total return swaps are not designated as hedges, and therefore, changes in the value of these instruments are recognized in profit. The cash flows related to the Group's freestanding derivative contracts are reported as operating or financing activities, depending on the nature of the underlying hedged item, in the consolidated statement of cash flows.

Cash Flow Hedges

Forward contracts designated as cash flow hedges are designed to hedge the variability of cash flows associated with forecasted transactions denominated in a foreign currency that will take place in the future. The gross notional amount of these contracts, designated as cash flow hedges, outstanding at April 29, 2022 and April 30, 2021 was \$8.8 billion and \$9.0 billion, respectively, and will mature within the subsequent three-year period. For derivative instruments that are designated and qualify as a cash flow hedge, the gain or loss on the derivative instrument is reported as a component of *accumulated other comprehensive loss*. The gain or loss on the derivative instrument is reclassified into profit and is included in *other operating expense*, *net* or *cost of sales* in the consolidated profit and loss account in the same period or periods during which the hedged transaction affects profit. Amounts excluded from the measurement of hedge effectiveness are recognized in profit in the current period. The cash flows related to all of the Group's derivative instruments designated as cash flow hedges are reported as operating activities in the consolidated statement of cash flows. No components of the hedge contracts were excluded in the measurement of hedge effectiveness, and no forward contracts designated as cash flow hedges were derecognized or discontinued during fiscal years 2022 or 2021.

At April 29, 2022 and April 30, 2021, the Group had \$474 million in after-tax unrealized gains and \$253 million in after-tax unrealized losses, respectively, associated with cash flow hedging instruments recorded in *accumulated other comprehensive loss*. The Group expects that \$368 million of after-tax net unrealized gains at April 29, 2022 will be recognized in the consolidated profit and loss account over the next 12 months.

Net Investment Hedges

The Group has designated Euro-denominated debt as a net investment hedge of certain of its European operations to manage the exposure to currency and exchange rate movements for foreign currency-denominated net investments in foreign operations. At April 29, 2022, the Group had €16.0 billion, or \$17.0 billion, of outstanding Euro-denominated debt designated as a hedge of its net investment in certain of its European operations, which will mature in fiscal year 2023 through fiscal year 2051.

In February 2021, the Group de-designated \(\frac{4}{300}\) billion of outstanding Yen-denominated debt previously designated as a net investment hedge and concurrently entered into freestanding forward derivative contracts with a total notional value of \(\frac{4}{300}\) billion, or approximately \(\frac{5}{2.9}\) billion. These forward contracts were not designated as hedges. The Group used the proceeds from these forward derivative contracts to repay the \(\frac{4}{300}\) billion of Yen-denominated debt in conjunction with the maturity of these forward contracts in March and April of 2021.

For instruments that are designated and qualify as net investment hedges, the gains or losses are reported as a component of accumulated other comprehensive loss. The gains or losses are reclassified into profit upon a liquidation event or deconsolidation of the foreign subsidiary. Amounts excluded from the assessment of effectiveness are recognized in other

Medtronic plc

Notes to the Consolidated Financial Statements

operating expense, net. The cash flows related to the Group's derivative instruments designated as net investment hedges are reported as investing activities in the consolidated statement of cash flows.

At April 29, 2022 and April 30, 2021, the Group had \$841 million in after-tax unrealized gains and \$1.5 billion in after-tax unrealized losses associated with net investment hedges recorded in *accumulated other comprehensive loss*, respectively. The Group does not expect any of the after-tax unrealized gains at April 29, 2022 to be recognized in the consolidated profit and loss account over the next 12 months.

The Group did not recognize any gains or losses during fiscal years 2022 or 2021 on instruments that no longer qualify as net investment hedges.

Gains and Losses on Hedging Instruments and Derivatives not Designated as Hedging Instruments

The amount of the gains and losses on our hedging instruments and the classification of those gains and losses within our consolidated profit and loss account for fiscal years 2022 and 2021 were as follows:

	in Accumulated Other Comprehensive Loss (G			ain) Loss into I

Balance Sheet Presentation

The following table summarizes the balance sheet classification and fair value of derivative instruments included in the consolidated balance sheet at April 29, 2022 and April 30, 2021. The fair value amounts are presented on a gross basis, and are segregated between derivatives that are designated and qualify as hedging instruments and those that are not designated and do not qualify as hedging instruments, and are further segregated by type of contract within those two categories.

	Fair Value - Assets						Fair Value - Liabilities							
(in millions)		ril 29, 022		ril 30, 2021	Balance Sheet Classification	April 29, April 30, 2022 2021								Balance Sheet Classification

Total derivatives	\$	695	\$	102		\$	129	\$	296					

The following table provides information by level for the derivative assets and liabilities that are measured at fair value on a recurring basis:

	 April 2	9, 2022		April 30, 2021			
(in millions)	 Level 1		evel 2	Level 1			Level 2
Derivative assets	\$ 695	\$	_	\$	85	\$	18
Derivative liabilities	109		20		296		_

The Group has elected to present the fair value of derivative assets and liabilities within the consolidated balance sheet on a gross basis, even when derivative transactions are subject to master netting arrangements and may otherwise qualify for net presentation. The cash flows related to collateral posted and received are reported gross as investing and financing activities, respectively, in the consolidated statement of cash flows.

Notes to the Consolidated Financial Statements

The following tables provide information as if the Group had elected to offset the asset and liability balances of derivative instruments, netted in accordance with various criteria as stipulated by the terms of the master netting arrangements with each of the counterparties. Derivatives not subject to master netting arrangements are not eligible for net presentation.

Concentrations of Credit Risk

Financial instruments, which potentially subject the Group to significant concentrations of credit risk, consist principally of interest-bearing investments, forward exchange derivative contracts, and trade debtors. Global concentrations of credit risk with respect to trade debtors are limited due to the large number of customers and their dispersion across many geographic areas. The Group monitors the creditworthiness of its customers to which it grants credit terms in the normal course of business.

The Group maintains cash at bank and in hand, investments, and certain other financial instruments (including currency exchange rate and interest rate derivative contracts) with various major financial institutions. The Group performs periodic evaluations of the relative credit standings of these financial institutions and limits the amount of credit exposure with any one institution. In addition, the Group has collateral credit agreements with its primary derivatives counterparties. Under these agreements, either party is required to post eligible collateral when the market value of transactions covered by the agreement exceeds specific thresholds, thus limiting credit exposure for both parties. As of April 29, 2022, the Group received net cash collateral of \$254 million from its counterparties. As of April 30, 2021, the Group posted net cash collateral of \$46 million to its counterparties. Cash collateral posted is recorded as a reduction in *cash at bank and in hand*, with the offset recorded as an increase in *debtors* in the consolidated balance sheet. Cash collateral received is recorded as an increase in *cash at bank and in hand* with the offset recorded in *creditors (amounts falling due within one year)* in the consolidated balance sheet.

16. Creditors

Creditors consisted of the following:

(in millions)	April 29, 2022		April 30, 2021	
Amounts falling due within one year:		,		
Financing arrangements (note 17)	\$	3,742	\$	11

Accruals and other creditors		61		89
Total amounts falling due after more than one year	\$	23,878	\$	30,360

⁽¹⁾ Includes amounts for value added and other non-income related taxes of approximately \$225 million and \$210 million as well as social insurance of approximately \$59 million and \$53 million for fiscal years 2022 and 2021, respectively.

17. Financing Arrangements

Financing arrangements falling due within one year consisted of the following:

(in millions)	April	April 29, 2022		0, 2021
Bank borrowings	\$	12	\$	2
0.000 percent three-year 2019 senior notes		798		
0.375 percent four-year 2019 senior notes		1,596		
0.000 percent two-year 2020 senior notes		1,330		
Finance lease obligations		6		9
Financing arrangements	\$	3,742	\$	11

Bank Borrowings Outstanding bank borrowings at April 29, 2022 and April 30, 2021 were not significant.

Commercial Paper On January 26, 2015, Medtronic Global Holdings S.C.A. (Medtronic Luxco), an entity organized under the laws of Luxembourg, entered into various agreements pursuant to which Medtronic Luxco may issue United States Dollar-denominated unsecured commercial paper notes (the 2015 CP Program) on a private placement basis, and on January 31, 2020 Medtronic Luxco entered into various agreements pursuant to which Medtronic Luxco may issue Euro-denominated unsecured commercial paper notes (the 2020 CP Program) on a private placement basis. The Maximum aggregate amount outstanding at any time under the 2015 CP Program and the 2020 CP Program together may not exceed the equivalent of \$3.5 billion. The Group and Medtronic, Inc. have guaranteed the obligations of Medtronic Luxco under the 2015 CP Program and the 2020 CP Program.

Medtronic plc Notes to the Consolidated Financial Statements

There was no commercial paper outstanding at April 29, 2022 and April 30, 2021 or during fiscal year 2021. During fiscal year 2022, the weighted average original maturity of the commercial paper outstanding was approximately 15 days and the weighted average interest rate was 0.70 percent. The issuance of commercial paper reduces the amount of credit available under the Group's existing credit facility, defined below.

Line of Credit On December 12, 2021, Medtronic Luxco, as borrower, entered into an amendment to its amended and restated credit agreement (Credit Facility), by and among Medtronic plc, Medtronic, Inc., Medtronic Luxco, the lenders from time to time party thereto, and Bank of America, N.A., as administrative agent and issuing bank, extending the maturity date of the Credit Facility to December 2026 and removing the cap on the number of extension options available.

The Credit Facility provides for a \$3.5 billion five-year unsecured revolving credit facility (Credit Facility). At each anniversary date of the Credit Facility the Group can request a one-year extension of the maturity date. The Credit Facility provides the Group with the ability to increase its borrowing capacity by an additional \$1.0 billion at any time during the term of the agreement. The Group and Medtronic, Inc. have guaranteed the obligations of the borrowers under the Credit Facility, and Medtronic Luxco will also guarantee the obligations of any designated borrower. The Credit Facility includes a multi-currency borrowing feature for certain specified foreign currencies. At April 29, 2022 and April 30, 2021, no amounts were outstanding under the Credit Facility.

Interest rates on advances on the Credit Facility are determined by a pricing matrix based on the Group's long-term debt ratings, assigned by Standard & Poor's Ratings Services and Moody's Investors Service. Facility fees are payable on the Credit Facility and are determined in the same manner as the interest rates. The Group is in compliance with all covenants related to the Credit Facility.

Financing arrangements falling due after one year consisted of the following:

Senior Notes The Group has outstanding unsecured senior obligations, described as senior notes in the tables above (collectively, the Senior Notes). The Senior Notes rank equally with all other unsecured and unsubordinated indebtedness of the Group. The Group is in compliance with all covenants related to the Senior Notes.

