- These options become exercisable at the rate of 25% of the shares granted per year beginning on the first anniversary of grant.
- Each performance share unit represents a contingent right to receive one share of Medtronic common stock.
- The number of shares to be issued in connection with the performance share units ("PSUs") will vary depending on the level of certain performance metrics achieved over a three (3) year performance period. If target performance metrics are achieved, 4,947 shares will be issued. The actual number of shares to be issued could range from a low of 990 at minimum performance to a high of 9,894 shares at maximum performance. If minimum performance metrics are not met, such PSUs may vest at 0 shares.