In June 2019, Medtronic Luxco issued six tranches of Euro-denominated Senior Notes with an aggregate principal of €5.0 billion, with maturities ranging from fiscal year 2021 to fiscal year 2050, resulting in cash proceeds of approximately \$5.6 billion, net of discounts and issuance costs. The Group used the net proceeds of the offering to fund the cash tender offer and early redemption of \$5.2 billion of Medtronic Inc., CIFSA, and Medtronic Luxco Senior Notes for \$5.6 billion of total consideration. The Group recognized a loss on debt extinguishment of \$413 million in fiscal year 2020, which primarily included cash premiums and accelerated amortization of deferred financing costs and debt discounts and premiums. The loss was recognized in *interest payable and similar expenses* in the consolidated profit and loss account.

Notes to the Consolidated Financial Statements

In September 2020, Medtronic Luxco issued an additional six tranches of Euro-denominated Senior Notes with an aggregate principal of €6.3 billion, with maturities ranging from fiscal year 2023 to fiscal year 2051, resulting in cash proceeds of approximately \$7.2 billion, net of discounts and issuance costs. The Group used the net proceeds of the offering to fund the early redemption of \$4.3 billion of Medtronic Inc. and CIFSA Senior Notes and €1.5 billion of Medtronic Luxco Senior Notes for \$6.3 billion of total consideration in October 2020. Additionally, the Group used the proceeds to repay its €750 million floating rate senior notes at maturity in March 2021. The Group recognized a loss on debt extinguishment of \$308 million in fiscal year 2021, which primarily included cash premiums and accelerated amortization of deferred financing costs and debt discounts and premiums. The loss was recognized in *interest payable and similar expenses* in the consolidated profit and loss account.

The Euro-denominated debt issued in June 2019 and September 2020 is designated as a net investment hedge of certain of the Group's European operations. Refer to Note 15 for additional information regarding the net investment hedge.

Term Loan Agreements On May 12, 2020, Medtronic Luxco entered into a term loan agreement (Fiscal 2021 Loan Agreement) by and among Medtronic Luxco, Medtronic plc, Medtronic, Inc., and Mizuho Bank, Ltd. as administrative agent and as lender. The Fiscal 2021 Loan Agreement provided an unsecured term loan in an aggregate principal amount of up to \#300 billion, with a term of six months and the option to extend for an additional six months at Medtronic Luxco's option. On May 13, 2020, Medtronic Luxco borrowed the entire amount of the term loan under the Fiscal 2021 Loan Agreement. The Japanese Yen-denominated debt was designated as a net investment hedge of certain of our Japanese operations. Borrowings under the Fiscal 2021 Loan Agreement carried interest at the TIBOR Rate (as defined in the Fiscal 2021 Loan Agreement) plus a margin of 0.50% per annum. Medtronic plc and Medtronic, Inc. guaranteed the obligations of Medtronic Luxco under the Fiscal 2021 Loan Agreement. On November 12, 2020, the Group exercised its option to extend the term loan for an additional six months. During the fourth quarter of fiscal year 2021, the Group de-designated the Yen-denominated debt as a net investment hedge and repaid the term loan in full, including interest.

Contractual maturities of debt for the next five fiscal years and thereafter, excluding deferred financing costs and debt discount, net, are as follows:

(in millions)	
2023	\$ 3,744
2024	6
2025	1,895
2026	2,133
2027	1,969
Thereafter	14,528
Total	\$ 24,275

Financial Instruments Not Measured at Fair Value

At April 29, 2022, the estimated fair value of the Group's Senior Notes was \$22.9 billion compared to a principal value of \$24.2 billion. At April 30, 2021 the estimated fair value was \$28.6 billion compared to a principal value of \$26.5 billion. The fair value was estimated using quoted market prices for the publicly registered Senior Notes, which are classified as Level 2

Notes to the Consolidated Financial Statements

within the fair value hierarchy. The fair values and principal values consider the terms of the related debt and exclude the impacts of debt discounts and hedging activity.

18. Provisions for Liabilities

Provisions for liabilities were as follows:

(in millions)	April 29, 2022	April 30, 2021
Rebates	\$ 981	\$ 906
Deferred taxes, as adjusted (note 6)	884	1,028

Total provision for liabilities	\$ 3,559	\$ 4,246

Provisions activity for fiscal year 2022 was as follows:

(in millions)	Rebates	Accrued Certain Litigation Charges	MCS Costs	Varranty bligations	Right of Return	Other ⁽¹⁾
April 30, 2021	\$ 906	\$ 384	\$ _	\$ 204	\$ 177	\$ 215
Provisions	1,810	95	366	6	234	617
Utilization and payments	(1,674)	(188)	(132)	(48)	(340)	(672)
Currency translation and other	(61)	_	(1)	(6)	24	_
April 29, 2022	\$ 981	\$ 291	\$ 233	\$ 156	\$ 96	\$ 160

⁽¹⁾ The provisions and utilization/payments primarily relate to insurance reserves for medical and dental.

19. Retirement Benefit Obligations

Pension and similar obligations, net were as follows:

(in millions)	April 29, 2022	April 30, 2021
U.S. defined benefit pension plan assets (obligations), net	\$ 33	\$ (319)
Non-U.S. defined benefit pension plan obligations, net	(8)	(394)
Post-retirement benefit plan assets, net	49	8
Other	(29)	(27)
Total retirement benefit assets (obligations), net ⁽¹⁾	\$ 45	\$ (732)

⁽¹⁾ Includes the net impact of total retirement benefit plan assets of approximately \$629 million and \$184 million for fiscal years 2022 and 2021, respectively. These plan assets are categorized as *debtors* within the consolidated balance sheet.

The Group sponsors various retirement benefit plans, including defined benefit pension plans, post-retirement medical plans, defined contribution savings plans, and termination indemnity plans, covering substantially all U.S. employees and many employees outside the U.S. The net expense related to these plans was \$459 million and \$668 million in fiscal years 2022 and 2021, respectively.

In the U.S., the Group maintains qualified pension plans designed to provide guaranteed minimum retirement benefits to all eligible U.S. participants. Pension coverage for non-U.S. employees is provided, to the extent deemed appropriate, through separate plans. In addition to the benefits provided under the qualified pension plan, retirement benefits associated with wages

Medtronic plc

Notes to the Consolidated Financial Statements

in excess of the IRS allowable limits are provided to certain employees under a non-qualified plan. U.S. and Puerto Rico employees are also eligible to receive a medical benefit component, in addition to normal retirement benefits, through the Group's post-retirement benefits.

The amounts included in the Group's financial statements are based on the most recent actuarial valuations, which are generally as of the end of the fiscal year. The actuarial valuations are performed by the individual plan's independent and professionally qualified actuaries. The actuarial reports are not available for public inspection.

At April 29, 2022 and April 30, 2021, the funded status of the Group's benefit plans was \$74 million overfunded and \$705 million underfunded, respectively.

During fiscal year 2021, as part of the Simplification restructuring program, the Group offered certain eligible U.S. employees voluntary early retirement packages, resulting in incremental expense of \$97 million recognized. Of this amount, \$73 million related to U.S. pension benefits, \$11 million related to defined contribution plans, \$11 million related to U.S. post-retirement benefits, and \$2 million related to cash payments and administrative fees. See Note 3 for additional information on the Simplification restructuring program.

As of April 24, 2020, the Group announced the freezing of U.S. pension benefits beginning in 2027. Employees will continue to earn benefits as required by the plan until April 30, 2027, after which date benefits will no longer be earned and employees will earn benefits under a new defined contribution structure.

Notes to the Consolidated Financial Statements

Defined Benefit Pension Plans The change in benefit obligation and funded status of the Group's U.S. and Non-U.S. pension benefits are as follows:

	U.S. Pension Benefits					Non-U.S. Pension Benefits					
	Fiscal Year				Fiscal Year						
(in millions)		2022		2021		2022		2021			
Accumulated benefit obligation at end of year:	\$	3,396	\$	3,786	\$	1,638	\$	2,035			
Change in projected benefit obligation:											
Projected benefit obligation at beginning of year	\$	3,979	\$	3,723	\$	2,294	\$	2,024			
Service cost		98		106		64		70			
Interest cost		102		109		26		28

Recognized asset (liability)	\$	33	\$	(319)	\$	(8)	\$	(394)			
Amounts recognized on the consolidated balance sheet consist of:											
Debtors falling due after one year	\$	313	\$	110	\$	240	\$	48			
Provisions		(280)		(428)		(248)		(442)			
Recognized asset (liability)	\$	33	\$	(319)	\$	(8)	\$	(394)			
Amounts recognized in accumulated other comprehensive loss:											
Prior service cost (credit)	\$	_	\$	_	\$	(4)	\$	(6)			
Net actuarial loss		854		1,220		161		530			
Ending balance	\$	854	\$	1,220	\$	157	\$	524			

⁽¹⁾ Actuarial gains and losses result from changes in actuarial assumptions (such as changes in the discount rate and revised mortality rates). The actuarial gain in fiscal year 2022 was primarily related to increases in discount rates. The actuarial loss in fiscal year 2021 was primarily related to decreases in discount rates.

Medtronic plc

Notes to the Consolidated Financial Statements

In certain countries outside the U.S., fully funding pension plans is not a common practice, as funding provides no income tax benefit. Consequently, certain pension plans were partially funded at April 29, 2022 and April 30, 2021. U.S. and non-U.S. pension plans with accumulated benefit obligations in excess of plan assets consist of the following:

	Fis	Fiscal Year							
(in millions)	2022		2021						
Accumulated benefit obligation	\$ 830	\$	5,089						
Projected benefit obligation	886)	5,198						
Plan assets at fair value	350	,	4,561						

U.S. and non-U.S. pension plans with projected benefit obligations in excess of plan assets consist of the following:

	 Fiscal Year								
(in millions)	 2022		2021						
Projected benefit obligation	\$ 907	\$	5,921						
Plan assets at fair value	379		5,159						

The net periodic benefit cost of the plans includes the following components:

	U.S. Pension Benefits			Non-U.S. Pension Benefits				
		Fiscal	Yea	r	Fiscal Year			
(in millions)		2022		2021		2022	2	021
Service cost	\$	98	\$	106	\$	64	\$	70
Interest cost		102		109		26		28
Expected return on plan assets		(226)		(242)		(64)		(59)
Amortization of prior service cost				1		(1)		(1)
Amortization of net actuarial loss		64		69		22		25
Settlement and curtailment (gain) loss						(10)		1
Special termination benefits				73				_
Net periodic benefit cost	\$	39	\$	115	\$	37	\$	64

The other changes in plan assets and projected benefit obligations recognized in *other comprehensive income* for fiscal year 2022 are as follows:

(in millions)	U.S. Pension Benefits	Non-U.S. Pension Benefits
Net actuarial gain	\$ (303)	\$ (317)
Amortization of prior service credit		1
Amortization and settlement recognition of actuarial loss	(64)	(22)
Effect of exchange rates		(29)
Total recognized in other comprehensive income	\$ (367)	\$ (367)
Total recognized in net periodic benefit cost and other comprehensive income	\$ (328)	\$ (331)

The actuarial assumptions are as follows:

	U.S. Pension	Benefits	Non-U.S. Pens	ion Benefits
	Fiscal Y	/ear	Fiscal Y	Year
	2022	2021	2022	2021
Critical assumptions – projected benefit obligation:				
Discount rate	4.23% - 4.48%	2.80% - 3.50%	0.60% - 25.40%	0.30% - 13.30%
Rate of compensation increase	4.83%	4.83%	2.70%	2.90%
Critical assumptions – net periodic benefit cost:				
Discount rate – benefit obligation	2.80% - 3.46%	3.10% - 3.70%	0.25% - 12.80%	0.30% - 13.90%
Discount rate – service cost	2.50% - 3.51%	2.60% - 3.90%	0.24% - 12.80%	0.30% - 13.90%
Discount rate – interest cost	2.08% - 2.87%	2.80% - 3.20%	0.08% - 12.80%	0.30% - 13.90%
Expected return on plan assets	5.60% - 7.40%	7.50%	3.67%	3.78%
Rate of compensation increase	3.90% - 4.83%	3.90%	2.90%	2.91%

The Group utilizes a full yield curve approach methodology to estimate the service and interest cost components of net periodic pension cost and net periodic post-retirement benefit cost for the Group's pension and other post-retirement benefits. The full yield curve approach applies specific spot rates along the yield curve to their underlying projected cash flows in estimation of the cost components. The current yield curves represent high quality, long-term fixed income instruments.

The expected long-term rate of return on plan assets assumptions are determined using a building block approach, considering historical averages and real returns of each asset class. In certain countries, where historical returns are not meaningful, consideration is given to local market expectations of long-term returns.

Retirement Benefit Plan Investment Strategy The Group sponsors trusts that hold the assets for U.S. pension plans and other U.S. post-retirement benefit plans, primarily retiree medical benefits. For investment purposes, the Medtronic U.S. pension and other U.S. post-retirement benefit plans employ similar investment strategies with different asset allocation targets.

The Group has a Qualified Plan Committee (the Plan Committee) that sets investment guidelines for U.S. pension plans and other U.S. post-retirement benefit plans with the assistance of external consultants. These guidelines are established based on market conditions, risk tolerance, funding requirements, and expected benefit payments. The Plan Committee also oversees the investment allocation process, selects the investment managers, and monitors asset performance. As pension liabilities are long-term in nature, the Group employs a long-term total return approach to maximize the long-term rate of return on plan assets for a prudent level of risk. An annual analysis on the risk versus the return of the investment portfolio is conducted to justify the expected long-term rate of return assumption.

The investment portfolios contain a diversified allocation of investment categories, including equities, fixed income securities, hedge funds, and private equity. Securities are also diversified in terms of domestic and international, short- and long-term, growth and value styles, large cap and small cap stocks, and active and passive management.

Outside the U.S., pension plan assets are typically managed by decentralized fiduciary committees. There is significant variation in policy asset allocation from country to country. Local regulations, funding rules, and financial and tax considerations are part of the funding and investment allocation process in each country. The weighted average target asset allocations at April 29, 2022 for the plans are 41% equity securities, 33% debt securities, and 26% other.

The plans did not hold any investments in the Group's ordinary shares at April 29, 2022 or April 30, 2021.

Notes to the Consolidated Financial Statements

The Group's U.S. plans target asset allocations at April 29, 2022, compared to the U.S. plans actual asset allocations at April 29, 2022 and April 30, 2021 by asset category, are as follows:

U.S. Plans

	Target Allocation	Actual Al	location
	April 29, 2022	April 29, 2022	April 30, 2021
Asset Category:			
Equity securities	34 %	36 %	39 %
Debt securities	51	45	32
Other	15	19	29
Total	100 %	100 %	100 %

Strong performance on equity securities during the fiscal year resulted in asset allocations different than targets. Management expects to move the allocations closer to target over the intermediate term.

Retirement Benefit Plan Asset Fair Values The following is a description of the valuation methodologies used for retirement benefit plan assets measured at fair value:

Short-term investments: Valued at the closing price reported in the active markets in which the individual security is traded.

Mutual funds: Comprised of investments in equity and fixed income securities held in pooled investment vehicles. The valuations of mutual funds are based on the respective net asset values which are determined by the fund daily at market close. The net asset values are calculated based on the valuation of the underlying assets which are determined using observable inputs. The net asset values are publicly reported.

Equity commingled trusts: Comprised of investments in equity securities held in pooled investment vehicles. The valuations of equity commingled trusts are based on the respective net asset values which are determined by the fund daily at market close. The net asset values are calculated based on the valuation of the underlying assets which are determined using observable inputs. The net asset values are not publicly reported, and funds are valued at the net asset value practical expedient.

Fixed income commingled trusts: Comprised of investments in fixed income securities held in pooled investment vehicles. The valuations of fixed income commingled trusts are based on the respective net asset values which are determined by the fund daily at market close. The net asset values are calculated based on the valuation of the underlying assets which are determined using observable inputs. The net asset values are not publicly reported, and funds are valued at the net asset value practical expedient.

Partnership units: Valued based on the year-end net asset values of the underlying partnerships. The net asset values of the partnerships are based on the fair values of the underlying investments of the partnerships. Quoted market prices are used to value the underlying investments of the partnerships, where the partnerships consist of the investment pools which invest primarily in common stocks. Partnership units include partnerships, private equity investments, and real asset investments. Partnerships primarily include long/short equity and absolute return strategies. These investments may be redeemed monthly with notice periods ranging from 45 to 95 days. At April 29, 2022, there are no funds in the process of liquidation. Private equity investments consist of common stock and debt instruments of private companies. For private equity funds, the sum of the unfunded commitments at April 29, 2022 is \$204 million, and the estimated liquidation period of these funds is expected to be one to 15 years. Real asset investments consist of commodities, derivatives, Real Estate Investment Trusts, and illiquid real estate holdings. These investments have redemption and liquidation periods ranging from 30 days to 10 years. At April 29, 2022, there are no real estate investments in the process of liquidation. Valuation procedures are utilized to arrive at fair value if a quoted market price is not available for a partnership investment.

Registered investment companies: Valued at net asset values which are not publicly reported. The net asset values are calculated based on the valuation of the underlying assets. The underlying assets are valued at the quoted market prices of shares held by the plan at year-end in the active market on which the individual securities are traded.

Insurance contracts: Comprised of investments in collective (group) insurance contracts, consisting of individual insurance policies. The policyholder is the employer, and each member is the owner/beneficiary of their individual insurance policy. These policies are a part of the insurance company's general portfolio and participate in the insurer's profit-sharing policy on an excess yield basis.

Medtronic plc

Notes to the Consolidated Financial Statements

The methods described above may produce fair values that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Group believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables provide information by level for the retirement benefit plan assets that are measured at fair value, as defined by U.S. GAAP. Certain investments for which the fair value is measured using the net asset value per share (or its equivalent) practical expedient are not presented within the fair value hierarchy. The fair value amounts presented for these investments are intended to permit reconciliation to the total fair value of plan assets at April 29, 2022 and April 30, 2021.

U.S. Pension Benefits

	Fair	· Value at	Fai Usii	vestments sured at Net		
(in millions)	Apri	il 30, 2021	Level 1	 Level 2	 Level 3	sset Value
Registered investment companies	\$	1,850	\$ _	\$ _	\$ _	\$ 1,850
Insurance contracts		49	 	 	 49	
	\$	1,900	\$ 	\$ 	\$ 49	\$ 1,850

Non-U.S. pension benefit assets that are valued using significant unobservable inputs (Level 3) was \$43 million and \$49 million as of April 29, 2022 and April 30, 2021, respectively. The decrease in the fair value of the assets was due to insurance contracts being sold.

There were no transfers into or out of Level 3 for both the U.S. and non-U.S. pension plans during the fiscal years ended April 29, 2022 and April 30, 2021.

Retirement Benefit Plan Funding It is the Group's policy to fund retirement costs within the limits of allowable tax deductions. During fiscal year 2022, the Group made discretionary contributions of approximately \$24 million to the U.S. pension plan. Internationally, the Group contributed approximately \$70 million for pension benefits during fiscal year 2022. The Group anticipates that it will make contributions of \$21 million and \$52 million to its U.S. pension benefit plans and non-U.S. pension benefit plans, respectively, in fiscal year 2023. Based on the guidelines under the U.S. Employee Retirement Income Security Act of 1974 and the various guidelines which govern the plans outside the U.S., the majority of anticipated fiscal year 2023 contributions will be discretionary. The Group believes that pension assets, returns on invested pension assets, and Group contributions will be able to meet its pension and other post-retirement obligations in the future.

Retiree benefit payments, which reflect expected future service, are anticipated to be paid as follows:

(in millions)	Gross Payments				
Fiscal Year	U.S. Pension Benefits	Non-U.S. Pension Benefits			
2023	\$ 150	\$ 61			
2024	160	55			
2025	172	59			
2026	182	59			
2027	193	65			
2028 - 2032	1,110	367			
Total	\$ 1,966	\$ 666			

Post-retirement Benefit Plans The net periodic benefit cost associated with the Group's post-retirement benefit plans was profit of \$20 million and \$6 million in fiscal years 2022 and 2021, respectively. The Group's projected benefit obligation for all post-retirement benefit plans was \$276 million and \$337 million at April 29, 2022 and April 30, 2021, respectively. The Group's fair value of plan assets for all post-retirement benefit plans was \$325 million and \$345 million at April 29, 2022 and April 30, 2021, respectively. The post-retirement benefit plan assets at both April 29, 2022 and April 30, 2021 primarily comprised of equity and fixed commingled trusts, consistent with the U.S. retirement benefit plan assets outlined in the fair value leveling tables above.

Defined Contribution Savings Plans The Group has defined contribution savings plans that cover substantially all U.S. employees and certain non-U.S. employees. The general purpose of these plans is to provide additional financial security during retirement by providing employees with an incentive to make regular savings. Group contributions to the plans are based on

Notes to the Consolidated Financial Statements

employee contributions and Group performance. Expense recognized under these plans was \$403 million and \$495 million in fiscal years 2022 and 2021, respectively.

Effective May 1, 2005, the Group froze participation in the original defined benefit pension plan in the U.S. and implemented two new plans: an additional defined benefit pension plan, the Personal Pension Account (PPA), and a new defined contribution plan, the Personal Investment Account (PIA). Employees in the U.S. hired on or after May 1, 2005 but before January 1, 2016 had the option to participate in either the PPA or the PIA. Participants in the PPA receive an annual allocation of their salary and bonus on which they will receive an annual guaranteed rate of return, which is based on the ten-year Treasury bond rate. Participants in the PIA also receive an annual allocation of their salary and bonus; however, they are allowed to determine how to invest their funds among identified fund alternatives. The cost associated with the PPA is included in U.S. Pension Benefits in the tables presented earlier. The defined contribution cost associated with the PIA was approximately \$48 million and \$50 million in fiscal years 2022 and 2021, respectively.

Effective January 1, 2016, the Group froze participation in the existing defined benefit (PPA) and contribution (PIA) pension plans in the U.S. and implemented a new form of benefit under the existing defined contribution plan for legacy Covidien employees and employees in the U.S. hired on or after January 1, 2016 or rehired after July 1, 2020. Participants in the Medtronic Core Contribution (MCC) also receive an annual allocation of their salary and bonus and are allowed to determine how to invest their funds among identified fund alternatives. The defined contribution cost associated with the MCC was approximately \$83 million and \$73 million in fiscal years 2022 and 2021, respectively.

20. Shareholders' Equity

Authorized and allotted shares were as follows:

(in millions, except share data)	April 29, 2022		April 30	, 2021		
Authorized:	Shares	Amount		ount Shares		Amount
Ordinary Shares, \$0.0001 par value	2,600,000,000	\$		2,600,000,000	\$	_
Euro Deferred Shares, €1.00 par value	40,000		_	40,000		_
Preferred Shares, \$0.20 par value	127,500,000		26	127,500,000		26
A Preferred Shares, \$1.00 par value	500,000		1	500,000		1
Total authorized		\$	27		\$	27
Allotted, called up and fully paid:						
Ordinary Shares, \$0.0001 par value	1,330,743,395	\$	_	1,345,400,671	\$	
A Preferred Shares, \$1.00 par value	_			1,872		
Total allotted, called up and fully paid		\$			\$	_

The holder of A Preferred Shares is entitled to payment of dividends prior to any class of shares in the Group equal to twice the dividend to be paid per Group ordinary share. On a return of assets, whether on liquidation or otherwise, the A Preferred Shares are entitled to repayment of the capital paid up thereon in priority to any repayment of capital to the holders of any other shares and the holders of the A Preferred Shares shall not be entitled to any further participation in the assets or profits of the Group. The holders of the A Preferred Shares are not entitled to receive notice of, nor to attend, speak, or vote at any general meeting of the Group. During the third quarter of fiscal year 2022, the Group redeemed the previously outstanding 1,872 A Preferred Shares for \$0.075 million.

Dividends The timing, declaration, and payment of future dividends to holders of the Group's ordinary and A Preferred shares falls within the discretion of the Directors and depends upon many factors, including the statutory requirements of Irish law, the Group's profit and financial condition, the capital requirements of the Group's businesses, industry practice and any other factors the Directors deem relevant.

Ordinary Share Redemptions Shares are redeemed on occasion to support the Group's stock-based compensation programs and to return capital to shareholders. During fiscal years 2022 and 2021, the Group redeemed approximately 22 million and 4 million shares, respectively, at an average price of \$113.11 and \$126.80, respectively.

In March 2019, the Directors authorized \$6.0 billion for redemption of the Group's ordinary shares. There is no specific time-period associated with these authorizations. At April 29, 2022, the Group had used \$3.0 billion of the \$6.0 billion authorized

Medtronic plc

Notes to the Consolidated Financial Statements

under the program, leaving approximately \$3.0 billion available for future redemptions. The Group accounts for redemptions of ordinary shares using the par value method, and shares redeemed are cancelled. The par value of the shares redeemed, cancelled, and transferred to the other undenominated capital reserve was insignificant at April 29, 2022 and April 30, 2021.

Profit and Loss Account The profit and loss account refers to the portion of profit for the financial year which is retained by the Group rather than being distributed to shareholders as dividends, which is recorded in profit and loss account within the consolidated balance sheet.

Share Premium The share premium account reflects the fair value of consideration received in excess of the par value of shares issued for stock option exercises, vesting of restricted stock units and other issuances of shares and is recorded in share premium account within the consolidated balance sheet.

21. Stock Purchase and Award Plans

In fiscal year 2022, the Group granted stock awards under the Medtronic plc 2013 Plan (2013 Plan) and the 2021 Medtronic plc Long Term Incentive Plan (2021 Plan). The 2021 Plan was approved by the Group's shareholders on December 9, 2021, and provides for a maximum of 115 million ordinary shares to be issued, in addition to the 14 million ordinary shares previously approved for issuance under the 2013 Plan. The 2021 Plan provides for the grant of non-qualified and incentive stock options, stock appreciation rights, restricted stock, restricted stock units, performance awards, and other stock and cash-based awards. At April 29, 2022, there were approximately 127 million shares available for future grants under the 2021 Plan.

Stock-Based Compensation Expense The following table presents the components and classification of stock-based compensation expense recognized for stock options, restricted stock, performance share units, and employee stock purchase plan (ESPP) in fiscal years 2022 and 2021:

	 Fiscal Year						
(in millions)	2022		2021				
Stock options	\$ 70	\$	72				
Restricted stock	184		185				
Performance share units	66		49				
Employee stock purchase plan	 39		38				
Total stock-based compensation expense	\$ 359	\$	344				
Cost of sales	\$ 36	\$	35				
Research and development expense	40		38				
Distribution and administrative expense	 283		272				
Total stock-based compensation expense	359		344				
Taxation	 (62)		(59)				
Total stock-based compensation expense, net of taxation	\$ 297	\$	285				

Stock Options Options are granted at the exercise price, which is equal to the closing price of the Group's ordinary shares on the grant date. The majority of the Group's options are non-qualified options with a 10-year life and a 4-year ratable vesting term. The Group uses the Black-Scholes option pricing model (Black-Scholes model) to determine the fair value of stock options at the grant date. The fair value of stock options under the Black-Scholes model requires management to make assumptions regarding projected employee stock option exercise behaviors, risk-free interest rates, volatility of the Group's stock price, and expected dividends.

Notes to the Consolidated Financial Statements

The following table provides the weighted average fair value of options granted to employees and the related assumptions used in the Black-Scholes model:

		Fiscal Year				
	2022			2021		
Weighted average fair value of options granted	\$	22.83	\$	16.15		
Assumptions used:						
Expected life (years)		6.0		6.0		
Risk-free interest rate		0.90 %		0.33 %		
Volatility		23.04 %		24.17 %		
Dividend yield		1.95 %		2.36 %		

The following table summarizes stock option activity during fiscal year 2022:

	Options (in thousands)	,	Wtd. Avg. Exercise Price	Wtd. Avg. Remaining Contractual Term (in years)	Intr	ggregate insic Value millions)
Outstanding at April 30, 2021	27,972	\$	84.38			
Granted	4,153		129.03			
Exercised	(3,222)		70.52			
Expired/Forfeited	(641)		107.42			
Outstanding at April 29, 2022	28,263		92.00	5.5	\$	450
Expected to vest at April 29, 2022	8,818		110.27	8.4		35
Exercisable at April 29, 2022	18,804		82.62	4.0		414

The following table summarizes the total cash received from the issuance of new shares upon stock option award exercises, the total intrinsic value of options exercised, and the related tax benefit during fiscal years 2022 and 2021:

	Fi	Fiscal Year					
(in millions)	2022		2021				
Cash proceeds from options exercised	\$ 20	9 \$	277				
Intrinsic value of options exercised	17	4	205				
Tax benefit related to options exercised	4	0	47				

Unrecognized compensation expense related to outstanding stock options at April 29, 2022 was \$90 million and is expected to be recognized over a weighted average period of 2.5 years.

Restricted Stock Restricted stock units are expensed over the vesting period and are subject to forfeiture if employment terminates prior to the lapse of the restrictions. The expense recognized for restricted stock units is equal to the grant date fair value, which is equal to the closing stock price on the date of grant. Restricted stock units either have a 4-year ratable vesting term or cliff vest after three years. The Group also grants shares of performance-based restricted stock units that typically cliff vest after three years only if the Group has also achieved certain performance objectives. Performance awards are expensed over the performance period based on the probability of achieving the performance objectives. Restricted stock units are not considered issued or outstanding ordinary shares of the Group. Dividend equivalent units are accumulated on restricted stock units during the vesting period.

Notes to the Consolidated Financial Statements

The following table summarizes restricted stock activity during fiscal year 2022:

	Units (in thousands)	Wtd. Avg. Grant Price
Nonvested at April 30, 2021	5,980	\$ 97.66
Granted	1,935	127.47
Vested	(2,089)	93.05
Forfeited	(456)	107.53
Nonvested at April 29, 2022	5,370	108.92

The following table summarizes the weighted-average grant date fair value of restricted stock granted, total fair value of restricted stock vested and related tax benefit during fiscal years 2022 and 2021:

		Fiscal Year						
(in millions, except per share data)			2021					
Weighted-average grant-date fair value per restricted stock	\$ 12	7.47 \$	99.48					
Fair value of restricted stock vested		194	280					
Tax benefit related to restricted stock vested		52	65					

Unrecognized compensation expense related to restricted stock as of April 29, 2022 was \$316 million and is expected to be recognized over a weighted average period of 2.5 years.

Performance Share Units Beginning in fiscal year 2021, the Group granted performance share units to officers and key employees. Performance share units typically cliff vest after three years. The awards include three metrics: relative total shareholder return (rTSR), turnover growth, and return on investor capital (ROIC). rTSR is considered a market condition metric, and the expense is determined at the grant date and will not be adjusted even if the market condition is not met. Turnover growth and ROIC are considered performance metrics, and the expense is recorded over the performance period, which will be reassessed each reporting period based on the probability of achieving the various performance conditions. The number of shares earned at the end of the three-year period will vary, based on only actual performance, from 0% to 200% of the target number of performance share units granted. Performance share units are subject to forfeiture if employment terminates prior to the lapse of the restrictions. Performance share units are not considered issued or outstanding ordinary shares of the Group. Dividend equivalent units are accumulated on performance share units for each component of the award during the vesting period.

The Group calculates the fair value of the performance share units for each component individually. The fair value of the rTSR metric will be determined using the Monte Carlo valuation model. The fair value of the turnover growth and ROIC metrics are equal to the closing stock price on the grant date.

The following table summarizes performance share unit activity during fiscal year 2022:

	Units (in thousands)	Wtd. Avg. Grant Price
Nonvested at April 30, 2021	828	\$ 129.05
Granted	831	149.16
Forfeited	(78)	138.31
Nonvested at April 29, 2022	1,581	138.95

Notes to the Consolidated Financial Statements

The following table summarizes the weighted-average grant date fair value of performance share units granted, total fair value of performance share units vested and related tax benefit during fiscal year 2022 and 2021:

		Fiscal Ye	ar
(in millions, except per share data)			2021
Weighted-average grant-date fair value per performance share units	\$ 149	9.16 \$	129.04
Fair value of performance share units vested			_
Tax benefit related to performance share units vested		—	_

Unrecognized compensation expense related to performance share units as of April 29, 2022 was \$84 million and is expected to be recognized over a weighted average period of 1.9 years.

Employees Stock Purchase Plan The Medtronic plc Amended and Restated 2014 Employees Stock Purchase Plan allows participating employees to purchase the Group's ordinary shares at a discount through payroll deductions. The expense recognized for shares purchased under the Group's ESPP is equal to the 15 percent discount the employee receives. Employees purchased 2 million shares at an average price of \$98.75 per share in fiscal year 2022. At April 29, 2022, approximately 7 million ordinary shares were available for future purchase under the ESPP.

22. Accumulated Other Comprehensive Loss

The following table provides changes in AOCI, net of taxation and by component:

(in millions)	(Los	ealized s) Gain on estment urities	Cumulative Translation Adjustments		Net Investment Hedges		Net Change in Retirement Obligations		Unrealized (Loss) Gain on Cash Flow Hedges		Total Accumulated Other Comprehensive (Loss) Income	
April 24, 2020	\$	_	\$	(2,210)	\$	236	\$	(1,852)	\$	266	\$	(3,560)
Other comprehensive income (loss) before reclassifications		92		1,691		(1,694)		432		(541)		(20)
Reclassifications								73		22		95
Other comprehensive income (loss)		92		1,691		(1,694)		505		(519)		75
April 30, 2021		92		(519)		(1,458)		(1,347)		(253)		(3,485)
Other comprehensive income (loss) before reclassifications		(304)		(2,080)		2,299		514		781		1,210
Reclassifications		3		_		_		60		(54)		9
Other comprehensive income (loss)		(301)		(2,080)		2,299		574		727		1,219
April 29, 2022	\$	(209)	\$	(2,599)	\$	841	\$	(773)	\$	474	\$	(2,265)

The taxation on gains and losses on investment securities in other comprehensive income before reclassifications during fiscal years 2022 and 2021 was an benefit of \$51 million and an expense of \$31 million, respectively. During fiscal years 2022 and 2021 realized gains and losses on investment securities reclassified from AOCI were reduced by taxation of \$1 million and \$2 million, respectively. When realized, gains and losses on investment securities reclassified from AOCI are recognized within other non-operating income, net. Refer to Note 12 for additional information.

During fiscal years 2022 and 2021 taxation on cumulative translation adjustment was a benefit of \$8 million and an expense of \$7 million, respectively.

During fiscal years 2022 and 2021 there were no tax impacts on net investment hedges. Refer to Note 15 for additional information.

The net change in retirement obligations in other comprehensive income includes amortization of net actuarial losses included in net periodic benefit cost. The taxation on the net change in retirement obligations in other comprehensive income before reclassifications during fiscal years 2022 and 2021 resulted in an expense of \$134 million and \$115 million, respectively. During fiscal years 2022 and 2021 the gains and losses on defined benefit and pension items reclassified from AOCI were reduced by taxation of \$20 million and \$16 million, respectively. When realized, net gains and losses on defined benefit and pension items reclassified from AOCI are recognized within *other non-operating income, net*. Refer to Note 19 for additional information.

Medtronic plc

Notes to the Consolidated Financial Statements

The taxation on unrealized gains and losses on cash flow hedges in other comprehensive income before reclassifications during fiscal years 2022 and 2021 was an expense of \$152 million and a benefit of \$87 million, respectively. Amounts reclassified from AOCI related to cash flow hedges included taxation of \$26 million and \$14 million for fiscal years 2022 and 2021, respectively. When realized, gains and losses on currency exchange rate contracts reclassified from AOCI are recognized within other operating expense, net or cost of sales. Refer to Note 15 for additional information.

23. Segment, Geographic, and Employee Information

There were no changes to the reportable segments during the fiscal year ended April 29, 2022, such that the four principal operating and reportable segments are as follows: Cardiovascular Portfolio, Neuroscience Portfolio, Medical Surgical Portfolio, and Diabetes Operating Unit.

The Group's management has chosen to organize the entity based upon therapy solutions provided by each segment. The four principal segments are strategic businesses that are managed separately, as each one develops and manufactures products and provides services oriented toward targeted therapy solutions.

The primary products and services from which the Cardiovascular Portfolio segment derives its turnover include products for the diagnosis, treatment, and management of cardiac rhythm disorders and cardiovascular disease, as well as services to diagnose, treat, and manage heart and vascular-related disorders and diseases.

The primary products and services from which the Medical Surgical Portfolio segment derives its turnover include those focused on diseases of the respiratory system, gastrointestinal tract, renal system, lungs, pelvic region, kidneys, obesity, and other preventable complications.

The primary products and services from which the Neuroscience Portfolio segment derives its turnover include those focused on neurostimulation therapies and drug delivery systems for the treatment of chronic pain, as well as various areas of the spine and brain, along with pelvic health and conditions of the ear, nose, and throat.

The primary products from which the Diabetes Operating Unit segment derives its turnover include those focused on diabetes management, including insulin pumps, continuous glucose monitoring systems, smart insulin pens, and insulin pump consumables.

Segment disclosures are on a performance basis, consistent with internal management reporting. Turnover of the Group's segments include end-customer turnover from the sale of products the segment develops, manufactures, and distributes. Refer to Note 2 for discussion on turnover by segment. There are certain corporate and centralized expenses that are not allocated to the segments. The Group's management evaluates the performance of the segments and allocates resources based on turnover and segment operating profit. Segment operating profit represents profit before taxation, excluding interest payable and similar expenses, amortization of intangible assets, centralized distribution costs, non-operating income or expense items, certain corporate charges, and other items not allocated to the segments.

Medtronic plc

Notes to the Consolidated Financial Statements

The accounting policies of the segments are the same as those described in Note 1. Certain depreciable assets may be recorded by one segment, while the depreciation expense is allocated to another segment. The allocation of depreciation expense is based on the proportion of the assets used by each segment.

Segment Operating Profit

	 Fiscal Year			
(in millions)	2022		2021	
Cardiovascular	\$ 4,512	\$	3,850

Medtronic plc

Notes to the Consolidated Financial Statements

Geographic Information

Turnover is attributed to the country based on the location of the customer taking possession of the products or in which the services are rendered. Geographic tangible assets are attributed to the country based on the physical location of the assets.

The following table presents turnover for fiscal years 2022 and 2021 and tangible assets at April 29, 2022 and April 30, 2021 for the Group's country of domicile, countries with significant concentrations, and all other countries:

	Turnover				Tangible assets					
(in millions)		2022		2021		2021		April 29, 2022		ril 30, 2021
Ireland	\$	101	\$	100	\$	177	\$	170		
United States		16,135		15,526		3,821		3,688		
Rest of world		15,450		14,491		1,415		1,363		
Total other countries, excluding Ireland		31,585		30,017		5,236		5,051		
Total	\$	31,686	\$	30,117	\$	5,413	\$	5,221		

No single customer represented over 10 percent of the Group's consolidated turnover in fiscal years 2022 or 2021.

Employee Information

The average number of full-time equivalent persons employed by the Group during the year was as follows:

	Fiscal '	Year
	2022	2021
Cardiovascular	35,654	34,478
Medical Surgical	31,274	31,056
Neuroscience	20,071	19,658
Diabetes	8,304	8,218
Corporate	12,804	11,428
Total	108,107	104,838

Total employee costs consisted of the following:

	Fiscal Year			
(in millions)	2022			2021
Wages and salaries	\$	8,292	\$	8,273
Social insurance		752		736
Stock-based compensation		359		344
Retirement benefit obligations		459		668
Other ⁽¹⁾		756		684
Total	\$	10,618	\$	10,705

⁽¹⁾ Includes other employee benefits such as costs relating to group insurance, employee stock ownership plans, saving plans, and retirement plans.

Employee costs capitalized, and subsequently not expensed, during fiscal years 2022 and 2021 were \$1.1 billion and \$1.2 billion, respectively.

24. Directors' Remuneration

Directors' remuneration is set forth in the table below. Mr. Ishrak retired as Executive Chairman effective December 11, 2020. Mr. Martha was appointed Executive Chairman of the Board effective December 11, 2020. The amounts below include compensation for Mr. Martha's service as President and Chief Executive Officer and Executive Chairman of the Board, Mr. Ishrak's service as Executive Chairman of the Board in fiscal year 2021 prior to his retirement, as well as compensation to all non-employee directors in their capacities as such. Mr. Martha was not provided additional compensation for his service as a director. There were no contributions made to retirement benefit schemes or compensation paid for loss of office to non-executive directors during the periods presented.

	Fiscal Year			
(in millions)		2022		2021
Aggregate emolument paid to or receivable by directors in respect of qualifying services	\$	7	\$	8
Money or value of other assets, including shares but excluding share options, paid to or receivable by the Directors under long-term incentive schemes		10		13
Aggregate amount of gains by the Directors on the exercise of share options		2		2
Contributions to defined contribution retirement benefit plans ⁽¹⁾		_		_
Contributions to defined benefit retirement benefit plans ⁽²⁾		_		_
Total remuneration	\$	19	\$	23

- (1) Includes contributions to the President and CEO and Executive Chairman of the Board; no contributions were made to non-executive directors in the periods presented. Contributions to Mr. Martha were \$161 thousand and \$74 thousand for fiscal years 2022 and 2021, respectively. There were no contributions to Mr. Ishrak for his service as Executive Chairman of the Board in fiscal year 2021.
- (2) Includes \$46 thousand of contributions to Mr. Ishrak for his service as Executive Chairman of the Board in fiscal year 2021; no contributions were made to Mr. Martha or non-executive directors in the periods presented.

Indemnification Agreements Medtronic has entered into deeds of indemnification (the "Deeds of Indemnification") with the Directors and corporate secretary of Medtronic. The Deeds of Indemnification provide indemnification to such directors and the corporate secretary to the fullest extent permitted by the laws of Ireland, and in accordance with Medtronic's memorandum and articles of association, for all expenses and other amounts actually incurred in any action or proceeding in which the director or corporate secretary is or may be involved by reason of the fact that he or she is or was a Medtronic director or corporate secretary or otherwise serving Medtronic or other entities at Medtronic's request, on the terms and conditions set forth in the Deeds of Indemnification. Further, Medtronic agrees, to the fullest extent permitted by the laws of Ireland, to advance expenses incurred in defense of these proceedings, on the terms and conditions set forth in the Deeds of Indemnification. The Deeds of Indemnification also provide procedures for requesting and obtaining indemnification and advancement of expenses.

25. Auditors Remuneration

Auditors' remuneration (including expenses) for all professional services rendered by PricewaterhouseCoopers Ireland and its affiliated firms was as follows:

	 Fiscal Year		
(in millions)	2022		2021
Audit of the Group financial statements	\$ 16	\$	15
Tax advisory services	 1		1
Total remuneration	\$ 18	\$	17

Auditors' remuneration (including expenses) for all professional services rendered by the statutory auditor PricewaterhouseCoopers Ireland was as follows:

	Fiscal Year			
(in thousands)		2022	2	2021
Audit of the Group financial statements	\$	693	\$	577
Other assurance services		11		12
Tax advisory services		5		4
Total remuneration	\$	709	\$	593

27. Post-Balance Sheet Events

Subsequent events have been evaluated through September 1, 2022, the date this report was approved by the Directors. On May 25, 2022, the Group and DaVita Inc. ("DaVita") entered into a definitive agreement with the intent to form a new, independent kidney care-focused medical device company ("NewCo") with equal equity ownership.

The transaction is expected to close in calendar year 2023, subject to customary regulatory approvals and closing conditions. Medtronic is contributing its entire Renal Care Solutions business ("RCS") to NewCo. RCS is part of the Respiratory, Gastrointestinal, and Renal division in the Group's Medical Surgical portfolio, and had turnover of \$325 million in fiscal year 2022. No adjustments to the consolidated financial statements within this Irish Annual Report were made as a result of this subsequent event. As a result of the subsequent event, the Group recorded a non-cash pre-tax impairment of \$67 million, primarily related to goodwill, in the three months ending July 29, 2022 recognized in *other operating expense, net* in the consolidated profit and loss account.

Refer to Note 4 and 6 for further information on the subsequent U.S. Tax Court ruling, Note 9 for further information on the subsequent acquisitions of Intersect ENT and Affera, Inc., and Note 17 for further information on the subsequent term loan agreement.

28. Approval of Financial Statements

The Directors approved the financial statements on September 1, 2022.

1. Basis of Presentation and Summary of Significant Accounting Policies

Medtronic plc (the Company), headquartered in Ireland, is the leading global healthcare technology company – alleviating pain, restoring health, and extending life for millions of people around the world. The Company was incorporated in Ireland on June 12, 2014 as a private limited company and was re-registered effective January 26, 2015 as a public limited company. The Company was established for the purpose of facilitating the acquisition of Covidien plc (Covidien), a public limited company organized under the laws of Ireland and Medtronic, Inc., a U.S. incorporated entity, (collectively, the Transaction). Upon completion of the Transaction on January 26, 2015, Medtronic plc replaced Medtronic, Inc., as the ultimate holding company of the Medtronic group.

Medtronic plc is incorporated as a company limited by shares in the Republic of Ireland (registration number 545333). The address of its registered office is 20 On Hatch, Hatch Street Lower, Dublin 2, D02 XH02, Ireland.

Statement of Compliance The entity financial statements have been prepared on a going concern basis and in accordance with accounting standards issued by the Financial Reporting Council of the UK and the Companies Act 2014. The entity financial statements comply with Financial Reporting Standard 102, 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (FRS 102) and the Companies Act 2014.

Significant Accounting Policies The significant accounting policies used in the preparation of the entity financial statements are set out below. These policies have been consistently applied to all financial years presented.

Basis of Preparation The entity financial statements have been prepared under the historical cost convention. The preparation of financial statements in conformity with FRS 102 requires the use of certain key assumptions concerning the future, and other key sources of estimation uncertainty at the reporting date. It also requires the Directors to exercise their judgment in the process of applying the Company's accounting policies. Estimates and judgments made in the process of preparing the entity financial statements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Exemption for Qualifying Entities Under FRS 102 FRS 102 allows a qualifying entity, certain disclosure exemptions, to a member of a group where the parent of that group prepares publicly available consolidated financial statements which are intended to give a true and fair view (of the assets, liabilities, financial position and profit or loss) and that member is included in the consolidation. The Company is a qualifying entity and has taken advantage of the below disclosure exemptions:

- 1. Exemption from the requirements of Section 7 of FRS 102 and FRS 102 paragraph 3.17(d) to present a statement of cash flows;
- 2. Exemption from the financial instrument disclosure requirements of Section 11 paragraphs 11.42, 11.44, 11.45, 11.47, 11.48(a)(iii), 11.48(a)(iv), 11.48(b), and 11.48(c) and Section 12 paragraphs 12.26, 12.27, 12.29(a), 12.29(b), and 12.29A of FRS 102 providing the equivalent disclosures are included in the consolidated financial statements of the group in which the entity is consolidated;
- 3. Exemption from certain disclosure requirements of Section 26 of FRS 102 (paragraphs 26.18(b), 26.19 to 26.21 and 26.23), in respect of share-based payments; and
- 4. Exemption from the requirement of FRS 102 paragraph 33.7 to disclose key management personnel compensation in total.

Critical Accounting Estimates The Directors make estimates and assumptions concerning the future in the process of preparing the entity financial statements. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year primarily relate to the carrying value of the investment in subsidiary undertakings. See Note 2 for further information on critical accounting estimates for the Company.

Going Concern As the Company's operational existence relies on the activities of the Company and its subsidiaries as a group (collectively, the "Group"), a going concern assessment performed at the Group level was deemed relevant to support the Company's ability to continue as a going concern. The Company's Directors formed a judgment at the time of approving these financial statements that there was a reasonable expectation that the Company has adequate resources to continue in operational existence for at least the next twelve months. In arriving at this conclusion, the Company's Directors took account of current and anticipated uncertainties driven by certain macro-economic and geopolitical factors (as described in greater detail under the heading "Going Concern" on page 49 of Note 1 of the consolidated financial statements) in its going concern assessment and

Medtronic plc Notes to the Company Financial Statements

believed that these uncertainties would not have a material impact on the Company's ability to continue as a going concern. For this reason, the going concern basis continues to be adopted in the preparation of the Company's financial statements.

Currency Translation and Exchange Gains and Losses The Company's functional and presentation currency is the U.S. dollar. Transactions denominated in currencies other than the functional currency are translated into U.S. dollars using the spot exchange rates at the dates of the transactions.

At the end of each financial year, monetary items are translated to the U.S. dollar using the closing exchange rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction, and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Currency exchange gains and losses are recognized in the profit and loss account as they arise.

Investment in Subsidiary Undertakings Investment in subsidiary undertakings is recorded at cost, which equaled fair value on the date of the completion of the Transaction, based on the market capitalization of Medtronic, Inc. and Covidien plc. This is the Company's cost basis for its investment in its subsidiary undertakings. The investment is tested for impairment if circumstances or indicators suggest that an impairment may exist. There were no circumstances or indicators suggesting impairment of the Company's investment in subsidiary undertakings in either the current or prior financial years.

Cash at Bank and In-Hand Cash at bank and in hand includes all cash balances and deposits which are repayable upon demand.

Share-based Payments The Company operates an equity-settled, share-based compensation plan for employees of some of its subsidiaries. The fair value of the employee services received in exchange for the equity instruments granted in each of the subsidiaries of the Company is recognized as an addition to the investment with a corresponding increase in equity as a contribution by the Company.

The proceeds received by the Company when share options are exercised are credited to share capital (nominal value) and the balance to share premium.

Financial Instruments The Company has chosen to apply the provisions of Sections 11 and 12 of FRS 102 to account for all of its financial instruments.

Financial assets

Basic financial assets, including trade and other debtors, cash at bank and in hand, receivables from fellow group companies and short-term deposits, are initially recognized at transaction price (including transaction costs), unless the arrangement constitutes a financing transaction. Where the arrangement constitutes a financing transaction the resulting financial asset is initially measured at the present value of the future receipts discounted at a market rate of interest for a similar debt instrument.

Trade and other debtors, cash at bank and in hand and financial assets from arrangements which constitute financing transactions are subsequently measured at amortized cost using the effective interest method.

At the end of each financial year, financial assets measured at amortized cost are assessed for impairment. If there is objective evidence that a financial asset measured at amortized cost is impaired, an impairment loss is recognized in the profit and loss account. The impairment loss is the difference between the financial asset's carrying amount and the present value of the financial asset's estimated cash inflows discounted at the asset's original effective interest rate.

If, in a subsequent financial year, the amount of an impairment loss decreases, and the decrease can be objectively related to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been had the impairment loss not previously been recognized. Any impairment reversal is recognized in the profit and loss account.

Financial assets are derecognized when (a) the contractual rights to the cash flows from the asset expire or are settled, (b) substantially all the risks and rewards of ownership of the financial asset are transferred to another party, or (c) control of the financial asset has been transferred to another party who has the practical ability to unilaterally sell the financial asset to an unrelated third party without imposing additional restrictions.

Financial liabilities

Basic financial liabilities, including trade and other creditors, bank loans, loans from fellow group companies and preference shares, are initially recognized at transaction price, unless the arrangement constitutes a financing transaction. Where the arrangement constitutes a financing transaction the resulting financial liability is initially measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Trade and other creditors, bank loans, loans from fellow group companies, preference shares and financial liability from arrangements which constitute financing transactions are subsequently carried at amortized cost, using the effective interest method.

Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is treated as a prepayment for liquidity services and amortized over the period of the facility to which it relates.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade creditors are classified as due within one year if payment is due within one year or less. If not, they are presented as falling due after more than one year. Trade creditors are recognized initially at transaction price and subsequently measured at amortized cost using the effective interest method.

Financial liabilities are derecognized when the liability is extinguished, that is when the contractual obligation is discharged, cancelled, or expires.

Contingencies Contingent liabilities, arising as a result of past events, are not recognized as a liability if it is not probable that the Company will be required to transfer economic benefits in settlement of the obligation, or the amount cannot be reliably measured. Possible but uncertain obligations are not recognized as liabilities but are contingent liabilities. Contingent liabilities are disclosed in the financial statements unless the probability of payment is remote. Contingent liabilities are considered a critical accounting estimate.

The Company has guaranteed certain liabilities and credit arrangements of the Company's subsidiaries. The Company reviews the status of these guarantees at each reporting date and considers whether it is required to make a provision for payment on those guarantees based on the probability of the commitment being called.

Share Capital Equity shares issued are recognized at the proceeds received. Incremental costs directly attributable to the issue of new equity shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Taxation Taxation for the financial year comprises current and deferred tax recognized in the financial year. Current or deferred tax assets and provisions are not discounted.

Current tax is the amount of income tax payable in respect of the taxable profit for the financial year or past financial years. Current tax is measured at the amount of current tax that is expected to be paid using tax rates and laws that have been enacted or substantively enacted by the end of the financial year.

Deferred tax is recognized in respect of all timing differences, which are differences between taxable profits and total comprehensive income as stated in the financial statements except in certain circumstances. Unrelieved tax losses and other deferred tax assets are recognized only when it is probable that they will be recovered against the reversal of deferred tax provisions or other future taxable profits. These timing differences arise from the inclusion of income and expenses in tax assessments in financial years different from those in which they are recognized in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the end of each financial year end and that are expected to apply to the reversal of the timing difference.

Dividends Dividends may only be declared and paid out of the profits available for distribution in accordance with accounting practice generally accepted in Ireland and applicable Irish company law. Any dividends, if and when declared, will be declared and paid in U.S. dollars. Dividends declared by the Directors are recognized when paid.

2. Critical Accounting Estimates and Judgments

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual

Medtronic plc

Notes to the Company Financial Statements

results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below:

Estimated impairment of investment in subsidiary undertakings

The Company assesses whether investment in subsidiary undertakings have suffered any impairment in line with the accounting policies stated. The determination of recoverable amounts requires the use of estimates. The Company's judgments in relation to the impairment of investment in subsidiary undertakings are included in Note 3.

3. Financial Assets

Investment in subsidiary undertakings

The principal activity of the Company is investment holding.

(in millions)

April 30, 2021	\$ 95,203
Dissolution of subsidiary undertaking	(18)
Capital contribution in respect of share-based compensation plans	 359
April 29, 2022	\$ 95,544

During financial year 2022, Medtronic Irish Finco Unlimited Company was dissolved, which resulted in an \$18 million decrease in the investment in subsidiary undertakings balance.

The Directors consider the recoverable amount of the investment in subsidiary undertakings to be in excess of the carrying value of the investments having considered the market capitalization of the Group.

Details of the Company's directly owned subsidiaries are as follows:

Name	Nature of Business	Group Share %	Registered Office and Country of Incorporation
Medtronic Luxembourg Global Holdings S.a.r.l.	Holding Company	100	40 Avenue Monterey, L-2163, Luxembourg
Medtronic Global Holdings GP S.a.r.l	Holding Company	100	40 Avenue Monterey, L-2163, Luxembourg
Integrated Health Solutions International S.a.r.l	Healthcare	100	Route du Molliau, 1131 Tolochenaz, Switzerland

4. Debtors

Debtors consisted of the following:

(in millions)	April 29, 2022		2 April 30, 20	
Amounts falling due within one year:				
Due from subsidiary undertakings	\$	61	\$	63
Other debtors and prepayments		15		13
Total amounts falling due within one year	\$	76	\$	76

Amounts owed to the Company from subsidiary undertakings are unsecured, non-interest bearing, and payable on demand.

5. Creditors

Creditors consisted of the following for amounts falling due within one year:

(in millions)	April	April 29, 2022		, 2021
Amounts falling due within one year:				
Income taxes payable	\$	31	\$	30
Accruals and other creditors		11		67
Total amounts falling due within one year	\$	42	\$	97

Other creditors are payable at various dates after the end of the financial year in accordance with the creditors usual and customary credit terms. Creditors for tax are payable in the timeframe set down in the relevant legislation.

Creditors consisted of the following for amounts falling due after more than one year:

(in millions)	April 29, 2022		9, 2022 April 30, 202	
Amounts falling due after more than one year:				
Due to subsidiary undertakings	\$	16,024	\$	10,767
Total amounts falling due after more than one year	\$	16,024	\$	10,767

At the balance sheet date, the amounts falling due after more than one year relate to two revolving loans the Company has with subsidiary undertakings. The total interest expense arising from the intercompany loans for financial years 2022 and 2021 was \$120 million and \$102 million, respectively. Both loans are due to mature in 2025 and have variable interest rates based on 90 - day U.S. dollar Secured Overnight Financing Rate (SOFR) plus a spread of 94 and 113 basis points respectively. Subsequent to the financial year, on June 9, 2022, the Company fully repaid the outstanding principal and interest of one of the intercompany loans, totaling \$1.3 billion.

6. Shareholders' Funds

Authorized and allotted shares were as follows:

(in millions, except share data)	April 29	2	April 30	, 202	1	
Authorized:	Number		Amount	Number		Amount
Ordinary Shares, \$0.0001 par value	2,600,000,000	\$		2,600,000,000	\$	_
Euro Deferred Shares, €1.00 par value	40,000			40,000		
Preferred Shares, \$0.20 par value	127,500,000		26	127,500,000		26
A Preferred Shares, \$1.00 par value	500,000		1	500,000		1
Total authorized		\$	27		\$	27
Allotted, called up and fully paid:						
Ordinary Shares, \$0.0001 par value	1,330,743,395	\$	_	1,345,400,671	\$	_
A Preferred Shares, \$1.00 par value	_		_	1,872		_
Total allotted, called up and fully paid		\$			\$	

Ordinary Shares The rights and restrictions attaching to the Ordinary Shares shall be as follows: subject to the right of the Company to set record dates for the purposes of determining the identity of members entitled to notice of and/or to vote at a general meeting and any rules or regulations applicable to the conduct of any general meeting of the Company, the right to attend and speak at any general meeting of the Company and to exercise one vote per Ordinary Share held at any general meeting of the Company; the right to participate pro rata in all dividends declared by the Company with respect to the Ordinary Shares; and the right, in the event of the Company's winding up, to participate pro rata with all other Ordinary Shares in the total assets of the Company.

The rights attaching to the Ordinary Shares shall be subject to the terms of issue of any series or class of Preferred Shares allotted by the Directors from time to time. All Ordinary Shares shall rank *pari passu* with each other in all respects.

Euro Deferred Shares The authorized share of capital of the Company includes 40 thousand Euro Deferred Shares, with a par value of €1.00 per share. There are no Euro Deferred Shares issued or outstanding in either the current or prior financial years.

Preferred Shares The Directors are authorized to issue all or any of the authorized but unissued Preferred Shares from time to time in one or more classes or series, and to fix for each such class or series such voting power, full or limited, or no voting power, and such designations, preferences and relative, participating, optional or other special rights and such qualifications, limitations or restrictions thereof, as shall be stated and expressed in the resolution or resolutions adopted by the Directors. No Preferred Shares are in issue in either the current or prior financial years.

A Preferred Shares The authorized share capital of the Company includes 500 thousand A Preferred Shares, with a par value of \$1.00 per share. During the financial year, the Company's Directors authorized, and the Company redeemed the previously outstanding 1,872 A Preferred Shares for \$0.075 million. At April 29, 2022, there were no A Preferred Shares outstanding.

Share Premium and significant transactions impacting the share premium account In connection with the completion of the Transaction, the Company issued a total of 436 million Ordinary shares of \$0.0001 each to the former Covidien shareholders and certain former Covidien award holders and the Company and Makani II Unlimited Company (Makani) paid, in aggregate, to the former Covidien shareholders and award holders approximately \$16.0 billion in cash. In consideration for the issuance of such Ordinary shares, the Company and Makani received 455 million Ordinary shares of Covidien plc and the benefit of the cancellation of the share awards. As the price paid for the Covidien Ordinary shares in connection with the completion of the Transaction was \$108.75 per share, the total value received by the Company and Makani, for the Covidien shares and for the benefit of the cancellation of the share awards, was in the amount of \$49.4 billion, of which \$33.3 billion was share premium on shares issued by the Company.

In addition to the issue of Ordinary shares to the former Covidien shareholders and certain former Covidien award holders in connection with the Transaction, on January 26, 2015, on completion of the Transaction and pursuant to the terms of the merger, the Company also issued 986 million Ordinary shares of \$0.0001 at a premium, which shares were, pursuant to the merger, transferred to the former Medtronic, Inc. shareholders on a one-for-one basis in exchange for each share of Medtronic, Inc. stock held immediately prior to the merger. As a result of the foregoing, Medtronic, Inc., became an indirect subsidiary of the Company. As the closing price of the Medtronic, Inc. common stock on the NYSE as at the trading day immediately prior to the completion of the Transaction was \$76.95 per share, the total value of the consideration received by the Company as consideration for the Ordinary shares issued by the Company was in the amount of \$75.9 billion of share premium.

On February 27, 2015, the Irish High Court approved the creation of distributable reserves of Medtronic plc through the reduction of the share premium account by \$59.2 billion. This resulted in a transfer of reserves from the share premium account to the profit and loss account of the same amount.

Share premium records amounts received, greater than the par value on issuances of the Company's ordinary share capital.

Profit and Loss Account The profit and loss account refers to the portion of accumulated comprehensive income and losses which are retained by the Company rather than being distributed to shareholders as dividends. Amounts related to the granting of shares under the stock compensation plan are also accounted for in this account.

Dividends During the year, the Company paid a dividend of \$3.4 billion and \$3.1 billion for financial years 2022 and 2021, respectively. The dividend per Ordinary Share was \$2.52 and \$2.32 for financial years 2022 and 2021, respectively.

7. Guarantees and Contingencies

The Company has the following contingent liabilities, estimated to amount to a potential maximum of \$24.2 billion and \$26.5 billion at April 29, 2022 and April 30, 2021, respectively, arising from the Company's guarantee of the Group debt outlined below.

Senior Notes On January 26, 2015, Medtronic plc and Medtronic Global Holdings S.C.A., an entity organized under the laws of Luxembourg ("Medtronic Luxco"), each provided a full and unconditional guarantee of the obligations of Medtronic, Inc. under the Medtronic Senior Notes (as defined below) and of Covidien International Finance S.A., a Luxembourg company ("CIFSA") under the CIFSA Senior Notes (as defined below). The Company also provides a full and unconditional guarantee of the obligations of Medtronic Global Holdings S.C.A under the Luxco Senior Notes (as defined below).

Of the \$24.2 billion, Medtronic, Inc. has \$6.5 billion aggregate principal amount issued and outstanding consisting of the following; \$1.9 billion aggregate principal amount of 3.500 percent senior notes due 2025, \$1.9 billion aggregate principal amount of 4.375 percent senior notes due 2035, \$158 million aggregate principal amount of 6.500 percent senior notes due

2039, \$224 million aggregate principal amount of 5.550 percent senior notes due 2040, \$105 million aggregate principal amount of 4.500 percent senior notes due 2042, \$305 million aggregate principal amount of 4.000 percent senior notes due 2043, \$127 million aggregate principal amount of 4.625 percent senior notes due 2044, and \$1.8 billion aggregate principal of 4.625 senior notes due 2045 (collectively, the "Medtronic Senior Notes").

CIFSA has \$253 million aggregate principal amount issued and outstanding, consisting of \$253 million aggregate principal of 6.550 percent senior notes due 2037 (the "CIFSA Senior Notes").

Medtronic Luxco has one tranche of USD-denominated Senior Notes (issued in March 2017) outstanding consisting of \$368 million of 3.350 percent Senior Notes due 2027.

Medtronic Luxco has €5.0 billion, Euro-denominated Senior Notes, with an aggregate principal amount issued and outstanding consisting of the following: €1.5 billion of 0.375 percent Senior Notes due in fiscal year 2023, €1.5 billion of 1.125 percent Senior Notes due in fiscal year 2027, €1.0 billion of 1.625 percent Senior Notes due in fiscal year 2031, and €1.0 billion of 2.250 percent Senior Notes due in fiscal year 2039 (collectively, the 2019 Senior Notes). The Company is party to a guarantee for the obligations of Medtronic Luxco for these issuances. The original issuance also included €500 million of floating rate Senior Notes, which were repaid upon their maturity in fiscal year 2021, and €1.5 billion of 0.000 percent Senior Notes, which were repaid prior to their maturity date during fiscal year 2021.

In June 2019, Medtronic Luxco issued six tranches of Euro-denominated Senior Notes with an aggregate principal of €5.0 billion, with maturities ranging from fiscal year 2021 to fiscal year 2050, resulting in cash proceeds of approximately \$5.6 billion, net of discounts and issuance costs. The issuance included €750 million of 0.000 percent Senior Notes due in fiscal year 2023, €1.0 billion of 0.250 percent Senior Notes due in fiscal year 2026, €1.0 billion of 1.000 percent Senior Notes due in fiscal year 2032, €1.0 billion of 1.500 percent Senior Notes due in fiscal year 2040, and €1.0 billion of 1.750 percent Senior Notes due in fiscal year 2050. The Company is also a party to a guarantee for the obligations of Medtronic Luxco for these issuances. The original issuance also included €250 million of floating rate Senior Notes, which was repaid upon its maturity in fiscal year 2021.

In September 2020, Medtronic Luxco issued an additional six tranches of Euro-denominated Senior Notes with an aggregate principal of ϵ 6.3 billion, with maturities ranging from fiscal year 2023 to fiscal year 2051, resulting in cash proceeds of approximately \$7.2 billion, net of discounts and issuance costs. The Company used the net proceeds of the offering to fund the early redemption of \$4.3 billion of Medtronic Inc. and CIFSA Senior Notes and ϵ 1.5 billion of Medtronic Luxco Senior Notes for \$6.3 billion of total consideration in October 2020. Additionally, the Company used the proceeds to repay its ϵ 750 million floating rate senior notes at maturity in March 2021. The issuance included ϵ 1.25 billion of 0.000 percent Senior Notes due in fiscal year 2023, ϵ 1.0 billion of 0.000 percent Senior Notes due in fiscal year 2029, ϵ 1.0 billion of 0.750 percent Senior Notes due in fiscal year 2033, ϵ 1.0 billion of 1.375 percent Senior Notes due in fiscal year 2041, and ϵ 1.0 billion of 1.625 percent Senior Notes due in fiscal year 2051. The Company is a party to a guarantee for the obligations of Medtronic Luxco for these issuances.

Commercial Paper On January 26, 2015, Medtronic Luxco entered into various agreements pursuant to which, it may issue United States Dollar denominated unsecured commercial paper notes (the 2015 CP Program) on a private placement basis and on January 31, 2020, Medtronic Luxco entered into various agreements pursuant to which Medtronic Luxco may issue Eurodenominated unsecured commercial paper notes (the 2020 CP Program) on a private placement basis. The Maximum aggregate amount outstanding at any time under the 2015 CP Program and the 2020 CP Program together may not exceed the equivalent of \$3.5 billion. The Company is a party to a guarantee for the obligations of Medtronic Luxco under the 2015 CP Program and the 2020 CP Program. At April 29, 2022 and April 30, 2021, the Company had no commercial paper outstanding.

Line of Credit On December 12, 2021, Medtronic Luxco, as borrower, entered into an amendment of its amended and restated credit agreement (Credit Facility), by and among the Company, Medtronic, Inc., Medtronic Luxco, the lenders from time to time party thereto, and Bank of America, N.A., as administrative agent and issuing bank, extending the maturity date of the Credit Facility to December 2026.

The Credit Facility provides for a \$3.5 billion five-year unsecured revolving credit facility (Credit Facility). At each anniversary date of the Credit Facility the Company can request a one-year extension of the maturity date. The Credit Facility provides the Company with the ability to increase its borrowing capacity by an additional \$1.0 billion at any time during the term of the agreement. The Company and Medtronic, Inc. have guaranteed the obligations of the borrowers under the Credit Facility, and Medtronic Luxco will also guarantee the obligations of any designated borrower. The Credit Facility includes a multi-currency borrowing feature for certain specified foreign currencies. At April 29, 2022 and April 30, 2021, no amounts were outstanding under the Credit Facility.

Term Loan Agreements On May 12, 2020, Medtronic Luxco entered into a term loan agreement (Fiscal 2021 Loan Agreement) by and among Medtronic Luxco, Medtronic plc, Medtronic, Inc., and Mizuho Bank, Ltd. as administrative agent and as lender. The Fiscal 2021 Loan Agreement provided an unsecured term loan in an aggregate principal amount of up to \pm 300 billion, with a term of six months, and the option to extend for an additional six months at Medtronic Luxco's option. On May 13, 2020, Medtronic Luxco borrowed the entire amount of the term loan under the Fiscal 2021 Loan Agreement. Borrowings under the Fiscal 2021 Loan Agreement carried interest at the TIBOR Rate (as defined in the Fiscal 2021 Loan Agreement) plus a margin of 0.50% per annum. Medtronic plc and Medtronic, Inc. guaranteed the obligations of Medtronic Luxco under the Fiscal 2021 Loan Agreement. On November 12, 2020, Medtronic Luxco exercised its option to extend the term loan for an additional six months. During the fourth quarter of fiscal year 2021, Medtronic Luxco repaid the term loan in full, including interest.

Subsequent to financial year 2022, on May 2, 2022, Medtronic Luxco entered into a term loan agreement (Fiscal 2023 Loan Agreement) by and among Medtronic Luxco, Medtronic plc, Medtronic, Inc., and Mizuho Bank, Ltd. as administrative agent and as lender. The Fiscal 2023 Loan Agreement provides an unsecured term loan in an aggregate principal amount of up to \\$300 billion with a term of 364 days. Borrowings under the Fiscal 2023 Loan Agreement bear interest at the TIBOR Rate (as defined in the Fiscal 2023 Loan Agreement) plus a margin of 0.40% per annum. Medtronic plc and Medtronic, Inc. have guaranteed the obligations of Medtronic Luxco under the Fiscal 2023 Loan Agreement. In May and June 2022, Medtronic Luxco borrowed an aggregate of \\$297 billion, or approximately \\$2.3 billion, of the term loan, under the Fiscal 2023 Loan Agreement. The Company used the net proceeds of the borrowings to fund the early redemption of \\$1.9 billion of Medtronic Inc. Senior Notes for \\$1.9 billion of total consideration, and \\$368 million of Medtronic Luxco Senior Notes for \\$376 million of total consideration.

The Company and some of its subsidiaries are involved in a number of legal actions involving product liability, intellectual property disputes, shareholder derivative actions, securities class actions, and other class actions. The outcomes of these legal actions are not within the Company's complete control and may not be known for prolonged periods of time. In some actions, the claimants seek damages, as well as other relief (including injunctions barring the sale of products that are the subject of the lawsuit), that could require significant expenditures or result in lost revenues. The Company records a liability in its financial statements for loss contingencies when a loss to the Company is known or considered probable and the amount can be reliably estimated. Estimates of probable losses resulting from litigation and governmental proceedings involving the Company are inherently difficult to predict, particularly when the matters are in early procedural stages, with incomplete scientific facts or legal discovery; involve unsubstantiated or indeterminate claims for damages; potentially involve penalties, fines or punitive damages; or could result in a change in business practice. While it is not possible to predict the outcome for most of these matters, the Company believes it is possible that costs associated with them could have a material adverse impact on the Company's profit, financial position, or cash flows. For further information related to specific litigation the Company and its subsidiaries are involved in refer to the consolidated financial statements Note 4.

8. Related-Party Transactions

The Company has not disclosed related party transactions between the Company and subsidiaries of Medtronic Plc, as it has availed of the exemption available under Schedule 3(67), paragraph 3, Companies Act 2014, which exempts disclosure of transactions entered into between two or more members of a group, provided that any subsidiary undertaking which, is a party to the transaction, is wholly owned by a member of that group.

9. Auditors' Remuneration

Remuneration (including expenses) for the statutory audit carried out for the Company by the Company's auditors in respect of the parent company financial statements is as follows:

	Financiai Year			
(in thousands)	2022			2021
Audit of Company financial statements (including expenses)	\$	28	\$	26

Note 25 to the consolidated financial statements provides additional details of fees paid by the Group to the statutory auditor, PricewaterhouseCoopers Ireland.

10. Subsequent Events

Subsequent events have been evaluated through September 1, 2022, the date this report was approved by the Directors. There have been no material events of note, since year end, other than those noted in Note 27 of the consolidated financial statements.

Medtronic plc Notes to the Company Financial Statements

11. Approval of Financial Statements

The Directors approved the financial statements on September 1, 2022.
